WASHINGTON STATE:
Spokane County

TIFFANY SCHAMBER MS RD
WIC PROGRAM MANAGER
SPOKANE REGIONAL HEALTH DISTRICT
TSCHAMBER@SRHD.ORG
MARCH 2015
A Look at State and Local Data

- **Percentage of children age 2-5 yrs >95\textsuperscript{th} \%ile:**
  - Statewide: 6.2\%
  - Spokane: 4.7\%

- **Farmers Market Redemption Rates:**
  - Statewide: 71.8\%
  - Spokane: 55.2\%

- **Maternal Smoking Rates**
  - Statewide: 11.6\%
  - Spokane: 20.6\%
Efforts to Reduce Obesity

- Washington is committed to ongoing efforts to support and promote breastfeeding
  - Statewide: 88% initiation; 49% duration > 6 months
  - Spokane: 85% initiation; 48% duration > 6 months
  - Breastfeeding Coalition of Washington working to engage more local coalitions in strategic planning and common goals

- Increases to the CVV means more $ have been used to purchase fruits and veggies
  - Statewide: ↑7%; $701,962
  - Spokane: ↑8%; $56,355
Efforts to Increase Farmers Market Access

- **Farmers Market Access Partnership – Phase 1**
  - Spokane Regional Health District; Catholic Charities of Spokane
    - Focus groups to identify:
      - Barriers to access
      - Knowledge of SNAP/EBT and Fresh Bucks program
      - Market habits
    - Collaborative Marketing
    - Market Activities for Children

- **Results:**
  - *Increase in repeat and new WIC/SNAP user purchases*
  - *48% increase in SNAP/EBT usage*
  - *Increased awareness and utilization of the Fresh Bucks program*
Efforts to Reduce Maternal Smoking

- **Agency Cross Divisional Tobacco Collaborative**
  - OTP, HIV/AIDS, WIC, NFP
  - Collectively implement and measure a new and uniform tobacco cessation intervention. - Quit Coach
  - Divisions share resources and expertise specific to a common client outcome/goal

- **Baby and We Project**
  - Using BFPCs to deliver smoking cessation education and CO fetal monitoring to pregnant women and their support partner who report smoking.
  - Research will be used to develop an effective intervention for pregnant WIC Clients who smoke
EXPECTED OUTCOMES FROM MOVING INTO OUR NEW HEALTH AND HUMAN SERVICES BUILDING

HEALTH AND HUMAN SERVICES WORKING WITH COMMUNITY PARTNERS AND COORDINATED CARE ORGANIZATIONS (OREGON HEALTH PLAN) WILL INCREASE COLLABORATION TO PROVIDE SERVICES TO MORE INDIVIDUALS WITH BETTER OUTCOMES WHILE SAVING MONEY
Health and Human Services

- Jackson County Health and Human Services building includes:
  - Public Health
  - Mental Health
  - Developmental Disabilities

SUCCESS STORIES

- FAMILY COMING IN AFTER WE HAVE MOVED FINDING OUT MENTAL HEALTH SERVICES ARE AVAILABLE

- TODDLER CERTIFICATION – PARENT GRATEFUL FOR ADVICE GIVEN AT INFANT CERTIFICATION

- HAVING A MENTAL HEALTH COUNSELOR BASED IN WIC WORKING WITH PREGNANT AND POSTPARTUM DEPRESSION
CLIENT COMMENTS AFTER ATTENDING THE PARENTING CLASS

- My son needs to be treated like I want to be treated
- I need to think before I react to a situation
- I will do less talking about the discipline and more praise for their positive behavior
- I will include my children more and respect and let them express their emotions
- I didn’t know that my toddler might like to help
SUCCESS STORIES

• HAVING THE COORDINATED CARE ORGANIZATIONS LISTEN TO WIC AND OUR POPULATION NEEDS, INCLUDING MAKING DENTAL SERVICES MORE ACCESSIBLE, AND PROVIDING BREASTPUMPS TO QUALIFYING MOTHERS

• HHS STAFF LEARNING MORE ABOUT ALL OF OUR PROGRAMS TO IMPROVE CLIENT ACCESS

• 2012 BREASTFEEDING BONUS FUNDS GRANT OPPORTUNITY
Breastfeeding Bonus Dollars 2012

PHFE WIC Dietetic Internship (DI) Program

- Started in 1995
- First WIC DI program in CA
- Need for multi-cultural dietitians to meet the needs of the diverse clients at PHFE WIC.
- PHFE WIC employs over 160 Registered Dietitians
PHFE WIC
Dietetic Internship Program

- Prepare culturally diverse graduates who are committed to the field of public health nutrition.
Growing our Own

- Limited outside internship opportunities for culturally diverse students.
- Part-time employment (with benefits) with PHFE WIC during the 12 months internship.
- Wrap-around support with mentoring, textbooks, supplies and scholarships.

BEST PRACTICES AND SERVICE DELIVERY

OUTREACH
TRAINING
NUTRITION EDUCATION
Maricopa County WIC Program Facts

- Contracted caseload: 68,500
- Number of clinics: 16
  - Caseload ranges in each clinic from 1,300-9,000
- Number of WIC staff: 155
  - 99 paraprofessional front line staff
  - 25 Registered Dietitians in clinics
- Also have Breastfeeding Peer Counseling and Farmers Market Nutrition Program
Outreach

Partnership with MCDPH Office of Vital Records

- Birth certificate application information
  - WIC participation of mother during pregnancy
  - AHCCCS payment of birth
- Vital records provides WIC with list of new infants that are WIC eligible, but not participating
- A flyer is mailed approximately 3 months after birth informing them of WIC services
- This effort is evaluated by requesting families to bring the flyer to a clinic to apply for services and receive a “free gift” aka WIC foods cookbook
CONGRATULATIONS 

on the newest addition 
to your family!

At Maricopa County Department of Public Health, we understand there are many things to do after bringing a newborn home. This note and enclosed material provide some resources that may make those first few months a little easier.

Women, Infants, and Children Program (WIC)

With a new baby, you may be tired and have very little energy. At times, preparing healthy food for the whole family can be difficult. Maricopa County WIC is here to help! We help families receive nutritious food, make sure moms have help and support in breastfeeding, and refer families to healthcare services and other resources.

- WIC is for infants, children up to five years of age, and pregnant, breastfeeding and postpartum women. Moms, dads, aunts, uncles, and even grandparents who care for children under age five may be eligible to receive services from WIC.

- Many people qualify for WIC and don’t even know it! Families on AHCCCS, SNAP, TANF, or Section 8 automatically qualify.

- You don’t need an appointment; all offices see clients on a walk-in basis.

Please visit www.MaricopaWIC.com to view income qualifications and find an office near you.

Birth Certificates

We offer four locations to get your child’s birth certificate. Fees are:

- $20 per certified copy
- $30 for certified copy with corrections

Please visit www.MaricopaVitalRecords.com or call 602-506-6805 for more information on a location near you.

Car Seats

The Safe Kids Coalition of Maricopa County aims to prevent accidental childhood injuries, like car accidents. Safe Kids provides free car seat inspections and offers help and tips on car safety for parents.

Please visit www.WeArePublicHealth.org or call 602-506-6863 for more information.

Childhood Immunizations

Immunizations are one of the best ways to stop the spread of disease. Your child from age 0 up to age 19 is encouraged to receive immunizations. To have your child immunized, visit your health care provider or one of the three Maricopa County Public Health clinics.

For information on immunization schedules, clinics, or what to bring during your visit, please visit www.WeArePublicHealth.org or call 602-506-6767 for more information on a location near you.
Training

- Dedicated training team: 3 trainers and 1 RD supervisor
- Training center at our main admin campus for new employee training (LMS modules, workbooks, computer system, policies)
- Experiential training with participants is conducted at our ‘Training Clinic’
- Largest clinic with participation of about 9,000 which provides ample opportunity to see a variety of categories
- Allows new staff to be ready to see participants on their own when they arrive at their home clinic
Nutrition Information and Support

- Participating in 2 state-wide initiatives to enhance the value of nutrition information and support
- Based on research both Western Region wide and within Arizona highlighting the important factors to the Millennial Generation
  - They use several forms of technology daily
  - They want to connect with WIC using technology
  - They want to feel part of something
  - They want to learn something beyond what they can ‘google’
Online Nutrition Education Discussion Sessions (ONEDS)

- Taking online nutrition education a step further
- Allows parents to participate in a facilitated group discussion from the comfort of their own home
- Parents are able to interact, engage and learn from other parents without having to come to the clinic
- Not an experience they can ‘google’
Targeting Behavioral Triggers of Overfeeding in Older Infants and Toddlers (TOTT)

- State-wide initiative working with UC-Davis as a follow-up to a CA study with same name

**Background**
- “Baby Behaviors” was implemented in our clinics in 2013
- Gave staff messages to share with families about normal infant behavior as a way to decrease overfeeding and improve parent confidence in reading baby’s cues

**TOTT**
- Purpose is to develop messages that resonate with parents about normal toddler behaviors
- Goal is to increase age appropriate eating and toddler nutrition behaviors
- Improve parent confidence in trusting their toddler’s cues and appetite, as well as growing healthy relationships with food and eating

HANDS & Participant Centered Services (PCS)

Designed with the Participant Experience in Mind
Shifts the Focus from the Computer to the Participant

Enables Motivational Interviewing, a Proven Best Practice
Allowing the Participant to “Lead the Dance”
Promoting Positive Health Outcomes & Behavior Changes
A Success Story

During an appointment with a newly post partum Mom, Julie, from Mohave WIC, asked the Mom she was assessing, “How often do you feel down, depressed, or hopeless?”

The new Mom broke down in tears and shared that she felt “down all the time.” The Mom also shared that she was living with grandparents who were not very supportive. She was expected to do housework while her baby was sleeping. The mother said she “was exhausted and felt alone.”

Julie gave the mother time to cry then offered her the simple but helpful guidance of talking with her grandparents about how she was feeling. Julie then referred the Mom to her doctor and encouraged her to discuss her feelings more.

When the Mom returned, Tammy, also from Mohave WIC, read Julie’s notes in HANDS and followed up. The Mom shared with Tammy that she did visit her doctor, she was on medication, and she was doing better.

“It doesn’t matter where you are coming from. All that matters is where you are going.”

—Brian Troy

“Believe you can and you are halfway there.” – Theodore Roosevelt
**STEP UP Family Challenge**

Complete the family challenge and be entered in a raffle to win a prize! It’s fun and easy.

**Challenge Rules**

1. All WIC families can participate.
2. There are 42 “activities” on the following chart. Between now and your WIC appointment, try to do them all! Mark each square (color it, stickers, etc.) as you complete the activity.
3. If you need to substitute a physical activity there is a list of suggestions on the back of this paper. Pregnant women may need to adjust the activities accordingly. The activities are more challenging the farther down the chart you go. You may want to start at the top.
4. To be entered to win a raffle prize, complete as many activities as possible on the table below before your next WIC appointment. Bring the sheet back to the appointment and your name will be entered to receive a prize! Drawings will be held in May, August and November of 2013 and in February, May and August of 2014.
5. The more activities you complete the more entries you will receive for the raffle! Receive up to 3 raffle entries when you complete all 42 activities!
