TAMPA, Fla., May 15, 2025 (GLOBE NEWSWIRE) -- SRx Health Solutions Inc. (NYSE American: SRXH) (the "Company" or "SRx", previously known as "Better Choice"), a leading global health and wellness company, today announced its results for the first quarter ended March 31, 2025.

"We have executed a digital first strategy in our domestic business and have implemented marketing investment shifts to grow brand awareness and discoverability," says Kent Cunningham, CEO of SRx. "We are focused on optimizing our portfolio and addressing consumer barriers to purchase. We have improved our inventory levels by approximately 50% in the last 15 months and have sustained improvement in fill rates to an average of 98% for the quarter. The positive trend realized in adjusted EBITDA¹ and EPS are a result of the continued organizational change management as we continue to move the business towards profitable growth. Our future filings and financial results to report will include the consolidated results for SRx Health and for our legacy Halo brand, now that the merger has closed. We are optimistic about the future of the Company, and we look forward to updating the market in the coming months."

On April 24, 2025, the Company completed its merger with SRx Health Solutions, Inc., a corporation organized under the laws of the Province of Ontario ("SRx Health"), and as a result, changed its corporate name from the former Better Choice Company Inc. to SRx Health Solutions, Inc. The financials reported as of March 31, 2025, include only US operations of Better Choice Company and Halo pre-merger, and as such are not reflective of Canadian operations. Adjusted EBITDA

We define Adjusted EBITDA as EBITDA further adjusted to eliminate the impact of certain items that we do not consider indicative of our core operations. Adjusted EBITDA is determined by adding the following items to net (loss) income: interest expense, tax expense, depreciation and amortization, share-based compensation, warrant expense, impairment of goodwill, loss on disposal of assets, change in fair value of warrant liabilities, gain or loss on extinguishment of debt, equity and debt offering expenses and other non-recurring expenses.

We present Adjusted EBITDA as it is a key measure used by our management and board of directors to evaluate our operating performance, generate future operating plans and make strategic decisions regarding the allocation of capital. We believe that the disclosure of Adjusted EBITDA is useful to investors as this non-GAAP measure forms the basis of how our management team reviews and considers our operating results. By disclosing this non-GAAP measure, we believe that we create for investors a greater understanding of and an enhanced level of transparency into the means by which our management team operates our company. We also believe this measure can assist investors in comparing our performance to that of other companies on a consistent basis without regard to certain items that do not directly affect our ongoing operating performance or cash flows.

Adjusted EBITDA does not represent cash flows from operations as defined by GAAP. Adjusted EBITDA has limitations as a financial measure and you should not consider it in isolation, or as a substitute for, or superior to, financial measures calculated in accordance with GAAP. Because of these limitations, you should consider Adjusted EBITDA alongside other financial performance measures, including various cash flow metrics, net (loss) income, gross margin, and our other GAAP results.

The following table presents a reconciliation of net loss, the closest GAAP financial measure, to EBITDA and Adjusted EBITDA for each of the periods indicated (in thousands):
