

# Enlivex Treasury Portfolio Update: Listing of the RAIN Token on WhiteBIT, a Leading Cryptocurrency Exchange

*Listing expected to expand market access and secondary liquidity for Enlivex's primary digital treasury asset*

Nes-Ziona, Israel, Jan. 26, 2026 (GLOBE NEWSWIRE) -- Enlivex Therapeutics Ltd. (Nasdaq: ENLV, "Enlivex" or "the Company") today reported that its primary treasury asset, the RAIN token, has been listed on the WhiteBIT cryptocurrency exchange effective January 21, 2026, expanding access to the token across a major global digital asset trading platform.

WhiteBIT is the largest European cryptocurrency exchange by traffic. Founded in 2018, the platform is part of W Group, which serves more than 35 million customers globally. The commencement of RAIN trading on WhiteBIT is expected to broaden regional market access and enhance secondary market liquidity for RAIN, supporting the continued development of market infrastructure and accessibility for Enlivex's digital asset treasury strategy.

Enlivex previously announced the launch of its digital asset treasury strategy focused on the acquisition of RAIN tokens. RAIN serves as the governance and utility token of a fully decentralized predictions and options protocol built on the Arbitrum network. The protocol enables users globally to create, trade, and resolve markets tied to real-world events through a transparent and automated on-chain framework.

## ABOUT ENLIVEX

Enlivex is a clinical stage macrophage reprogramming immunotherapy company currently focused on the late-stage clinical development of Allocetra™, a novel therapy designed to treat the joint disease osteoarthritis. Additionally, Enlivex is the first publicly-listed company to have developed a treasury strategy centered on RAIN, which currently serves as the primary treasury reserve asset of the Company. In adopting its treasury policy, Enlivex intends to provide investors with exposure to RAIN and to advocate for its role as digital capital.

With respect the Company's clinical development focus, osteoarthritis is by far the most common form of arthritis, affecting more than 32.5 million Americans and more than 300 million individuals worldwide. About half of knees with ACL injuries develop osteoarthritis within 5 to 15 years. 78 million Americans are projected to have osteoarthritis by the year 2040. Symptomatic knee osteoarthritis is particularly prevalent and disabling, with 40% of men and 47% of women developing knee osteoarthritis in their lifetimes. Osteoarthritis accounts for over one million hospitalizations annually in the United States, primarily for total joint replacement. The burden of osteoarthritis is enormous, and the need for treatments that reduce pain and attendant disability for persons with osteoarthritis is critical. To the Company's knowledge, there are currently no medications approved by either the U.S. Food and Drug Administration (FDA) or the European Medicines Agency (EMA) that have been demonstrated to arrest, slow or reverse progression of structural damage in the joint.

## Forward-Looking Statements

This press release contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These forward-looking statements may be identified by words such as "expects," "plans," "projects," "will," "may," "anticipates," "believes," "should," "would," "could," "intends," "estimates," "suggests," "target," "has the potential to," "goal," and other words of similar meaning, including statements relating to the anticipated benefits of the Company's digital asset treasury strategy; the assets to be held by the Company; the expected future market, price, trading activity, and liquidity of the RAIN token; the impact of expanded exchange listings and increased token liquidity on market participation and accessibility; the potential effects of digital asset liquidity on the liquidity of the Company's ordinary shares; macroeconomic, political, and regulatory conditions surrounding digital assets; the Company's plans for value creation and strategic positioning; market size and growth opportunities; regulatory conditions; competitive position; technological and market trends; future

financial condition and performance; expected clinical trial results; market opportunities for the results of current clinical studies and preclinical experiments; and the effectiveness of, and market opportunities for, ALLOCETRA™ programs.
