Release: 6/15/2023 9:00:00 AM

HANGZHOU, China, June 15, 2023 /PRNewswire/ - China Jo-Jo Drugstores, Inc. (Nasdaq: CJJD) ("Jo-Jo Drugstores" or the "Company"), a leading online and offline retailer, wholesale distributor of pharmaceutical and other healthcare products and healthcare provider in China, today announced its financial results for the fiscal year ended March 31, 2023.

Mr. Lei Liu, Chairman and CEO of Jo-Jo Drugstores, commented, "During the past fiscal year, we continued to provide high-quality services and products to our customers despite the challenging and uncertain market environment. I would like to thank our entire team for their collective efforts and dedication. In the new fiscal year, we are focusing on implementing strategic expansion initiatives to drive our growth including optimizing distribution channels, attracting new customers and enhancing our brand recognition. To further complement our expansion, the continued innovation of our business model and digital transformation remains at the forefront of our business. In addition, we expect to improve our operational efficiency and manage our costs effectively. We remain dedicated to our commitment to creating value for our customers by enriching our product portfolio and providing healthcare services to meet their evolving demand. We believe our concrete advantages in offering diversified product selections, delivering additional value to customers and extending sales network are powerful catalysts for a formidable presence in the healthcare market in the future. We are confident that Jo-Jo Drugstores will keep making a positive impact in China's healthcare market and the communities we serve. We are looking forward to another fruitful fiscal year and we will keep making efforts in generating more value for our shareholders."

Fiscal Year 2023 Financial Results

Revenue

Revenue for the fiscal year ended March 31, 2023 was \$148.81 million, compared to \$164.39 million for the same period of last year.

	For the Year Ended March 31,						
	2023						
(\$ millions)	Revenue	Cost of	Gross	Revenue	Cost of	Gross

Total	148.81	114.53	23.0 %	164.39	127.87	22.2 %	

Revenue from the retail drugstores business decreased by \$0.88 million, or 1.0%, to \$83.35 million for the fiscal year ended March 31, 2023, from \$84.23 million for the same period of last year. After excluding the impact of exchange rate fluctuation, the actual retail drugstores sales increased by 5.6%. The actual increase in retail drugstore sales was primarily due to continuous efforts in promoting non-National Healthcare Security Administration ("NHSA") covered products, close cooperation with major suppliers, and contribution from the new store sales.

Revenue from the online pharmacy business increased by \$2.17 million, or 7.2%, to \$32.39 million for the fiscal year ended March 31, 2023, from \$30.22 million for the same period of last year. The increase was primarily caused by an increase in sales via e-commerce platforms such as Tmall. The Company maintained a membership care program targeted at chronic disease customers. The Company has closely interacted with members via WeChat by providing healthcare knowledge and reminding customers to refill medicine. By implementing a personalized customer care program, the Company was able to promote sales. Additionally, the Company increasingly cooperates with certain manufacturers to promote their products such as Dendrobium Candidum. These manufacturers reward the Company with lower supply prices and more advertising supports. As a result, the Company is able to better promote sales.

Prescription drugs used to be prohibited from sales online due to safety concern. However, as the government of mainland China has lifted the ban order,

online prescription drug sales become popular. As a result, the sale of prescription drugs was \$10.61 million in the year ended March 31, 2023, as compared to \$10.33 million in the year ended March 31, 2022.

Revenue from the wholesale business decreased by \$16.86 million, or 33.8%, to \$33.08 million for the fiscal year ended March 31, 2023, from \$49.94 million for the same period of last year. As a relatively small wholesale distributor in pharmaceutical products, the Company's sales are subject to significant variance. Wholesale business usually carries low gross profit margin. However, we incurred labor, logistic and tax cost for our wholesale business. As a result, to keep reasonable profitability, we abandoned certain wholesales at low gross profit margin in the year ended March 31, 2023. As a result, the wholesale revenue declined.

Gross profit and gross margin

Total cost of goods sold decreased by \$13.34 million, or 10.4%, to \$114.53 million for the fiscal year ended March 31, 2023, from \$127.87 million for the same period of last year. Gross profit decreased by \$2.24 million, or 6.1%, to \$34.28 million for the fiscal year ended March 31, 2023 from \$36.52 million for the same period of last year. Overall gross margin increased by 0.8 percentage points to 23.0% for the fiscal year ended March 31, 2023, from 22.2% for the same period of last year, due to higher retail drugstores profit margins.

Gross margins for retail drugstores, online pharmacy and wholesale were 32.2%, 12.0%, and 10.9%, respectively, for the fiscal year ended March 31, 2023, compared to gross margins for retail drugstores, online pharmacy and wholesale of 32.0%, 11.9%, and 12.0%, respectively, for the same period of last year.

Loss from operations

Selling expenses decreased by \$1.70 million, or 5.5%, to \$29.18 million for the fiscal year ended March 31, 2023 from \$30.88 million for the same period of last year. The decrease in selling expenses was primarily due to decrease in rent, partially offset by increase in the sales and marketing expenses.

General and administrative expenses increased by \$7.48 million, or 91.4%, to \$15.67 million for the fiscal year ended March 31, 2023 from \$8.19 million for the same period of last year. The increase in general and administrative expenses was primarily due to the increase in bad debt expense. Such expenses as a percentage of revenue increased to 10.5% from 5.0% for the same period a year ago. In the year ended March 31, 2023, the Company recorded an increase in the allowance for bad debts of \$7.58 million as compared to the increase in the allowance for bad debts of \$1.32 million in the fiscal year ended March 31, 2022

The Company recorded share based compensation of \$10.36 million and \$0 for the years ended March 31, 2023 and 2022. In April and December 2022, the Company issued a total of 3,000,000 ordinary shares and recorded share-based compensation of approximately \$10.36 million.

The Company recorded an impairment of long-lived assets of \$0 and \$0.15 million for the year ended March 31, 2023 and 2022. In the year ended March 31, 2023, the Company evaluated the forest land use rights and did not record an impairment. In the year ended March 31, 2022, the Company evaluated the forest land use rights and recorded an impairment of \$0.15 million.

Loss from operations was \$20.93 million for the fiscal year ended March 31, 2023, compared to \$2.69 million for the same period of last year. Operating margin was (14.1)% and (1.6)% for the fiscal year ended March 31, 2023 and 2022, respectively.

Net loss

Net loss was \$21.14 million, or \$2.07 per basic and diluted share for the fiscal year ended March 31, 2023, compared to net loss of \$3.20 million, or \$0.92 per basic and diluted share for the same period of last year.

Financial Condition

As of March 31, 2023, the Company had cash of \$18.81 million, compared to \$18.46 million as of March 31, 2022. Net cash used in operating activities was \$3.28 million for the fiscal year ended March 31, 2023, compared to \$5.39 million for the same period of last year. The change is primarily attributable to a decrease in cash provided by inventories and biological assets of \$2.05 million, a decrease in cash provided by customer deposits of \$1.71 million, a decrease in cash due to net loss of \$17.94 million offset by an increase of \$10.36 million in stock compensation, an increase in cash provided by accounts payable of \$5.32 million. Net cash used in investing activities was \$0.32 million for the fiscal year ended March 31, 2023, compared to \$0.31 million for the same period of last year. The change is primarily attributable to purchases of long term assets. Net cash provided by financing activities was \$2.37 million for the fiscal year ended March 31, 2023, compared to \$4.84 million for the same period of last year. The change is primarily due to repayment of notes payable and proceeds from equity financing such as private placement and debt financing.

As of March 31, 2023, the Company had a working capital deficit of \$2.1 million, a net loss of approximately \$21.1 million and net cash used in operating activities of \$3.3 million. These factors raise substantial doubt about its ability to continue as a going concern. However, non-cash expenses such as stock-based compensation, bad debt direct write-off and provision, and investment loss accounts for approximately \$10.4 million, \$7.6 million and \$2.3 million respectively. Excluding these non-cash expenses, the net loss is approximately \$0.8 million.

In August and October 2022 the Company raised capital by issuing ordinary shares to private investors for a total proceeds of \$4.7 million. In January 2023, the Company closed a registered direct offering with gross proceeds of \$2.6 million from its effective shelf registration statement.

The Company has a credit line agreement from a local bank as described in detail in Note 16 of its annual report on Form 20-F to be filed the date hereto. As of March 31, 2023, approximately \$0.29 million of the aforementioned bank credit line was available for further borrowing. As the economy growth slows down, the national interest continues to decrease. Local banks are encouraged to provide low interest rate loans to local enterprises.

In order to meet its capital demand, the Company may raise funds in the capital market, increase its credit line from the local banks, and improve its store performance in the near future. There can be no assurance that any additional financing will be available on acceptable terms, if at all.

The Company has also obtained additional government insurance reimbursement certificates for its stores opened in the last two years. In a mature store,

nearly half of the revenue are generated by customers utilizing the government insurance program. With these certificates, mature stores are able to attract more customers who are eligible for the insurance program, and its sales may significantly increase in the next 12 months.
