

Enlivex Treasury Portfolio Update: Listing of the RAIN Token on HTX, a Leading Cryptocurrency Exchange

The listing on one of the world's largest global cryptocurrency exchanges expands market access and secondary liquidity for Enlivex's primary digital treasury asset

Nes-Ziona, Israel, April 30, 2026 (GLOBE NEWSWIRE) -- Enlivex Ltd. (Nasdaq: ENLV, "Enlivex" or the "Company"), a quality longevity company powered by a prediction markets treasury, today reported that its treasury asset, the RAIN token, has been listed on the HTX cryptocurrency exchange, effective April 29, 2026. The listing marks an important step forward for RAIN, significantly increasing its accessibility, global reach, and token liquidity.

HTX (formerly Huobi) is a leading global cryptocurrency exchange serving over 160 countries and is one of the most recognized platforms in the industry. HTX consistently ranks among the top 10 digital assets exchanges worldwide on platforms like CoinMarketCap and CoinGecko, reflecting its strong liquidity, large user base, and highly active trading environment.

In 2025, HTX's annual cumulative trading volume reached approximately \$3.3 trillion across over 700 assets, and its user base grew to over 59 million in Q1 2026.

*"RAIN is the primary asset of Enlivex's digital asset treasury. We view major exchange listings as meaningful milestones that may support liquidity and market access for our treasury holdings," said **Oren HersHKovitz, CEO of Enlivex.***

Enlivex's digital asset treasury strategy is focused on the acquisition of RAIN tokens. Recently, the Company announced its total RAIN holdings had increased to approximately 78.8 billion tokens with a total value of \$567 million (as of April 27, 2026).

RAIN serves as the governance and utility token of a fully decentralized predictions and options protocol built on the Arbitrum network. The protocol enables users globally to create, trade, and resolve markets tied to real-world events through a transparent and automated on-chain framework

About Enlivex (Nasdaq: ENLV)

Enlivex is a quality longevity company powered by a prediction markets treasury. The Company is advancing Allocetra™, an advanced clinical-stage immunotherapy targeting inflammatory conditions associated with aging, with a primary focus on age-related osteoarthritis.

In addition to its clinical programs, Enlivex operates a prediction markets treasury strategy built around the RAIN token, which is the token of the Rain protocol, a leading decentralized prediction markets infrastructure. This dual strategy combines the development of quality longevity therapeutics with exposure to the emerging prediction markets ecosystem.

Forward-Looking Statements

This press release contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These forward-looking statements may be identified by words such as "expects," "plans," "projects," "will," "may," "anticipates," "believes," "should," "would," "could," "intends," "estimates," "suggests," "target," "has the potential to," "goal," and other words of similar meaning, including statements relating to the anticipated benefits of the Company's digital asset treasury strategy; the assets to be held by the Company; the expected future market, price, trading activity, and liquidity of the RAIN token; the impact of expanded exchange listings and increased token liquidity on market participation and accessibility; the potential effects of digital asset liquidity on the liquidity of the Company's ordinary shares; macroeconomic, political,

and regulatory conditions surrounding digital assets; the Company's plans for value creation and strategic positioning; market size and growth opportunities; regulatory conditions; competitive position; technological and market trends; future financial condition and performance; expected clinical trial results; market opportunities for the results of current clinical studies and preclinical experiments; and the effectiveness of, and market opportunities for, ALLOCETRA™ programs. Each forward-looking statement contained in this press release is subject to risks and uncertainties that could cause actual results to differ materially from those expressed or implied by such statement. Applicable risks and uncertainties include, among others, the risk of failure to realize the anticipated benefits of the Company's digital asset treasury strategy; changes in business, market, financial, political, and regulatory conditions; risks relating to the Company's operations and business, including the highly volatile nature of the price, trading volume, and liquidity of RAIN and other cryptocurrencies; risks associated with digital asset exchange listings, trading venues, and market infrastructure; the risk that the price and liquidity of the Company's ordinary shares may be correlated with the price or liquidity of the digital assets it holds; risks related to increased competition in the industries in which the Company operates; risks relating to significant legal, commercial, regulatory, and technical uncertainty regarding digital assets generally; risks relating to the treatment of crypto assets for U.S. and foreign tax purposes; and those risks and uncertainties identified in the Company's filings with the Securities and Exchange Commission. The forward-looking statements in this press release speak only as of the date of this document, and the Company undertakes no obligation to update or revise any of these statements, except as required by applicable law.
