## School Board Approval

This plan was approved by the Charlotte County School Board on 10/9/2018.

## SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district that has a school grade of D or F.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F (see page 4). For schools receiving a grade of A, B, or C, the district may opt to require a SIP using a template of its choosing. This document was prepared by school and district leadership using the FDOE’s school improvement planning web application located at <https://www.floridacims.org>.

## Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a “living document” by continually updating, refining and

using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

**Part II: Needs Assessment/Analysis**

**Assessment & Analysis**

Consider the following reflection prompts as you examine any/all relevant school data sources, including those in CIMS in the pages that follow.

**Which data component performed the lowest? Is this a trend?**

Math Bottom Quartile students had the lowest performance with a 18%. We saw this was a two year trend. We also struggled in the area of ELA Bottom Quartile.

**Which data component showed the greatest decline from prior year?**

We had the greatest decline in the area of Math Bottom Quartile. Our data from the 2016-17 school year had Math Bottom Quartile growth at 48%.

**Which data component had the biggest gap when compared to the state average?**

With our Math Bottom Quartile at 18% we were significantly below the state average at 47%.

**Which data component showed the most improvement? Is this a trend?**

We had an improvement in Science from 48% of our students to 61% of our students proficient. In addition, we had an increase in Math Achievement from 58% to 63%.

**Describe the actions or changes that led to the improvement in this area.**

We attribute the increase in Science Achievement to scheduling changes that allowed our teachers to prioritize Science within their day. In addition we provided professional development to help assist teachers in the including Science content into the Comprehensive Literacy Framework.

**School Data**

Please note that the district and state averages shown here represent the averages for similar school types (elementary, middle, high school, or combination schools).

### Part III: Planning for Improvement

Develop specific plans for addressing the school's highest-priority needs by identifying the most important areas of focus based on any/all relevant school data sources, including the data from Section II (Needs Assessment/Analysis).

#### Areas of Focus:

<b>Activity #1</b>	
<b>Title</b>	To increase student achievement through standards based instruction, collaboration, and high effect size strategies.
<b>Rationale</b>	Our students need one year or more of gains s to allow them to be proficient at their grade level standards.
<b>Intended Outcome</b>	Increase our percent of students who make their learning gain, with a specific focus on increasing learning gains for Bottom Quartile students in both ELA and Math.
<b>Point Person</b>	Sheila Brown (sheila.brown@yourcharlotteschools.net)
<b>Action Step</b>	

<b>Description</b>	<p>Activity 1: ELA LEARNING GAINS with a laser-focus on the Lowest 25%</p> <ul style="list-style-type: none"> <li>- Critical Concepts training for one 3rd, 4th, and 5th grade teacher to become an expert at their content</li> <li>- Instructional Rounds and Learning Walks for teachers to learn from master teachers</li> <li>- Professional Development and implementation of Outcome Based Planning</li> <li>- Implement Learning Walks to observe highly effective teachers during instruction</li> </ul> <p>Activity 2: Math LEARNING GAINS with a laser-focus on the Lowest 25%</p> <ul style="list-style-type: none"> <li>- Critical Concepts training for one 3rd, 4th, and 5th grade teacher to become an expert at their content</li> <li>- Instructional Rounds and Learning Walks for teachers to learn from master teachers</li> <li>- Before/After School tutoring with highly effective teachers</li> <li>- Professional Development and implementation of Outcome Based Planning</li> <li>- Implement Learning Walks to observe highly effective teachers during instruction</li> </ul> <p>Activity 3: REDUCING THE ACHIEVEMENT GAP OF STUDENTS WITH DISABILITIES IN ELA</p> <ul style="list-style-type: none"> <li>- MTSS monitoring and planning during monthly team meetings and biweekly CORE team meetings</li> <li>- Hire intervention master teacher to push into inclusion classroom during ELA</li> <li>- Provide professional development for high effect size strategies for all students</li> <li>- Professional Development and implementation of Outcome Based Planning</li> <li>- Continue use of intervention classroom with ESE coach and paraprofessionals</li> </ul>
<b>Person Responsible</b>	Sheila Brown (sheila.brown@yourcharlotteschools.net)

<b>Plan to Monitor Effectiveness</b>	
<b>Description</b>	Teachers who participate in the Critical Concepts training and Instructional Rounds will share information with teammates during Collaborative Planning. Teachers will meet weekly to monitor student performance using formative assessments and implement Outcome Based planning. During monthly CORE team meetings we will review bottom quartile students progress and

determine if specific interventions are necessary. End of year assessments will be used to determine the effectiveness for each program.

## Part IV: Title I Requirements

### Additional Title I Requirements

This section must be completed if the school is implementing a Title I, Part A schoolwide program and opts to use the Pilot SIP to satisfy the requirements of the schoolwide program plan, as outlined in the Every Student Succeeds Act, Public Law No. 114-95, § 1114(b). This section is not required for non-Title I schools.

#### **Describe how the school plans to build positive relationships with parents, families, and other community stakeholders to fulfill the school's mission and support the needs of students.**

Liberty Elementary builds positive relationships with parents, families, and other community members to fulfill our school mission by including all stakeholders in decisions. We encourage all families to join us at PTO and SAC meetings and invite parents to attend our PFEP planning and the annual Family Engagement Conference.

#### **PFEP Link**

The school completes a Parental Involvement Plan (PFEP), which is available at the school site.

#### **Describe how the school ensures the social-emotional needs of all students are being met, which may include providing counseling, mentoring and other pupil services.**

- Bully Reporting--easy report system by clicking on a button link on the LES website
- Leadership roles are assigned to students, and every teacher uses a Positive Behavior Support (PBS) student management system. Classroom discussions are used to help build and maintain healthful relationships among students and to promote a classroom culture that is safe and conducive to teaching and learning.
- We use our Guidance, Social Worker and School Resource Officer to provide services to students in need.
- The school ensures the social and emotional needs are being met for all students by having a caring staff that goes out of their way to make sure that all students are okay.
- We partner with various community organizations to provide food, shelter, clothing and gifts for students in need.
- We provide numerous before and after school activities/clubs that all of our students are invited to participate in.
- We implemented a grandparents group to support the subgroup of our students being raised by grandparents.

#### **Describe the strategies the school employs to support incoming and outgoing cohorts of students in transition from one school level to another.**

\*Spring-LES hosts "Kindergarten Roundup," during which time, the area Kindergarten students and their parents are invited to come and see the building and register for school. Students are invited back before the year begins to have a screening assessment and meet

teachers.

\*Spring-Kindergarten parents are invited into the classrooms during Kinder Kickoff. Principal, Assistant Principal and Lead teachers do presentations regarding academic and behavioral expectations, and parents get to learn what a typical school day looks like. They get to walk through the schedule and ask questions. Students get to walk through the lunch line and come into our Model Classroom and do an activity with our Lead teacher.

\*Fall- Kindergarten parents will be invited to attend our Back to School Bash and Open House. Parents and students will be able to see their kindergarten classroom. Additionally, the teachers go over safety regulations and procedures concerning arrival and dismissal. Also, parents take part in discussion about the meaning of a Title I school, and they receive a copy of the Title I Compact Agreement.

\*Fifth grade students are given the opportunity to visit Murdock Middle School at the end of the school year during our Riser Night. Students and their parents visit classrooms, ask questions and meet with the administrative staff.

**Describe the process through which school leadership identifies and aligns all available resources (e.g., personnel, instructional, curricular) in order to meet the needs of all students and maximize desired student outcomes. Include the methodology for coordinating and supplementing federal, state and local funds, services and programs. Provide the person(s) responsible, frequency of meetings, how an inventory of resources is maintained and any problem-solving activities used to determine how to apply resources for the highest impact.**

Academic and behavioral warning systems help to identify students in need of interventions through a Multi-Tiered System of Supports (MTSS). Early and timely interventions can only occur when we have a system that alerts us of the concerns. Currently, the district has three systems that provide information to help make timely adjustments necessary for Student Success.

Focus-provides a variety of district reports regarding retention, referrals, ESE and ELL status, and attendance. Focus automatically generates 5 day and 10 day attendance letters to communicate a concern to the parents (guardians). In addition to the existing Focus reports, the Information Communications System (ICS) team is available to support school-based criteria for a custom report.

EDIS -data networks that provide a wide variety of academic reports that address both local and state assessment results. They use a color-coded system and filters which give the user opportunity to clearly see/identify students in need of intervention.

It is the responsibility of the Principal, Assistant Principal, Lead Teacher and District Personnel to determine the most efficient use of these programs. Principals, Assistant Principals, and Lead Teachers meet with District Personnel monthly to review the effectiveness of programs, personnel and funding.

I-Ready-provides a variety of student and school reports that show growth and proficiency in ELA and Mathematics.

**Describe the strategies the school uses to advance college and career awareness, which may include establishing partnerships with business, industry or community organizations.**

We have an annual Career Day where our students can learn about colleges and possible career paths. Students learn about these careers and complete thinking maps to show the necessary requirements for that field of work.
