Operating Results

KOIL's revenues for the three months ended September 30, 2024 ("Q3 2024") increased 27 percent to \$5.2 million compared to \$4.1 million for the three months ended September 30, 2023 ("Q3 2023"), primarily due to an increase in fixed price contracts for the manufacture of subsea distribution equipment.

Gross profit for Q3 2024 was \$2.1 million, or 40 percent of revenues, compared to Q3 2023 gross profit of \$1.4 million, or 33 percent of revenues. The comparative increase in Q3 2024 gross profit was primarily driven by increased revenues and improved project margins.

Selling, general and administrative expenses ("SG&A") were \$1.6 million, or 30 percent of revenues, in Q3 2024 and remained steady when compared to Q3 2023.

Due to the factors discussed above, KOIL reported Q3 2024 net income of \$523 thousand, or \$0.04 per diluted share, compared to a Q3 2023 net loss of \$143 thousand, or a \$0.01 loss per diluted share. Per share results for Q3 2024 and Q3 2023 are based on 12.41 million and 11.89 million weighted average shares outstanding, respectively.

KOIL reported adjusted EBITDA of \$675 thousand in Q3 2024 compared to adjusted EBITDA of \$17 thousand in Q3 2023. The comparative increase in adjusted EBITDA for Q3 2024 was primarily driven by growth in revenues and gross profit stemming from an increase in product-oriented, fixed-price projects in Q3 2024 as compared to Q3 2023.
