Markets and Securities Services: Quantitative Analysis Full Time Associate (North America)

You’re the brains behind our work.

You’re the brains behind our work. You’re ready to bring your knowledge from the classroom to the boardroom, and Citi wants to help you get there. Whether it’s honing your skills or building your network, we know that success can’t come without growth. Our programs equip you with the knowledge and training you need to play a valuable role on your team, and establish a long-term career here. At Citi, we value internal mobility, and career growth is not a question of if, but when. Citi’s Institutional Clients Group is looking for Full Time Associates to join the Markets and Securities Services: Quantitative Analysis team in NAM. Quantitative Analysis works with international clients to streamline financial processes and make transactions seamless. Quantitative Analysis provides innovative solutions to public sector clients, corporations and financial institutions in more than 120 countries, including 99 of the Fortune Global 100 companies.

We provide you with the knowledge and skills you need to succeed.

The Markets Quantitative Analysis (MQA) plays a vital role in the Institutional Clients Group because of the information they provide and the skills they possess. Our industry-leading professionals are thought leaders on complex subjects such as portfolio analysis, security selection, derivative modeling and managing portfolio level risk. MQA builds tools and models that assist traders and clients in pricing, hedging, and structuring of securities, and provide critical information and advice for managing risk across all market trading units. We provide you with the knowledge and skills you need to succeed. We’re committed to teaching you the ropes. This is a highly competitive and selective program that gives recent graduates an introduction to our Fixed Income, Currency, Commodity, and Equity franchises. Associates gain exposure to senior professionals who will serve as their mentors throughout the two-year process. At the end of the program, our goal is to ensure that every Associate is placed in a job that best pairs their skill sets and personal interests with the needs of the firm.

Your time here will look something like this.

Associates can expect to build tools and models that assist traders and clients in pricing, hedging, and structuring of securities, and provide critical information and advice for managing risk across all market trading units.

We want to hear from you if...

- You graduated with a GPA of 3.3 or above
- You are obtaining a PhD degree or a Master’s degree with three years of previous full-time experience (graduating in Fall 2018 or Spring 2019)

Who we think will be a great fit...

We’re looking for motivated individuals, who are eager to start their careers at a global organization, tend to think globally, and have an innovative outlook on business. We value diversity and so do you. We’ll also be looking for the following:

- Problem solvers who are intellectually curious
- Ability to juggle multiple tasks simultaneously
• Detail-oriented and hardworking individuals who are confident and comfortable around clients
• Have strong statistical knowledge and mathematical abilities
