

The Glimpse Group Issued Its 6th Virtual and Augmented Reality U.S. Patent

Glimpse, via its Subsidiary Company Foretell Reality, Issued a New U.S. Patent For Presenting a Simulated Reality Adaptive User Space

NEW YORK, NY / ACCESSWIRE / March 15, 2022 / [The Glimpse Group](#), Inc. ("Glimpse")

(NASDAQ:VRAR)(FSE:9DR), a diversified Virtual Reality ("VR") and Augmented Reality ("AR") platform company providing enterprise-focused VR and AR software and services solutions, today announced that its wholly owned subsidiary company Foretell Reality (www.foretellreality.com) was issued U.S. Patent number 11288868 ("Patent") for presenting a Simulated Reality Adaptive User Space. Foretell Reality is a provider of social VR multi-person spaces for mental health therapy, support and interaction.

The Patent relates to a simulated reality (SR) display system with an adjustable perspective, meaning that the system determines the position of the digital assets in the simulated reality relative to the user and adjusts the positioning of such assets in real time as the user moves around and explores the virtual environment.

Howard Olah-Reiken, CTO of Foretell Reality and one of the Patents inventors said, "One of the key elements for making VR more realistic, reducing motion sickness and improving adoption is maximizing presence, meaning that the virtual environment needs to feel real and natural, and accurately replicate real-world experiences. We believe this patent improves presence in a VR environment and therefore has potentially significant implications and uses."

Lyron Bentovim, President & CEO of Glimpse commented, "We view this Patent as an enabling VR infrastructure patent. To date, Glimpse has filed 13 patent applications in the U.S. and has been issued 6 so far. In conjunction with our increasing revenue base and approximately 125 VR & AR software developers, engineers and 3D artists, we are achieving scale across Glimpse and becoming one of the top independent players in the emerging software and services immersive industry."

About Foretell Reality

[Foretell Reality](#) is a social virtual reality platform that supports many different types of avatars with varying degrees of realism and expression for different use cases including VR therapy and support, soft skills training, and business collaboration.
