

Kopin to Showcase Portfolio of Spatial Light Modulators and Microdisplays at Laser World of Photonics 2025

WESTBOROUGH, Mass. - Kopin Corporation (NASDAQ: KOPN), a leading provider of application-specific optical systems and high-performance microdisplays for defense, training, enterprise, industrial, consumer and medical products, today announced will be presenting its range of cutting-edge spatial light modulators (SLMs) and microdisplays at this year's Laser World of Photonics, taking place from June 24-27 at the Munich Trade Fair Center. Attendees can explore the latest advancements at Hall B2, Booth 137.

A highlight of Kopin's exhibit is its high-resolution binary phase modulator, featuring a pixel array of 2048 x 2048. Engineered for exceptionally fast refresh rates and stable diffraction, this SLM is uniquely suited for advanced applications such as 3D metrology and Super Resolution Microscopy.

Kopin's SLMs are seamlessly integrated with its range of LCD and OLED microdisplays, optimized for Near-Eye applications. These displays are designed for precision and performance and can be custom-tailored for integration into application-specific optical systems.

Taking center stage at the booth is a medical Head-Mounted Display (HMD), purpose built for surgeons, offering an ergonomic, high-resolution viewing experience for both 2D and 3D surgical applications.

"We look forward to demonstrating how Kopin's display solutions empower optical system designers, scientists, and surgeons with uncompromised performance," said Bill Maffucci, SVP Business Development and Strategy, Kopin Corporation. "Laser World of Photonics provides the perfect stage to connect with global innovators and share our latest breakthroughs."

About Kopin

Kopin Corporation is a leading developer and provider of innovative display, and application-specific optical solutions sold as critical components and subassemblies for defense, enterprise, professional and consumer products. Kopin's portfolio includes microdisplays, display modules, eyepiece assemblies, image projection modules, and vehicle mounted and head-mounted display systems that incorporate ultra-small high-resolution Active Matrix Liquid Crystal displays (AMLCD), Ferroelectric Liquid Crystal on Silicon (FLCoS) displays, MicroLED displays (μ LED) and Organic Light Emitting Diode (OLED) displays, a variety of optics, and low-power ASICs. For more information, please visit Kopin's website at www.kopin.com. Kopin is a trademark of Kopin Corporation.

Forward-Looking Statements

Statements in this press release may be considered "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), which are subject to the safe harbor created by such sections. Words such as "expects," "believes," "can," "will," "estimates," and variations of such words and similar expressions, and the negatives thereof, are intended to identify such forward-looking statements. We caution readers not to place undue reliance on any such "forward-looking statements," which speak only as of the date made, and advise readers that these forward-looking statements are not guarantees of future performance and involve certain risks, uncertainties, estimates, and assumptions by us that are difficult to predict. Various factors, some of which are beyond our control, could cause actual results to differ materially from those expressed in, or implied by, such forward-looking statements. All such forward-looking statements, whether written or oral, and whether made by us or on our behalf, are expressly qualified by these cautionary statements and any other cautionary

statements that may accompany the forward-looking statements. In addition, we disclaim any obligation to update any forward-looking statements to reflect events or circumstances after the date of this press release, except as may otherwise be required by the federal securities laws. These forward-looking statements are only predictions, subject to risks and uncertainties, and actual results could differ materially from those discussed. Important factors that could affect performance and cause results to differ materially from management's expectations are described in Part I, Item 1A. Risk Factors; Part II, Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations; and other parts of our Annual Report on Form 10-K for the fiscal year ended December 28, 2024, as amended, or as updated from time to time by our Securities and Exchange Commission filings.
