## Demographics

**Principal: Julie Hopkins**

Start Date for this Principal: 8/26/2021

<b>2019-20 Status</b> (per MSID File)	Active
<b>School Type and Grades Served</b> (per MSID File)	Elementary School PK-2
<b>Primary Service Type</b> (per MSID File)	K-12 General Education
<b>2018-19 Title I School</b>	No
<b>2018-19 Economically Disadvantaged (FRL) Rate</b> (as reported on Survey 3)	<i>[Data Not Available]</i>
<b>2018-19 ESSA Subgroups Represented</b> (subgroups with 10 or more students) (subgroups in orange are below the federal threshold)	English Language Learners
<b>School Grades History</b>	2018-19: No Grade 2017-18: No Grade 2016-17: No Grade 2015-16: No Grade
<b>ESSA Status</b>	[not available]

## School Board Approval

This plan is pending approval by the Palm Beach County School Board.

## SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

1. have a school grade of D or F
2. have a graduation rate of 67% or lower
3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at [www.floridacims.org](http://www.floridacims.org).

### **Purpose and Outline of the SIP**

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

## Part I: School Information

### School Mission and Vision

#### **Provide the school's mission statement.**

Lighthouse Elementary School is committed to providing a world-class education with excellence and equity to empower each student to reach his or her highest potential with the most effective staff to foster the knowledge, skills, and ethics required for responsible citizenship and productive careers.

#### **Provide the school's vision statement.**

Lighthouse Elementary School envisions a dynamic collaborative multicultural community where education and lifelong learning are valued and supported, and all learners reach their highest potential and succeed in the global economy.

### School Leadership Team

#### **Membership**

Identify the name, email address, position title, and job duties/responsibilities for each member of the school leadership team.:

Name	Title	Job Duties and Responsibilities
Hopkins, Julie	Principal	School Leader develops standardized curricula, assesses teaching methods, monitors student achievement, encourages parent involvement, revises policies and procedures, administers the budget, hires and evaluates staff and oversees facilities.
Torres, David	Assistant Principal	Supports School Leader: Helps develop standardized curricula, assesses teaching methods, monitors student achievement, encourages parent involvement, revises policies and procedures, coordinates testing, orders and monitors textbooks, evaluates staff, and oversees facilities.
Thiele, Angela	Teacher, ESE	ESE Coordinator: Communicates with parents/teachers to support students with IEP/EPs. Collaborates with teachers to provide support for special education students, monitors student achievement and IEP goals/EP goals, discusses best practices with team members, and helps to identify students that need extra support.
Trivison, Tammy	Other	SAI Teacher, SBT Leader The School Leader: Communicates with parents/teachers to support students in the tiers with Response to Intervention specialized instruction. Collaborates with teachers to provide support for students that need extra reading intervention, monitors student achievement and RtI goals, discusses best practices with team members, and helps to identify students that need extra support. Coordinates and keeps records of all progress of students in SBT and RtI. Coordinates meetings to monitor students with parents, teachers, and support staff.
Marlow, Linda	Teacher, K-12	First Grade Teacher and Team Leader for 1st Grade: Implements the school curriculum with fidelity, collaborates with team members and provides leadership, monitors student achievement, discusses best practices with team members, and identifies students that need extra support.
Hetzel, Tracy	Teacher, K-12	Kindergarten Teacher and Team Leader for Kindergarten: Implements the school curriculum with fidelity, collaborates with team members, monitors student achievement, discusses best practices with team members, and identifies students that need extra support.
Griffin, Nicole	Guidance Counselor	PBS Coach and Character Education: Develops behavior plans, coordinates 504 meetings, communicates with parents/

Name	Title	Job Duties and Responsibilities
		teachers/students, supports migrant children, and refers parents to community resources.
Kainec, Kathy	Teacher, ESE	ESE Teacher K-2: Implements IEPs with fidelity, collaborates with teachers, monitors student achievement, discusses best practices with team members, and supports teachers with implementing IEPs in the classroom.

**Demographic Information**

**Principal start date**

Thursday 8/26/2021, Julie Hopkins

**Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Highly Effective.** *Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.*

0

**Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Effective.** *Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.*

0

**Total number of teacher positions allocated to the school**

32

**Total number of students enrolled at the school**

596

**Identify the number of instructional staff who left the school during the 2020-21 school year.**

1

**Identify the number of instructional staff who joined the school during the 2021-22 school year.**

**Grade Level Data Review - Progress Monitoring Assessments**

**Provide the progress monitoring tool(s) by grade level used to compile the below data.**

Progress monitoring also allows teachers and administrators to track students' academic progress or growth across the entire school year. Teachers use student performance data to continually evaluate the effectiveness of their teaching and make more informed instructional decisions. If the rate at which a particular student is learning seems insufficient, the teacher can adjust instruction. Various reports will be used to monitor and support student learning: Grades K-2 we will use iReady for Fall, Winter & Spring

- iReady: Provides user-friendly dashboards and clear reports with actionable data that give teachers a foundational understanding of students' strengths and areas of need.

- Unit Standardized Assessments USAs gives teachers data on how well the students have mastered the standard. Supports the monitoring of student learning and provide ongoing feedback that instructors can use to make adjustments to instruction to improve student learning.

- SuccessMaker: Provides user-friendly dashboards and clear reports with actionable data that give teachers a foundation understandind of students' strengths and areas of need.

Grade 1					
		Number/% Proficiency	Fall	Winter	Spring
English Language Arts	All Students		46.7	53.2	75.1
	Economically Disadvantaged		23.7	35.9	61
	Students With Disabilities		6.3	18.8	25
	English Language Learners		50	50	83.3

## Analysis

### Data Analysis

Answer the following analysis questions using the progress monitoring data and state assessment data, if applicable.

### **What trends emerge across grade levels, subgroups and core content areas?**

The beginning of the year diagnostic for iReady reading for grades Kindergarten through second grade for the years 2021 and 2022 are comparable with students that scored mid or above grade; early on grade level; one grade level below and two grade levels below in overall reading. The overall placement scores for the 2021 school year were: 34% mid or above grade level; 20% early on grade level; 43% one grade level below and 3% two grade levels below in reading. The overall placement scores for the 2022 school year were: 24% mid or above grade level; 21% early on grade level; 51% one grade level below and 5% two grade levels below in reading. In first grade, the fall proficiency rate for English Language Arts was 46.7% by spring the proficiency rate increased to 75.1%. In second grade, the fall proficiency rate for English Language Arts was 54.5% by spring the proficiency rate increased to 70.4%. The mathematics proficiency rate increased from the winter to the spring in first grade from 98.5% to 99.5%. In second grade, there was no significant change from winter (98.9%) to spring (98.1%). There is a similar trend among the subgroups with the English Language Learners demonstrating the most improvement.

If we focus on standards-based instruction to increase learning gains in school-wide ELA, then we will increase student achievement and ensure alignment to the District's Strategic Plan (Theme 1 - Goal 2). High quality early literacy instruction is crucial to reading on grade level.

### **What data components, based off progress monitoring and 2019 state assessments, demonstrate the greatest need for improvement?**

Standards-based instruction will be a primary focus during instructional planning, PLCs, and during data chats.

The iReady reading data from the final diagnostic assessment in 2021 identified two areas of weakness across all grade levels K-2, they were phonics and vocabulary. There were 9% of Kindergarten students, 17% of first grade students, and 20% second grade students that scored one year or more below grade level in phonics at the end of the school year. There were 8% of Kindergarten students, 28% of first grade students, and 17% of second grade students that scored one year or more below grade level in vocabulary at the end of the school year. The iReady reading data from the first diagnostic assessment of the 2022 school year also identified the same two areas of weakness across all grade levels K-2. In Kindergarten, 57% of students were identified as one or more years below grade level in phonics. In first grade, 51% of students were identified as one or more years below in phonics and in second grade 52% of students were identified as one or more years below in phonics. In the area of vocabulary, 62% of Kindergarten students scored one or more years below grade level. 64% of first graders and 53% of second graders also scored one or more years below grade level based on the beginning of the 2022 school year iReady diagnostic. The greatest need for improvement is in the areas of phonics and vocabulary for grade K-2.

### **What were the contributing factors to this need for improvement? What new actions would need to be taken to address this need for improvement?**

There were limited opportunities for small group instruction for reading and writing during the 2020-2021 school year due to safety restrictions. Students that would normally be pulled for individual instruction or small group work to support phonics and vocabulary development, had limited opportunities for extra support. Some of the limitations were due to the fact that teachers were trying to meet the needs of both "in person" students and "virtual" students while simultaneous teaching. Students working virtually did not always print or pick up the classroom materials being used in the classroom and parents did not always monitor students working from home to ensure they were focused on the classroom instruction. It was evident in first and second grade that Words Their Way was not being taught as explicitly as necessary in every classroom to support a strong understanding of phonics.

New Actions to address this need for improvement include: Implementing the newly adopted reading

series by Benchmark Advance which has explicit daily teaching of both phonics and vocabulary. The curriculum spirals so that teachers will continue to teach, review, and practice previously taught content including phonics and vocabulary. Teachers will begin working in small groups again this year to support reading, writing, vocabulary development, and phonics. All students are "in person" learning this year, so teachers have more opportunities to identify students that are struggling and need extra support in order to meet grade level expectations.

### **What data components, based off progress monitoring and 2019 state assessments, showed the most improvement?**

Based on progress monitoring, using iReady diagnostic data and comparing data from 2020 to 2021 to identify the domains supporting the reading process, there were two areas that continued to show no significant changes from one year to the next and would be considered strengths for our students: phonological awareness and high-frequency word knowledge. The overall placement for K-2 in phonological awareness on the final diagnostic in 2020 identified 95% of all students on grade level and 5% one level below grade level. This is comparable to the overall placement in 2021 on the iReady final diagnostic which identified 94% of all K-2 students on grade level and 6% one level below grade level in phonological awareness. On the end of year high frequency word assessment in 2020, 95% of all students were on grade level and 5% were one level below grade level. In 2021, 92% of all K-2 students were on grade level when reading high frequency words and 8% were one level below grade level.

There was no area in literacy that demonstrated significant improvement from 2020 to 2021, but maintaining achievement in these two areas (phonological awareness and high frequency words) supports students with building a foundation for the reading process.

### **What were the contributing factors to this improvement? What new actions did your school take in this area?**

Teachers continue to teach high frequency words during both reading and writing instruction. Word walls support students use of using high frequency words in both their writing and when making reading connections. High frequency words are introduced when reading aloud or during shared reading times. Students practice writing high frequency words on whiteboards and during their independent writing times. Teachers require students to know the words that have been practiced and are on the word wall when reading and writing. Words Their Way incorporates many of the high frequency words and helps students to identify similar patterns in other words. Students then learn to generate new words from known words. Phonological awareness is taught throughout the reading and writing block too. Teaching students rhyming and helping them notice words that start with the same sound, or blend sounds together to make words supports awareness of sounds in words. Kindergarten teachers used Foundations to help students learn sounds while connecting them to visuals and movement. First and Second Grade teachers used Words Their Way to help students understand word patterns and categorize words that had the same patterns/sounds in them. Creating anchor charts to support phonological awareness helps students practice coming up with new words that have the same sounds in them. Anchor charts are posted for students to refer back to when they need to remind themselves of a previous lesson to help with their reading or writing.

### **What strategies will need to be implemented in order to accelerate learning?**

The following strategies will need to be implemented in order to accelerate learning: 1. Teachers will need to implement the new reading program "Benchmark Advance" with fidelity in order to build a strong reading foundation. 2. Daily small group reading instruction will need to take place to support all learners and differentiate instruction. 3. Students will need opportunities to participate in reader's theater to practice reading fluency. 4. Daily explicit phonics instruction will support students with reading and writing. 5. Teachers will need to model through reading aloud and writing instruction

samples. 6. Students that are below grade level will need to be provided extra reading support using Leveled Literacy Instruction (LLI) materials. 7. Teachers will need to monitor and track students' progress using iReady reading, informal assessments, Benchmark assessments, and through observation. 8. Students that are struggling need to be referred to School Based Team if they do not make progress using LLI materials. 9. Students need daily opportunities to write and practice in their response notebooks. 10. Teachers will need to collaboratively plan and discuss the new reading materials during their professional learning community meetings. 11. Administrators will need to continue to monitor classrooms for proper implementation of new reading series. 12. Administrators will need to monitor students that are not meeting grade level expectations in reading and ensuring all support services are available for them.

**Based on the contributing factors and strategies identified to accelerate learning, describe the professional development opportunities that will be provided at the school to support teachers and leaders.**

Professional development that will be provided to accelerate learning and support teaching include: 1. Professional Learning Community (PLC) meetings with grade level teams several times a month. During the PLC times, teachers will plan collaboratively and receive extra professional development from a district reading expert that focuses on Benchmark Advance components: building vocabulary; explicit phonics instruction; and applying foundational skills in reading and writing. 2. Professional Development Days focused on the new literacy materials and assessments incorporated within Benchmark Advance. Electronic assessments will be modeled and shown how to use for monitoring students' performance. 3. District has provided a specific Google Classroom for each grade level to allow teachers opportunities for additional professional development including watching videos and question/answer forums about the new Benchmark materials. 4. Monthly literacy professional development will be provided on-line for teachers to continue their "unpacking" of the new literacy standards and learn how they can measure students' performance using the new Benchmark literacy materials. 5. Teachers will have the opportunity to observe each other implementing different components of the new reading series and learn from one another during debriefings about the observations.

**Provide a description of the additional services that will be implemented to ensure sustainability of improvement in the next year and beyond.**

Professional development will be ongoing as teachers complete their first year of implementation during the 2021-2022 school year. Administrators will continue to provide coaching and opportunities to observe colleagues in action during learning walks. District personnel will continue to provide support and feedback to teachers to help them with implementing Benchmark Advance with fidelity. Teachers will remain focused on the new materials for literacy and will not be using outdated materials or any materials that are not on adoption currently. Professional Learning Community time will still be provided to all teachers to continue to meet with teams several times a month to plan, collaborate, and explore materials and/or assessments. The School Leadership Team will continue to meet regularly to discuss "next steps" for teaching/learning for continuous improvement. Team Leaders will continue to meet monthly to share concerns or pose questions regarding curriculum, professional development, and ways to support their grade level teams. Administrators will continue to monitor classrooms through both formal and informal observations to ensure Benchmark Advance is implemented with fidelity.

## Part III: Planning for Improvement

### Areas of Focus:

**#1. Instructional Practice specifically relating to B.E.S.T. Standards**

**Area of Focus Description and Rationale:**

If we focus on standards-based instruction to increase learning gains in school-wide ELA, then we will increase student achievement and ensure alignment to the District's Strategic Plan (Theme 1 - Goal 2). High quality early literacy instruction is crucial to reading on grade level. Our goal is to improve the percentage of students that are on or above grade level at the end of the school year by 5% compared to the 2021 final diagnostic in iReady. Overall placement of students had 75% of all students meeting grade level ELA expectations, 14% of all students had met some of the grade level expectations, 12% were one grade level below and 1% were two grade levels below. By increasing the number of students on or above grade level to 80%, the number of students not quite meeting all benchmarks or below grade level at the end of the school year will decrease. Having 34 course failures at the end of 2021 in ELA indicates our focus needs to remain on standards based instruction to ensure success in early reading literacy benchmarks in all grade levels.

By continuing our work with early intervention, students that are not keeping up with their peers on ELA standards and need extra support will be identified early on and referred to the School-based team. The team will help teachers by providing coaching and assistance with research based materials to use to help close learning gaps for these students. Extra intervention will continue until students have closed learning gaps and are working on grade level standards. Our current placement data for the 2021-2022 school year has 24% of students on or above grade level; 21% early on grade level; 51% one grade level below and 5% two grade levels below in reading.

**Measureable Outcome:**

By the end of the 2021-2022 school year, we will increase the overall percentage of students making learning gains in ELA by 5% bringing us up to 80%. Additionally, we will lower the percentage of students that are one or two grade levels below on ELA (iReady) by 5% reducing our percentage to 8% from 13%. Students that are identified as Economically Disadvantaged only had a success rate of 61% of students meeting ELA proficiency at the end of the 2020-2021 school year and Students with Disabilities only had a success rate of 25% of students meeting ELA proficiency by year end. We will focus on increasing the percentage of students in both of these subgroups by at least 5% in ELA.

**Monitoring:**

Monitoring will be accomplished through regular review of lesson plans; data analysis; classroom walks; student work samples; data chats; formal observations; Professional learning communities (PLC); and all student assessments. Team leaders will be reporting out on PLCs regularly and meeting with administration. School-based team meetings (SBT) will be held weekly to discuss student performance and identify low performers that need extra intervention. Data will be discussed during weekly SBT meetings and following observations by administration. Data will be reviewed by the School Leadership team on a monthly basis.

**Person responsible for monitoring outcome:**

Julie Hopkins (julie.hopkins@palmbeachschools.org)

**Evidence-based Strategy:**

Professional Learning Communities (PLC) will ensure all teachers collaborate to focus on best practices and methodologies. Teachers will have the opportunity to review new literacy materials and plan based on B.E.S.T. literacy standards. Professional development will be provided during PLCs and also on separate days to support the development of teacher expertise with the new standards as well as the new literacy materials. Data will be shared and analyzed during PLC to help support best instructional practices.

Small group instruction will be implemented in all classrooms daily to support students learning at their ability and to differentiate based on individual student needs.

Monthly unit assessments, iReady instruction, and informal assessments will be used to ensure teachers have data to inform their instruction and adjust teaching as needed.

Technology based instruction in reading will be incorporated daily (iReady) and data used to drive instruction.

Professional Learning Communities and professional development allow teachers and leadership an opportunity to collaborate, to analyze data, and to make decisions to improve student achievement.

**Rationale  
for  
Evidence-  
based  
Strategy:**

Small group instruction allows teachers to use information from data to differentiate lessons and meet the students' individual needs for standards based practice. This setting also provides teachers with the opportunity to address the areas of weakness needed to remediate students' literacy skills.

iReady technology provides teachers feedback on foundational skills for reading and helps teachers to identify areas to remediate that they can differentiate during small groups and/or with individual students that need extra help.

District assessments can be used to plan for standards based instruction and help teachers to identify areas of weakness that need to be remediated.

**Action Steps to Implement**

1. Professional Learning Communities (PLC) and Professional Development (PD) Sessions: (a) PLC schedule is created to ensure all teachers meet with their team members on a regular basis weekly. (b) Both PLC and PD will focus on the new BEST standards and the new literacy materials adopted this year. (c) PD will be focused on the new BEST standards and the new literacy materials. (d) Assessments and data will be discussed during meetings to help with planning for differentiation.

**Person Responsible** Tracy Hetzel (tracy.hetzel@palmbeachschools.org)

2. Small Group Instruction: (a) Small group instruction will be intentionally planned and implemented daily during the literacy block. (b) Teachers will use assessments and iReady data to analyze students' weaknesses and strengths to differentiate during small group instruction. (c) Formative assessments will be used to track students and ensure they are meeting the BEST standards and all grade level expectations. (d) Teachers will provide explicit, direct instruction during small group time and conduct ongoing monitoring of students' progress

**Person Responsible** Julie Hopkins (julie.hopkins@palmbeachschools.org)

3. iReady Technology: (a) Students will complete a minimum of 45 minutes per week using the iReady reading program. (b) Teachers will use data from iReady to help with differentiating instruction during small group time and for whole group review lessons. (c) Data will be used to help to identify students that need remediation or an extra level of support during SBT meetings. (d) Data will be discussed during data chats with administration. (e) Progress monitoring will occur using iReady Diagnostic data throughout the year.

**Person Responsible** David Torres (david.torres1@palmbeachschools.org)

4. District Assessments: (a) Teachers will use district assessments to plan and differentiate while planning standards based literacy instruction. (b) Teaching practices will be discussed during PLCs based on the

common assessments that students have taken. (c) Administration and teachers will use assessments to monitor students and ensure all are meeting the BEST standards. (d) Assessments will be used during SBT meetings to discuss students and plan for extra intervention. (e) School Leadership team will analyze assessment data to help plan for professional development opportunities to improve professional practice.

**Person Responsible** Jennifer Klug (jennifer.klug@palmbeachschools.org)

### Additional Schoolwide Improvement Priorities

Using the [SafeSchoolsforAlex.org](https://www.safeschoolsforalex.org), compare the discipline data of the school to discipline data across the state and provide primary or secondary areas of concern that the school will monitor during the upcoming school year. Include how the school culture and environment will be monitored through the lens of behavior or discipline data.

**When comparing our school's discipline data with that of the State, it was noticed that our school's data was significantly lower in all categories of discipline. Our consensus, therefore, concluded that a plan of action would be needed to prevent areas of concern rather than to create a plan of action that would mitigate such concerns. The implementation of several strategies were discussed with pertinent team members such as our school based team and our school leadership team. A robust strategy incorporating several approaches was developed with the participation of our team members. The development of this plan was largely based on the social and environmental needs of our stakeholders while simultaneously factoring in district policies and protocols. How our approach was to be monitored was discussed at length with our team members. The school culture and environment was to be monitored using discipline data such as the corrective behavior intervention report (2464), referrals, discussions with the school base team, and discussions with the school wide positive behavior support team.**

**Social emotional learning is one of the strategies used at Lighthouse elementary by both teachers and staff members. We strive to meet the social emotional needs of our students to ensure that learning can take place in a safe environment. Our teachers use several social emotional learning strategies throughout the day and when needed. Teaching self-awareness techniques, encouraging students to be kind to others, and building self-esteem are some of the ways our teachers help our students become better Lighthouse citizens.**

**Lighthouse elementary acknowledges the stressful times our students are living in. Keeping this in mind we use conscious discipline to try to mitigate negative conditions that may occur due to the demanding times these students face. Our focus is to create a compassionate school culture that addresses the individual needs of our students. Using conflicts that may arise as learning opportunities our teachers model correct behavior, reteach and counsel students on the spot in an effort to teach coping skills, and build confidence in problem solving by teaching problem solving skills.**

**We also use a check-in/check-out strategy with our high needs students. Our Guidance Counselor sets up times where some of our students can check-in with her during the early part of the day and check-out with her just before dismissal. The time spent with the guidance counselor is used to have conversations about feelings and thoughts that may be troubling the students. A positive reward point system which allows students to participate in a treasure box is also used to encourage our students to choose the correct behaviors during challenging times. We have the pleasure of having a wonderful behavior health support person on campus. Mrs. Danielle, as she is kindly referred to by our students and staff, is a highly qualified and extremely effective Behavioral Health Intervention Specialist. She is soft spoken and patient, this coupled with her calm demeanor makes for a perfect match for some of our most difficult students. Mrs. Danielle uses social emotional learning strategies, conscious discipline, and play therapy to reach our students. Mrs. Danielle's contribution to our school's culture cannot be overstated.**

**Our school resource officer is well loved and appreciated by our students and parents. The officer greets our students every morning, offering encouragement to our students and parents when the need arises. The school officer's engagement with the parents and students have been a positive part of our school's arrival time. Our officer is always available to walk students to and from classrooms and has a positive attitude with staff and students whenever he is called on for assistance.**

**Our plan also addresses the physical environment of the school. We believe that a safe campus should not only address the emotional aspects of education but the physical aspects as well. The Safety and Wellness Committee at Lighthouse meets five times a year to address needs regarding campus safety. Discussed are topics such as student and staff injuries, playground safety, and building security.**

## Part IV: Positive Culture & Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

### Describe how the school addresses building a positive school culture and environment.

Our school integrates Single School Culture by sharing our Universal Guidelines for Success and communicating these expectations to parents via student protocols, and monitoring SwPBS through data. Our SWPBS Team conducted a behavior matrix and posted expectation posters throughout the school, as well as kid friendly videos. In alignment, to school board 2.09 and Florida State statute 1003.42 our school highlights multicultural diversity within the curriculum and the arts. We also have parent/family multicultural nights.

In alignment with the District's Strategic Plan and with the goal to increase academic instruction of all students - Students are immersed in rigorous tasks encompassing the full intent of the Florida State Standards including the content required by Florida State Statute 1003.42 continuing to develop a Single School Culture of excellence in academics, behavior, and climate with an appreciation of multicultural diversity in alignment with S.B. policy 2.09.

Lighthouse infuses multicultural content into the lessons during group planning sessions. Multicultural literature is infused in the reading and writing. Additionally, the school will infuse the content required by Florida Statute

1003.42(2) and S.B. Policy 2.09(8)(b), as applicable to appropriate grade levels, including but not limited to: \*History of Holocaust \*History of Africans and African Americans \*Hispanic Contributions \*Women's Contributions \*Sacrifices of Veterans Lighthouse Elementary will provide and demonstrate to faculty members simple strategies for gaining information about students' cultures. The multicultural committee will schedule and plan schoolwide multicultural projects. Additionally, the school will embed cultural activities within curriculum and daily

course work such as reading selections and writing prompts. Addressing these areas of focus as outlined by Florida Statute 1003.42(2) and S.B. Policy 2.09(8)(b), will contribute to the continuous monitoring of proven successful actions and processes as well as the development of new actions and processes to benefit student achievement. These deliberately designed action steps and processes are research based with a history of success. They share a common theme of impacting student achievement.

Our PBIS universal school guidelines and matrix is evident through specific practices and students will be responsible to abide by the guides to be a Responsible, Respectful and Safe student. Lighthouse continues to maintain a Single School Culture of excellence and strives to improve climate in a variety of ways. We continue to maintain a single school culture through PBIS quarterly celebrations as well as advisory sessions that discuss applicable topics based on school culture/climate and mental health. We also are implementing the mental health lessons mandated by the state of Florida utilizing the Suite360 lessons.

Suite 360 is the curriculum that the school district selected to implement the five-hour state mandated instruction related to youth mental health and awareness. Throughout the suite 360 curriculum, students participated in lessons on the following topics: Mental Health Awareness and Assistance, Prevention of Substance Misuse, Child Trafficking, and Awareness of Resources and the Process of Assessing Treatment.

The School Behavioral Health Professional (SBHP) supports the behavioral and mental health of students. The SBHP position started for the 2019-2020 school year as part of the Marjory Stoneman Douglas High School Public Safety Act to have more mental health professionals in schools and is funded through local referendum dollars. All schools in Palm Beach County have a SBHP.

Resources- 2-1-1 is a community helpline and crisis hotline that provides suicide prevention, crisis intervention, information, assessment, and referral to community services for people of all ages. Caring staff will listen to each individual's situation to provide information on available social services, community services and resources that include food assistance, medical clinics, foreclosure prevention, parenting info on developmental concerns (Help Me Grow) & special needs, senior services that include free "Sunshine" daily calls, services for teens and more. Calls are Free, Confidential, and available 24/7.

Additional resources (e.g., clothing, backpacks, supplies) are provided to students experiencing homelessness. The School Counselor works in partnership with families and the District McKinney-Vento liaison to ensure the needs of these families and students are met.

A District Migrant Liaison coordinates with our ESOL Coordinator and School Counselor to provide school and community support services for the families of our migrant students. These supports are supplemental to school-wide supports for students and families.

Our ESOL Coordinator and CLF work in conjunction with the District's Multicultural Department to ensure the implementation with fidelity of programs and services designed to improve the outcomes of our English Language Learners.

Monitoring of attendance, including late drop-offs and early pick-ups by our teachers, the counselors, and the SBT is key to building a positive culture.

### **Identify the stakeholders and their role in promoting a positive culture and environment at the school.**

Guidance Counselor: Supports a positive culture and environment through daily character lessons.

Behavioral Health Professional: I provide mental wellness awareness, education, interventions and supports to students, staff and families. I provide support, counseling, social-emotional learning and wellness with students. I help students to focus on the positives, use their strengths, practice kindness with themselves and others, apply positive affirmations and practice a growth mindset. The students learn coping strategies through mindfulness, relaxation, distraction, processing, sensory, movement and calming skills. I am also the internal coach with the Positive Behavior Supports team and we acknowledge, focus and encourage positive behavior with students and staff through modeling, teaching and practice of our school wide expectations to be safe, be respectful and be responsible!

Classroom Teachers: Teachers: incorporate SwPBS; a framework that brings together school communities to develop positive, safe, supportive learning cultures. SWPBS assists schools to improve social, emotional, behavioral and academic outcomes for children and young people. to ensure all students have equitable and equal opportunity to learn in a positive environment. Tier 1: Universal Prevention (All) Tier 1 supports serve as the foundation for behavior and academics. Tier 2: Targeted Prevention (Some) support focuses on improving specific skill deficits students have. Tier 3: Intensive, Individualized Prevention (Few)

Administration: The principal of the school supports a positive culture and environment in the school by being an active participant in all Positive Behavior Support meetings (PBS) and also by supporting the PBS initiatives that the team implements to focus on positive behavior. Each morning on the school news, children are reminded of the Three "Bees" we follow at Lighthouse Elementary: Be Responsible, Be Respectful, and Be Safe. Examples are given to help our children understand how to put these into practice in their classroom, on the playground, in the cafeteria, and during arrival/dismissal times. Each Friday, students that have demonstrated great character traits throughout the week get a chance to have their name drawn on the morning news. The principal presents each of the five students selected with a special bracelet to wear to show off their good character. Special "dog tags" are also presented to students throughout the day when they are caught being good. To support teachers, the principal protects their teaching time and provides time for collaboration/planning within their teams. Teachers are recognized in the school news and during faculty meetings to celebrate the role they play in supporting a positive culture and environment. All voices are listened to and heard to implement improvements or changes that will make the school a better place for everyone.

Support Staff: All members of the support staff support promoting a positive culture and environment by greeting children, parents, and visitors to our school in a friendly and helpful manner. This team of individuals help around the school by greeting children in the morning as they enter the school or as they help them out of their cars. Everyone has been trained on making families feel welcome to the school when they are registering or want to take a tour of the buildings. Staff members also support the classroom teachers by helping them with students that may need a little extra attention or escorting students that arrive late or leave early. Their assistance in the cafeteria at breakfast and/or lunch also creates a warm helpful environment for everyone.

School Police Officer: As the school police officer I take great pride in protecting our most precious children. Physical safety of our children is only part of the responsibility. It is in my opinion that our children's mental well being is also being protected. Each and everyday I'm at our school interacting with our children, I make sure I attempt to display my attention to every child I encounter by giving them a big smile and wishing them a great day! I give the kids fistbumps and hugs and when I see one of the children upset or not having the best of days I'll speak with them and try to make their day better. In the morning at arrivals I attempt to interact with as many as the parents that I can and make sure everything is going well with their children at home. During the course of my day as I interact with the children throughout our campus I express to them the importance of safety and to be kind and considerate to their teachers, classmates and other students. With the investment of attention, our children will do great things in this world!

<b>Part V: Budget</b>			
<b>1</b>	<b>III.A.</b>	<b>Areas of Focus: Instructional Practice: B.E.S.T. Standards</b>	<b>\$0.00</b>
<b>Total:</b>			<b>\$6,080.00</b>
