

Murshid's Naat in Urdu
English Translation

O Prophet, peace be upon you
O Messenger, peace be upon you
O Beloved, peace be upon you
Benedictions! Peace be upon you

For you, Creation was created
The two worlds made manifest
You illuminate the garden
And reveal Divine guidance

You are behind all that appears
The pride of jinn, angel and man
The honor of the prophets
The Healer, the Sufficient, the Generous

You are the secret of the gnostics
The Beloved of the lovers
The guide of the lost
The lamp of the seekers

Intercession is but your shadow
Whoever comes to your threshold
Will certainly attain grace
Both worlds adore you

You are the helping hand of the friendless
The sweetheart of lovers
The object of the gnostics' fascination
The object of the worshippers' attainment

O Muhammad, I am a wrongdoer
O Muhammad, I am ashamed
O Muhammad, I pour my heart out
O Muhammad, I weep before you

O zephyr, take this salutation
To the court of the king
With full reverence, sing it
Cry, so the king (of all faiths) may hear

I sigh and I weep, Inayat
I seek your guidance
I bow my head in full sincerity
May there be for me, Divine intercession
