TO: Interested Parties

DATE: 09/16/2025

RE: Addendum #5 to the Request for Proposals (RFP) 1385R

Project: Design, Build, Finance, Operate, and Maintain (DBFOM) Sludge Processing and Disposal Facility at Back River WWTP

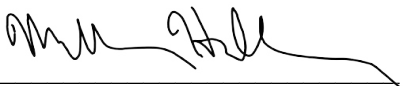

This Addendum No. 5 is issued to inform all interested parties that the proposal submission deadline for RFP 1385R has been extended to **Friday, December 12, 2025, at 12:00 PM (NOON)**. This extension is in response to a significant number of proposals being disqualified due to noncompliance with the City's prequalification requirements. The extended deadline allows vendors whose proposals were previously rejected or disapproved the opportunity to revise and resubmit in accordance with the City's prequalification guidelines. Vendors who did not submit a proposal previously are also encouraged to submit, provided they meet all applicable City requirements.

A virtual meeting will be held on 9/25/2025 at 10:00 AM organized by the Office of Boards and Commissions. The purpose of this meeting is to review and clarify the City's prequalification requirements. Only questions specifically related to prequalification will be addressed during this session. Technical, contractual, or general RFP related questions will not be discussed. Interested vendors should email Obc.consultants@baltimorecity.gov to request access to the virtual meeting link.

All other terms and conditions of the RFP and prior Addenda remain unchanged.

Thank you for your continued interest in partnering with the City of Baltimore on this important project.

APPROVED:

Michael Hallmen
Deputy Bureau Head
Bureau of Water and wastewater

Matthew Garbark
Acting Director
Department of Public Works
