

Thank you for calling the WIC office. WIC is continuing to provide services via phone. If you have a scheduled appointment, please do not come into the clinic; please stay at home and a WIC staff member will call you at your scheduled time to complete your visit and issue your benefits over the phone. If you would like to set up an appointment or you need additional assistance from the WIC staff, please leave a message and we will return your call, as we are checking messages throughout the day. Thank you for your understanding!
