### Third Quarter 2025 Financial Results

Revenue was \$1.2 million in the third quarter of 2025, compared to \$0.9 million in the same period of 2024. Revenue for the nine months ended September 30, 2025, was \$2.5 million, compared to \$2.5 million in the nine months ended September 30, 2024. The increase in the three months ended September 30, 2025, was primarily due to an increase in the number of surgical procedures in which the Catamaran System was used and the addition of sales of the SImmetry SI Joint Fusion System.

Gross profit was \$0.8 million, or 66% of revenue, in the third quarter of 2025, compared to \$0.4 million, or 47% of revenue, in the third quarter of 2024. For the nine months ended September 30, 2025, gross profit was \$1.3 million, or 54% of revenues, compared to \$1.4 million, or 54% of revenue, for the nine months ended September 30, 2024. The improvement of gross margin within the quarter was driven by higher revenue absorbing fixed overhead expenses in our cost of goods sold.

Operating expenses totaled \$4.2 million in the third quarter of 2025, compared to \$3.6 million in the third quarter of 2024. For the nine months ended September 30, 2025, operating expenses totaled \$11.3 million compared to \$12.0 million in the prior year period. The increase in the three months ended September 30, 2025, was primarily due to higher sales expenses driven by increased commission expense due to higher revenue, as well as elevated marketing and general and administrative expenses related to the integration of the SiVantage acquisition within the quarter. The decrease in operating expenses in the nine months was primarily due to lower operating expenses including lower stock-based compensation across several operating categories.

Net loss was \$3.3 million, or \$0.40 per share, in the third quarter of 2025, compared to a net loss of \$3.2 million, or \$3.63 per share, in the third quarter of 2024. For the nine months ended September 30, 2025, net loss was \$9.7 million compared to \$10.6 million in the same year ago period. The year-over-year improvement was largely driven by reduced operating expenses and lower fixed costs, driving operating leverage.

As of September 30, 2025, cash and cash equivalents totaled \$3.4 million, compared to \$6.5 million at December 31, 2024. Subsequent to quarter end, Tenon raised an additional \$2.85 million in cash to fund future growth initiatives. The Company had no outstanding debt as of quarter-end, positioning it to continue executing on its strategic initiatives, including the development and launch of the acquired SiVantage assets and expanding the commercial team.
