HOW WIC HELPS
THE SANTO DOMINGO WIC PROGRAM

MISSION OF WIC
To assure healthy pregnancies, healthy birth outcomes and healthy growth and development for women, infants and children up to age 5 who are at nutritional risk, by providing nutritious supplemental foods, breastfeeding promotion and support, education on healthy eating, and referrals to healthcare and critical social services.

FUN FACTS

STATE WIC AGENCIES ARE COMPRISED OF 34 INDIAN TRIBAL ORGANIZATIONS.

FROM OUR PARTICIPANTS
"Tammy had the family in August for their daughter’s 9 month height/weight/and hemoglobin check. Results showed her iron was 6.6! I was reading Tammy’s notes and she did check twice just to make sure it was not a false reading. The second results showed 6.4. Tammy did nutrition counseling with the family and sent the results over to the health care provider. I was able to meet with the family today and follow up. After their August WIC appointment, the family went straight to their daughter’s doctors. She was put on iron supplementation and within one week parents noticed her skin tone changed, she was not sleeping as much, she started to crawl, and even had 4 teeth come in. Coincidence or not, the family was so thankful Tammy checked their daughter’s iron and provided the information. Her iron has since increased to 12.6 and she is growing stronger daily! The family was very appreciative, a great way to end a Tuesday clinic!"
