Demographics

Principal: Bradley Martin

Start Date for this Principal: 6/9/2020

2019-20 Status (per MSID File)	Active
School Type and Grades Served (per MSID File)	Elementary School PK-5
Primary Service Type (per MSID File)	K-12 General Education
2018-19 Title I School	No
2018-19 Economically Disadvantaged (FRL) Rate (as reported on Survey 3)	<i>[Data Not Available]</i>
2018-19 ESSA Subgroups Represented (subgroups with 10 or more students) (subgroups in orange are below the federal threshold)	Asian Students Black/African American Students Economically Disadvantaged Students English Language Learners Hispanic Students Students With Disabilities White Students
School Grades History	2018-19: B (61%) 2017-18: A (69%) 2016-17: A (70%) 2015-16: B (59%)
2019-20 School Improvement (SI) Information*	
SI Region	Southeast
Regional Executive Director	LaShawn Russ-Porterfield
Turnaround Option/Cycle	N/A
Year	
Support Tier	
ESSA Status	TS&I

* As defined under Rule 6A-1.099811, Florida Administrative Code. For more information, [click here](#).

School Board Approval

This plan is pending approval by the Orange County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

1. have a school grade of D or F
2. have a graduation rate of 67% or lower
3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Part I: School Information

School Mission and Vision

Provide the school's mission statement.

With the support of families and the community, we create enriching and diverse pathways that lead our students to success.

Provide the school's vision statement.

To ensure every student has a promising and successful future.

School Leadership Team

Membership

Identify the name, email address, position title, and job duties/responsibilities for each member of the school leadership team.:

Name	Title	Job Duties and Responsibilities
Urdaneta, Fresia	Principal	<p>The principal job duties include managing all aspects of the organization. Some of the responsibilities include:</p> <ul style="list-style-type: none"> * Work with district-level administrators, superintendents, faculty, and staff to ensure the smooth running of schools * Work with the leadership team and teachers to set performance goals * Hiring and evaluating staff * Visiting classrooms and providing constructive feedback * Prepare budget * Coordinating student master schedules and staff schedules * Oversee the development of curriculum * Ensure school board policies are followed * Tracking of all student progress in all content areas
Patterson, Ellen	Instructional Coach	<p>The instructional coach is responsible for working cooperatively and effectively with colleagues, including the ability to nurture a professional learning community of adult learners.</p> <ul style="list-style-type: none"> * Works closely with teachers to provide effective constructive feedback * Guides teachers through the coaching cycle * Follows up on instructional modifications based on feedback * Support grade level team leader during professional learning community meetings * Plans and provides professional development to staff * Collect and analyze grade level data to develop instructional strategies to increase student achievement
DePriest, Christie	Instructional Coach	<p>The instructional coach is responsible for working cooperatively and effectively with colleagues, including the ability to nurture a professional learning community of adult learners.</p> <ul style="list-style-type: none"> * Works closely with teachers to provide effective constructive feedback * Guides teachers through the coaching cycle * Follows up on instructional modifications based on feedback * Support grade level team leader during professional learning community meetings * Plans and provides professional development to staff * Collect and analyze grade level data to develop instructional strategies to increase student achievement
Huertas, Zaida	Guidance Counselor	<p>The school guidance counselor supports the social emotional growth of our students by coordinating professional development for instructional staff and collaborating with school staff, parents and the community to create a safe and respectful learning environment. Job duties include:</p> <ul style="list-style-type: none"> * Help students attain an optimum level of personal and social adjustment * Supports the implementation of the adopted social emotional program, Sanford Harmony * Consult with parents, teachers, administrators, and supporting agencies concerning the needs and abilities of students

Name	Title	Job Duties and Responsibilities
		<ul style="list-style-type: none"> * Communicate effectively with all members of the school district and community * Work effectively with community organizations * Support the value of education
<p>Rivera, Milagros</p>	<p>Assistant Principal</p>	<p>Job duties include managing the school and its human and material resources. Produce evidence of effective teaching and all student learning.</p> <ul style="list-style-type: none"> * Work with the leadership team and teachers to set performance goals * Hiring and evaluating staff * Visiting classrooms and providing constructive feedback * Prepare budget * Coordinating student master schedules and staff schedules * Oversee the development of curriculum * Ensure school board policies are followed * Tracking of all student progress in all content areas
<p>Aviles-Colon, Ginnette</p>	<p>Instructional Coach</p>	<p>The instructional coach is responsible for working cooperatively and effectively with colleagues, including the ability to nurture a professional learning community of adult learners.</p> <ul style="list-style-type: none"> * Works closely with teachers to provide effective constructive feedback * Guides teachers through the coaching cycle * Follows up on instructional modifications based on feedback * Support grade level team leader during professional learning community meetings * Plans and provides professional development to staff * Collect and analyze grade level data to develop instructional strategies to increase student achievement
<p>McMurtry, Leanda</p>	<p>Assistant Principal</p>	<p>Job duties include managing the school and its human and material resources. Produce evidence of effective teaching and all student learning.</p> <ul style="list-style-type: none"> * Work with the leadership team and teachers to set performance goals * Hiring and evaluating staff * Visiting classrooms and providing constructive feedback * Prepare budget * Coordinating student master schedules and staff schedules * Oversee the development of curriculum * Ensure school board policies are followed * Tracking of all student progress in all content areas

Demographic Information

Principal start date

Tuesday 6/9/2020, Bradley Martin

Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Highly Effective. *Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.*

4

Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Effective. *Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.*

6

Total number of teacher positions allocated to the school

Analysis

Data Reflection

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.

The lowest performance component on the FSA was mathematics learning gains for the bottom 25 percent. The contributing factors to last year's low performance were the lack of mathematics intervention, decline in student attendance for Saturday school, inconsistency with mathematics

centers, and utilizing data to inform instruction. Our data reflected a trend in both fourth and fifth grade learning gains with a decline of 11 points, which indicates that this is an area of improvement.

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.

The data component that showed the greatest decline from the prior year was fifth grade mathematics. The contributing factors to last year's low performance were the lack of mathematics intervention, decline in student attendance for Saturday school, inconsistency with mathematics centers, and utilizing data to inform instruction.

Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.

When analyzing the FSA data, we found that our mathematics data showed the biggest gap when compared to the state average. Proficiency in third grade mathematics had a difference of sixteen percent above the state average. Overall, English Language Arts did show the greatest positive difference when compared to the state averages. Third and fourth grade English Language Arts also showed a positive gap of eight percent when compared to the state average.

Which data component showed the most improvement? What new actions did your school take in this area?

The data component that showed the most improvement was third grade mathematics compared to the previous year. The actions that contributed to this improvement was due to effective and consistent collaboration within the third grade Professional Learning Community (PLC).

Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern?

Upon reflecting on the EWS data, an area of concern is our students with disabilities.

Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year.

1. Deconstructing standards
2. Blueprinting assessments / backward lesson planning
3. 30 minutes of whole group instruction followed by 30 minutes of mathematics centers
4. Analyzing data to drive instruction and intervention
5. Reteach and reassess based on data

Part III: Planning for Improvement

Areas of Focus:

#1. ESSA Subgroup specifically relating to Outcomes for Multiple Subgroups

Area of Focus Description and Rationale: Based on learning gains from Florida Standards Assessment (FSA) a direct focus needs to be placed on student subgroups in both English Language Arts and mathematics in order to increase individualized student growth.

Measureable Outcome: With continued focus on teacher collaboration within Professional Learning Communities (PLCs), teachers will increase the effectiveness of meeting the need of subgroups while planning instruction. Our focus subgroups are students with disabilities (SWD), English Language Learners (ELL), Hispanics and African American. This will increase individualized student growth in Florida Standards Assessment (FSA) learning gains for English language arts, mathematics, and science in all subgroups by 3 percent.

Person responsible for monitoring outcome: Fresia Urdaneta (fresia.urdaneta@ocps.net)

Evidence-based Strategy: Teachers will analyze student subgroup data in order to plan to incorporate culturally responsive text in culturally relevant instruction. Ongoing multicultural activities will happen within the classroom throughout all content area; for example, multicultural fair, research based projects, celebrating Hispanic and African American month. Through teacher collaboration within Professional Learning Communities (PLCs) teachers will share strategies that drive effective differentiated standards-based instruction (whole/small group). Within the classroom teachers will set expectations and goals with all students

Rationale for Evidence-based Strategy: Teachers meet weekly within Professional Learning Communities (PLCs) to analyze subgroup data to determine areas of deficiency within the standard and plan effective differentiated instruction. Implementation will be monitored through lesson plans, student work, instructional resources, data collection, classroom observations, and school-wide activities.

Action Steps to Implement

1. Professional Development- culturally relevant instruction
2. Collaborative lesson planning
3. Community resources
4. Multilingual Parent Leadership Council (MPLC)

Person Responsible Fresia Urdaneta (fresia.urdaneta@ocps.net)

#2. Instructional Practice specifically relating to Standards-aligned Instruction

Area of Focus
Description and Rationale: Based on learning gains from Florida Standards Assessment (FSA), a direct focus on academic discourse targeting oracy to develop writing strategies needs to be placed in all content areas.

Measureable Outcome: Through continued professional development, teachers will increase the effectiveness in using academic discourse in all content areas. PLCs will collaborate to develop writing strategies including a focus on academic vocabulary, differentiate small group instruction, and continue the implementation of Close Reading Strategies. This will lead to an increased number of students demonstrating proficiency on the Florida Standards Assessment (FSA) English Language Arts from 70 percent to 75 percent (overall), 48 percent to 53 percent for the lowest 25 percent of students in ELA, and on the Science Florida Comprehension Assessment Test (FCAT) an increase from 66 percent to 70 percent.

Person responsible for monitoring outcome: Leanda McMurtry (leanda.mcmurtry@ocps.net)

Evidence-based Strategy: The instructional team will facilitate professional development sessions for teachers throughout the school year. Classroom teachers will plan, teach, and facilitate opportunities for students to use academic discourse to support writing across all content areas.

Rationale for Evidence-based Strategy: Implementation of academic discourse will be monitored through lesson plans, data collection, peer observations, and classroom observations.

Action Steps to Implement

1. Leadership Team Book Study- Leading Well; Lucy Calkins
2. Text dependent and writing professional development
3. Grade level PLC collaboration on writing
4. Data driven mini lessons
5. Conferring with students
6. Small group instruction

Person Responsible Fresia Urdaneta (fresia.urdaneta@ocps.net)

#3. Culture & Environment specifically relating to Social Emotional Learning

Area of Focus Description and Rationale: This area of focus aligns with the upcoming work in support of our district's Social Emotional Learning (SEL) through our Social and Emotional Learning & Leadership Team. This allows us to build and establish a culture for social and emotional learning at our school with all students. Academic learning is enhanced when students have opportunities to interact with others and make meaningful connections to subject material. By ensuring that our school has a culture for social and emotional learning, we will address the school's needs that were identified with the implementation of the Student Needs SEL Survey. This survey was administered to all Kindergarten through 5th grade students. It contained both quantitative and qualitative questions. The survey identified that our school's areas of needs are as follows:

- Students building positive relationships with peers and adults
- Building a sense of student empowerment in their learning

Measureable Outcome: We will see improvement in our school's Early Warning Systems indicator data, with a focus on decreasing absenteeism and students scoring level one on state assessments.

Person responsible for monitoring outcome: Zaida Huertas (zaida.huertas@ocps.net)

We will use distributive leadership and social and emotional learning to strengthen team dynamics and collaboration in order to build academic expertise with all students.

Evidence-based Strategy: We will monitor this through implementation of professional learning to provide training, opportunities for safe practice, and examination of impact data. Our school will monitor and measure the impact of our implemented professional learning through analysis of culture and climate survey data, needs assessments, classroom observations, and school environment observations. We will modify our plan of action as indicated by data and student needs.

Rationale for Evidence-based Strategy: In order to achieve sustainable improvement, it is necessary to invest in the social and emotional well-being of our students. To create this type of culture with our students, it is critical to embrace the professional skills and leadership capabilities of everyone in the school. Through a distributive leadership model, our school will strengthen the team dynamics necessary to collectively support positive organizational improvement and change.

Research indicates that for sustainable improvement efforts to be realized, collective ownership is necessary. Through a distributive leadership model our school can implement efficient and sustainable continuous improvement practices that will support the social, emotional, and academic development of every student.

Action Steps to Implement

Student Mentor Program

Person Responsible: Zaida Huertas (zaida.huertas@ocps.net)

Monitoring instructional staff's implementation of social emotional learning through content areas

Person Responsible Fresia Urdaneta (fresia.urdaneta@ocps.net)

Providing students with social emotional lessons

Person Responsible Zaida Huertas (zaida.huertas@ocps.net)

Implementation of professional development for social emotional learning

Person Responsible Zaida Huertas (zaida.huertas@ocps.net)

Additional Schoolwide Improvement Priorities

After choosing your Area(s) of Focus, explain how you will address the remaining schoolwide improvement priorities.

N/A

Part IV: Positive Culture & Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

Describe how the school addresses building a positive school culture and environment ensuring all stakeholders are involved.

School Advisory Council (SAC) money will be utilized to fund a reading tutoring program for third through fifth-grade students who scored in the bottom quartile on the FSA or below the 25th percentile on i-Ready for 2017-18 school year for third-grade students. Certified teachers will tutor groups of no more than 10 in 45-minute sessions twice a week after school. This supplemental instruction will strengthen reading skills and strategies for these students, which will result in increased student achievement.
