

# International Stem Cell Corporation Announces Company Update Conference Call

Release: 1/11/2011 8:00:00 AM

International Stem Cell Corporation (OTCBB:ISCO), [www.internationalstemcell.com](http://www.internationalstemcell.com), announced today that its Chairman, Kenneth Aldrich and the CEO of its Lifeline Skin Care subsidiary, Ruslan Semechkin, PhD, will present a Webinar discussion of the State of the Company and its plans for its Skin Care subsidiary on Wednesday, January 19, 2011 at 10:00 a.m. PST. In announcing the event, Mr. Aldrich stressed that its purpose is not to announce any new programs or financial results, but to attempt to provide an overview of events during the past year and offer shareholders a perspective on what to expect in the coming year. The dial-in number for participants is: 1 (800) 588-4973. Please provide the confirmation number 28808144 to the operator upon calling in. An alternate dial-in number is 1 (847) 230-5643. The confirmation number will be the same for both numbers. A replay of the call will be available on the home page of the company's website at: <http://www.internationalstemcell.com>

## ABOUT INTERNATIONAL STEM CELL CORPORATION (ISCO.OB):

International Stem Cell Corporation is a California-based biotechnology company focused on the therapeutic applications of human parthenogenetic stem cells and the development and commercialization of cell-based research and cosmetic products. ISCO's core technology, parthenogenesis, results in creation of pluripotent human stem cells from unfertilized oocytes (eggs). hpSCs avoid ethical issues associated with the use or destruction of viable human embryos. ISCO scientists have created the first parthenogenic, homozygous stem cell line that can be a source of therapeutic cells with minimal immune rejection after transplantation into hundreds of millions of individuals of differing sexes, ages and racial groups. This offers the potential to create the first true stem cell bank, UniStemCell™, while avoiding the ethical issue of using fertilized eggs. ISCO also produces and markets specialized cells and growth media for therapeutic research worldwide through its subsidiary Lifeline Cell Technology and cell-based skin care products through its subsidiary Lifeline Skin Care. More information is available at ISCO's website, [www.internationalstemcell.com](http://www.internationalstemcell.com)
