

Yorkville, Now Trading as \$MCGA, Pulls Back the Curtain on Unprecedented Planned Business Combination

Additional Key Information on the Business Combination for Trump Media Group CRO Strategy

WEST PALM BEACH, Fla., Sept. 10, 2025 (GLOBE NEWSWIRE) -- Yorkville Acquisition Corp. (Nasdaq: MCGA), today along with the founding partners of Trump Media CRO Strategy, Inc. provides key information as the Business Combination (defined below) process continues to current and prospective shareholders, stakeholders, and partners regarding the announcement of Trump Media Group CRO Strategy, Inc.

Yorkville Acquisition Corp. will be renamed to Trump Media Group CRO Strategy, Inc. upon the closing of the proposed business combination (the “Business Combination”) among Yorkville Acquisition Corp., Trump Media & Technology Group Corp. (Nasdaq, NYSE Texas: DJT) (“Trump Media”) and Crypto.com. The parties previously entered into a [definitive agreement for a Business Combination to establish Trump Media Group CRO Strategy, Inc.](#), a digital asset treasury company focused on the acquisition of the native cryptocurrency token of the Cronos ecosystem (“CRO”).

Is there currently a public company?

Yes. Yorkville Acquisition Corp. (NASDAQ: MCGA) is currently a publicly listed special purpose acquisition company, known as a SPAC. At the closing of the Business Combination, Yorkville Acquisition Corp. will be renamed Trump Media Group CRO Strategy, Inc. to better identify and align itself with its future business plans as a CRO treasury company.

Will Yorkville Acquisition Corp. be renamed Trump Media Group CRO Strategy, Inc.?

Yes. Yorkville Acquisition Corp. (Nasdaq: MCGA) is the existing special purpose acquisition company, known as a SPAC, that will be acquiring assets from Trump Media and Crypto.com. At the closing of the Business Combination, Yorkville Acquisition Corp. will be renamed Trump Media Group CRO Strategy, Inc. The Business Combination is subject to customary closing conditions, and no assurances can be given that the closing will in fact occur.

Who are the major players in this transaction?

The founding partners are:

- *Trump Media & Technology Group Corp. (Nasdaq, NYSE Texas: DJT)*
- *Crypto.com*
- *Yorkville Acquisition Corp. (Nasdaq: MCGA)*

Together, following the closing of the Business Combination, we will establish Trump Media Group CRO Strategy, Inc. as the first publicly listed CRO-focused digital asset treasury company.

Why are the founding partners pursuing a CRO digital asset strategy?

Since digital asset treasury strategies were pioneered, a number of companies have pursued various digital asset strategies, primarily in two ways: The first set of companies are adding treasury strategies to their existing businesses (which may be unrelated to the treasury strategies) to diversify their balance sheets and prepare for the financial market of today and tomorrow. The second set of companies are more pure plays in that their businesses are interwoven with the treasury strategy itself. The founding partners are pursuing this latter category.

We believe this proposed pure play strategy will enable us to deploy a higher percentage of capital to the acquisition of CRO because, in contrast to the first category of companies, capital will not be needed to support other, sometimes unrelated, businesses. Moreover, this strategy is expected to be the first and largest publicly traded CRO treasury company, as well as one of the largest digital asset treasury companies to date.

The founders believe that the sheer size and structure of this project, with the additional expected funding of potentially over \$400 million in cash and a further \$5 billion equity line of credit to acquire additional CRO, as well as the agreed-upon share lock-ups by our founding partners and the treasury’s validator strategy make it a unique and compelling offering compared to prior-generation digital asset treasuries.

Additionally, the ability to integrate a utility token with another digital platform, as CRO will be with Truth Social, highlights the advantages of CRO, which can be integrated across existing digital networks – potentially creating engagement-based rewards systems, upgrading infrastructure and enabling wallet capabilities.

What is CRO (Cronos)?

Cronos is a high performance, interoperable blockchain designed for speed, scalability, and seamless connectivity between networks, making it a strong foundation for the future American digital economy. It enables low-cost, high-speed smart contract deployment and smooth integration with other major blockchain ecosystems, unlocking widescale adoption of decentralized applications in finance, commerce, and public infrastructure, without the congestion or costs of legacy networks. With its proof-of-authority consensus, robust validator set, and enterprise-grade security, Cronos delivers the performance and reliability needed to power mission-critical applications at scale.

How is CRO different from Bitcoin?

Bitcoin is the world’s first decentralized digital currency, primarily seen as a store of value similar to “digital gold.” CRO, on the other

hand, has a functional role in its blockchain ecosystem—securing the Cronos network, facilitating decentralized applications (dApps), and enabling staking rewards.

Why CRO and not Bitcoin or another token?

The founding partners believe CRO offers a unique opportunity:

- *It represents the backbone of a growing blockchain ecosystem (Cronos).*
- *CRO enables both utility (transactions, fees, governance) and yield generation (staking rewards).*
- *By operating a validator node, the company can compound its CRO holdings, a strategy not available with Bitcoin or other targets we considered for our DAT strategy.*

How can I become an investor?

The publicly traded entity TODAY is Yorkville Acquisition Corp. (Nasdaq: MCGA), which will be renamed as Trump Media Group CRO Strategy upon completion of the Business Combination. The Business Combination is subject to customary closing conditions and no assurances can be given that the closing will in fact occur. Please refer to Yorkville Acquisition Corp.'s SEC filings for the latest information related to the proposed Business Combination

What will the future business of the combined entity look like?

Following the closing of the Business Combination (which is subject to customary closing conditions), the core business of Trump Media Group CRO Strategy, Inc. will be to accumulate and actively manage a digital asset treasury composed of CRO tokens.

The strategy is designed to:

- *Allocate substantially all cash reserves to acquiring CRO, prioritizing yield-generating, ecosystem aligned assets over traditional non-productive holdings.*
- *Establish and operate a validator node on the Cronos blockchain, enabling participation in network governance and security.*
- *Generate staking rewards that are reinvested to compound CRO holdings, helping to offset operational costs and supercharging our accumulation strategy.*

How much capital will fund the new digital asset treasury?

The expected structure includes:

- *6,313,000,212 CRO tokens as of September 9, 2025, worth approximately \$1 billion and comprising ~19% of total CRO circulating supply;*
- *\$200 million in cash;*
- *\$220 million from mandatory-exercise warrants;*
- *\$5 billion equity line of credit from YA II PN, Ltd., an affiliate of Yorkville.*

This creates a potential \$6.42 billion funding package.

What will be the ownership structure of the new company?

Following the closing of the Business Combination, Trump Media Group CRO Strategy, Inc. will be majority-owned by the three founding partners; Trump Media, Crypto.com, and the sponsor of Yorkville and its affiliates. MCGA's public shareholders will also participate as the company transitions following the proposed Business Combination.

What makes this transaction unique?

At closing of the Business Combination, Trump Media Group CRO Strategy, Inc. is expected to be:

- *The first and only publicly traded CRO treasury company;*
- *The largest digital asset treasury relative to market cap ever formed;*
- *Positioned to combine a significant token holding with validator rewards to create long-term value.*

What are the lock-up and release terms for the founding partners?

The sponsor of Yorkville, Trump Media, and Crypto.com have all agreed to a one-year mandatory lock-up on their founders' shares and warrants. After that period, their founders' equity will be gradually released over a three-year schedule. This ensures the founding partners remain aligned with long-term shareholders.

What will each party contribute to the combination?

Affiliates of Yorkville will be providing financing in the form of a backstop and an equity line of credit (ELOC). Crypto.com is contributing CRO tokens. Trump Media is contributing a license to use certain intellectual property.
