

Olympic Steel Recognized as John Deere "Partner-Level Supplier"

CLEVELAND - Olympic Steel Inc. (Nasdaq: ZEUS), a leading national metals service center, today announced that it has been recognized as a Partner-level Supplier for 2024 in the John Deere Achieving Excellence Program.

Partner-level status is Deere & Company's highest supplier rating. Olympic Steel was selected for this honor in recognition of its dedication to providing products and services of outstanding quality, as well as its commitment to continuous improvement. Several Olympic Steel locations support John Deere's operations with a range of first-stage metal processing and fabrication services.

"The role of trusted supplier is one we take seriously," said Andrew S. Greiff, President and Chief Operating Officer. "Quality and Customer Satisfaction are two of our Core Values at Olympic Steel, and we are proud to be recognized by John Deere, our long-time customer and a respected global OEM."

Suppliers who participate in the Achieving Excellence Program are evaluated annually against several key performance categories, including quality, delivery, process alignments, value creation and relationship. John Deere Supply Management created the program in 1991 to provide a supplier evaluation and feedback process that promotes continuous improvement.

About Olympic Steel

Founded in 1954, Olympic Steel (Nasdaq: ZEUS) is a leading U.S. metals service center focused on the direct sale and value-added processing of carbon and coated sheet, plate, and coil steel products; stainless steel sheet, plate, bar and coil; aluminum sheet, plate and coil; pipe, tube, bar, valves and fittings; tin plate and metal-intensive end-use products, including water treatment systems; stainless steel bollards; commercial, residential and industrial venting and air filtration systems; Wright® brand self-dumping hoppers; metal canopy components; and EZ-Dumper® dump inserts. Headquartered in Cleveland, Ohio, Olympic Steel operates from 54 facilities.
