Introduction

Summary

The Capital Improvement Program is a six-year plan for funding capital projects by City agencies. The program is updated each year and the program's first year is adopted as the capital component of the Ordinance of Estimates, the City's budget bill.

This report contains recommendations adopted by the Planning Commission on March 12, 2026.

The goal of this report is to support the Planning Commission in the review of the six-year program and to share this important information with residents across the city and region.

Please see the Department of Planning's [Capital Improvement Program Reports & Resources](#) page for prior versions of this report including agency requests.

For questions, please contact the Department of Planning at 410-396-PLAN (7526) or visit the Department website at <https://www.baltimorecity.gov/planning>.

SUMMARY

Recommended funding by agency

Agency	FY27	FY28	FY29	FY30	FY31	FY32	Total
Baltimore City Information Technology	38.40	8.67	16.57	18.10	23.44	18.65	123.84
Baltimore City Mayor's Office	-10.53	4.63	2.10	2.34	5.10	5.60	9.24
Baltimore City Public Schools	28.50	30.00	30.00	40.00	40.00	40.00	208.50
Baltimore Development Corporation	26.43	1.95	1.95	1.95	1.95	1.95	36.18
General Services	60.37	21.40	43.68	61.20	55.60	94.80	337.05
Housing and Community Development	78.50	43.94	45.66	43.09	43.66	27.84	282.68
Planning	0.99	0.97	0.97	1.05	1.05	1.05	6.09
Public Works	486.16	711.71	592.98	459.71	580.70	240.14	3,071.40

Total	\$1,065.67	\$958.56	\$824.73	\$727.76	\$845.40	\$498.34	\$4,920.45

Amounts in millions.

About the Capital Improvement Program

Capital budget

The City Charter requires that the Baltimore City Planning Commission recommend a six-year [Capital Improvement Program \(CIP\)](#) to the [Board of Estimates](#) each year. The first year of the six-year program becomes the capital portion of the Baltimore City budget, adopted by the Baltimore City Council in June of each year in a bill known as the Ordinance of Estimates.

The Ordinance of Estimates includes both the Operating Budget and the Capital Budget. The operating budget funds the daily business of the City, specifically covering programs, services, staff, and supplies. The capital budget funds major renovations, upgrades, or replacements of physical infrastructure and assets. Annual budget publications are available through [the Bureau of the Budget and Management Research website](#).

The process of preparing the capital budget begins with the six-year program approved by the Board of Estimates for the prior fiscal year. Each fall, City agencies review the approved program and submit updated capital requests for inclusion in the next six-year capital program.

For the FY27-32 Capital Improvement Program, agencies submitted requests within the expected funding levels (Base Budget requests) as well as additional requests for consideration (Additional Priorities). The Planning Commission reviews the proposals and makes a recommendation to the Board of Estimates on which projects and programs to include in six-year CIP. The recommended program must fit within the funding levels set by the Department of Finance.

Review and adoption timeline

The Planning Commission recommends a new six-year CIP each fiscal year following a standard review and adoption timeline:

- Starting in late September, the Department of Planning works with participating City agencies to solicit project funding requests. Requests are published each year in December.
- In January, City agencies present CIP priorities to the Planning Commission.
- Between December and February, Department staff prioritize projects for funding and prepare a six-year plan for review and approval by the Planning Commission in February and March.

- Between March and June, following Planning Commission approval, the six-year CIP is reviewed and approved by the Board of Finance and the Board of Estimates, and, finally, the first year of the CIP is reviewed and approved by the City Council as part of the Ordinance of Estimates.

Participating agencies

The following City agencies participate in the annual capital budget process:

- Baltimore City Information Technology
- Baltimore City Mayor's Office
- Baltimore City Public School System
- Baltimore Development Corporation
- Department of General Services
- Department of Housing and Community Development
- Department of Planning
- Department of Public Works
- Department of Recreation and Parks
- Department of Transportation
- Parking Authority of Baltimore City

The Department of General Services (DGS) manages buildings used by other City agencies including the Fire Department, Police Department, and Health Department. The Department of General Services also makes requests and identifies priorities on behalf of the Convention Center and the Enoch Pratt Free Library.

The Baltimore City Public School System (BCPSS) Capital Improvement Program is approved separately from that of other agencies. The largest share of funds for the school system's capital budget come from the State, through the State Public School Construction Program (PSCP) supported by the [Interagency Commission on School Construction \(IAC\)](#). The Planning Commission reviews the school system's six-year program and requests that are submitted to the PSCP in the fall of each year. Baltimore City's CIP only includes City funds contributed to the school system's regular capital budget so only those projects supported by this funding are included in this report.

Capital funding sources

Funding for capital improvements comes from a variety of sources, including general fund-backed sources, state and local funds, utility-related sources, and more.

Local Discretionary Sources

General Funds (Pay-as-you-go)

Revenue received from various payments to the City, such as property taxes and sale of property. General Funds are mostly used for the operating budget, but Finance allocates a certain amount for PAYGO capital each year.

General Obligation Bonds (GO Bonds)

With voter approval, the City borrows money for specific improvements by selling General Obligation Bonds. GO bonds are debt secured by the full faith and credit of the City and are presented to voters for approval every two years through questions on the general election ballot. This is a flexible fund source that allows the City to maintain some of its highest priority capital assets and programs, particularly those that are not eligible for any other fund source.

i General Obligation Bonds in FY27-32 CIP

For the FY26 and FY27 capital budgets, voters approved \$250 million in General Obligation (GO) bonds across four specific loans: the 5th Affordable Housing loan (\$20 million), the 51st School loan (\$55 million), the 5th Community and Economic Development loan (\$50 million), and 3rd Public Infrastructure loan (\$125 million). The loans are for two years, so each year is half of the total amount is budgeted.

Highway User Revenue

Highway User Revenue (HUR)

Formerly known as Motor Vehicle Revenue (MVR), State Highway User Revenues are allocated by formula. These state funds are restricted to eligible transportation-related uses. The amounts included in this report reflect current policy as of February 2026. HUR funding amounts will be updated to match new policy as needed.

State and Federal Sources

State Grants and Loans

Funds from the State are typically in the form of grants, including grants made through Program Open Space for planning and development of recreation and open space

projects. Some funds received from the State are loans, rather than grants, and must be repaid.

Federal Grants and Loans

Federal grants include Community Development Block Grants (CDBG), Federal Highway Administration (FHWA) grants, and other sources. Federal loans include funding made available to the Department of Public Works by the Environmental Protection Agency (EPA) through the Water Infrastructure Finance and Innovation Act (WIFIA).

Utility Sources

Revenue Bonds

Bonds issued by the City to be repaid with future dedicated revenue, such as water, wastewater, and stormwater revenue collected from water bills by the Department of Public Works. At times, revenue bonds can be used for non-utility-related projects (if an appropriate revenue source is identified and approved by the Department of Finance).

i Revenue Bonds in FY27-32 CIP

The Department of Finance authorized the Parking Authority of Baltimore City to budget Parking Revenue bonds as a source for FY25 to FY29 budgets. Parking revenue bonds are loans for improvements that are paid back by future revenues from parking fees and fines.

Utility Funds

Utility funds include current revenues from City utilities such as water bills and conduit fees. Programmed amounts for utility funds are subject to change pending the results of a study currently being completed by the Department of Finance.

County Grants

County grants are contributions from surrounding counties that are served by the City's utilities.

Other Sources

Other possible sources include Local Impact Aid, private monies, and more.

Evaluation and justification

Planning staff work with agency staff to determine priority projects for each agency. For the FY27-32 Capital Improvement Program, agencies have identified the three most significant reasons that the project should be prioritized for funding.

Justification	Defiintion
Addresses State or Federal Mandate	Meets a local, state, or federal legal requirement.
Furtheres the City’s Equity Goals	Provides benefits to populations and/or locations that have historically not received equitable public investment.
Addresses Health & Safety	Provides an immediate or long-term public health or safety benefit.
Improves or Replaces Asset in Poor Condition	Addresses deferred maintenance and risk of asset failure.
Provides Significant Return on Investment	Increases tax revenue, reduces costs, and/or leverages other funds.
Provides Environmental Benefits	Improves air or water quality or reduces greenhouse gas emissions.
Provides Efficient & Effective Solution	Coordinated with other projects to increase impact or otherwise provides a cost-effective and efficient solution.

About the Capital Improvement Program report

Required information

The [City Charter](#) requires the Department of Planning to publish the six-year Capital Improvement Program as a public report. The CIP report must include the following items for each project:

- a brief description and location,
- the total estimated cost,
- the appropriations authorized to date,
- the appropriations proposed for the next fiscal year,
- the appropriations required thereafter to complete the project,
- and the estimated additional annual maintenance and operation cost.

Due to changes to Baltimore City's accounting systems, the FY25-30 and FY26-31 versions of this report did not include appropriations authorized to date. Prior appropriations are expected to be included in later versions of the FY27-32 Capital Improvement Program report.

Report organization

This report is organized into sections by agency. Each section starts with an agency overview including:

- A description of the agency and the agency's typical capital projects
- A summary table of projects and detailed project profiles with requested, recommended, or approved funding for the 6-year program

Following the agency overview, the report provides a detailed profile of projects for this stage of the 6-year program. Each detailed project profile includes:

- Project ID and name
- Project type (City-Owned Project, Non-City Owned Project, City-Owned Program, or Grant and Loan Program) and purpose (State of Good Repair, Modernization, New Asset, Community/Economic Development, or Replacement)
- Cost Center
- Location description
- Expected annual operating impact (and the year impact is expected to begin)
- A table showing projects by source for the next six years (FY27-32)
- A table showing estimated project costs or information on agency-provided target funding levels

All funding amounts and estimates costs for projects are in *thousands* of dollars. For example, \$100 should be read as \$100,000 or \$1,500 as \$1,500,000.

Project locations

For projects that are specific to one or more physical locations, the profile includes a locator map showing the project location and, for projects within the City, the Community Statistical Area where the project is located. It is important to remember, however, that projects often provide critical services or benefits for residents beyond the surrounding neighborhood. The Department of Planning prepares a separate distribution analysis to evaluate the distributional equity of investments included in the proposed Capital Improvement Program.

Capital funding (including design, planning, and implementation costs) associated with citywide systems and infrastructure may not be tied to a specific location. Other agency budgets support projects that may be used at one or more location as needed to respond to future urgent needs.

 Explore project locations online

You can explore prior project locations from FY2018 to FY2026 in [this online webmap](#).

Funding and estimate tables

Detailed project profiles include tables showing projects by year and source and estimated design, construction, and other project costs.

Projects by Agency

Baltimore City Information Technology

Agency overview

The Baltimore City Office of Information and Technology (BCIT) is responsible for providing information technology leadership to the entire City, utilizing and leveraging information technology to enhance productivity, broaden the capabilities, and reduce the operating costs of Baltimore City government, thereby improving the quality and timeliness of services delivered to residents. Through the agency's capital program, BCIT aims to stabilize and modernize the infrastructure and applications underlying critical city services to enable them to meet the ever-increasing demands of a digital society.

BCIT's capital projects include updating major applications, public safety technology, and network infrastructure upgrades.

[Learn more on the BCIT website »](#)

Project details

The recommended FY27-32 program for the Baltimore City Information Technology includes \$123.84M for nineteen projects. Negative fourteen locations are included and seventeen projects have a citywide scope.

PRJ003464 CitiWatch Infrastructure Investments	0	3,340

PRJ001124 908050 Enhance Cyber Security and Monitoring

Type City-owned Program **Purpose** Modernization **Category** Cyber Security

Implementing enhancements to existing cyber-security infrastructure to fortify the city’s systems against threats. Cyber-security threats become more sophisticated and difficult to thwart over time. In response to these threats, BCIT’s Information Security team is constantly implementing new tools, systems, and solutions to protect the city from cyber-attacks.

Justification

Furtheres the City’s Equity Goals and Provides Efficient & Effective Solution

All amounts in thousands of dollars.

PRJ002077 913048 Replace Unmanaged Network Hubs and Switches

Type City-owned Program **Purpose** Replacement **Category** Infrastructure

Replace end-of-life hubs and switches. This program routinely replaces hubs and switches throughout the city in order to optimize IT infrastructure performance, security, and compatibility. End-of-life hubs and switches cannot keep up with the demands of current network traffic and pose a security risk due to their lack of compatibility with newer technology.

All amounts in thousands of dollars.

PRJ002414 920071 117-071 Public Safety Technology System Infrastructure Upgrade

Type City-owned Program **Purpose** Replacement **Category** Public Safety Tech.

Upgrade or replace public safety technology system infrastructure. This project focuses on emergent issues in the public safety communication space. Oftentimes, unforeseen issues arise, and public safety hardware or software needs to be replaced immediately due to unanticipated issues with a particular project; a change in legislation that places additional requirements on technology within the public safety space; or possible the need to bring in a subject matter expert to assist in further developing the solution.

PRJ002417 922029 117-029 Citywide Cyber Security Systems Upgrade

Type City-owned Program **Purpose** New Asset **Category** Cyber Security

Upgrade the City’s cyber security systems to enhance the security capabilities of the City’s cyberinfrastructure. The City’s very recent experience with a crippling cyber-attack speaks to why moderate but consistent investments in cybersecurity initiatives pay extraordinary dividends when it comes to the continuity of operations and maintenance of city services for government stakeholders, residents, and visitors. Supporting this investment in cyber-security will keep our systems and sensitive information safe while in this hybrid-working environment.

PRJ003665 Wireless Access Point Refresh

Type City-owned Program **Purpose** Replacement **Category** Infrastructure

Refresh wireless access points. BCIT currently manages 120 wireless access points that will reach the end of support on October 31, 2027. Wireless access points (WAPs) connect wireless devices to a wired network, enabling them to access the internet or a local area network (LAN). WAPs are crucial for IT infrastructure because they extend a network’s reach, eliminate wireless dead zones, support a large number of connected devices, and provide scalable and flexible connectivity without relying solely on physical cables. This project will replace the 120 wireless access points.

Baltimore City Mayor's Office

Agency overview

The Baltimore City Charter establishes the Mayor as the chief executive officer and empowers the appointment of persons to aid in the discharge of duties. The Mayor's Office oversees the operation of City departments, establishes citywide policies, reviews and develops programs, and executes ordinances and resolutions.

Typical capital projects include those funded through the Cultural Spaces Capital Support program, through which it supports organizations that promote arts and culture in Baltimore City. Capital projects also include Mayoral priorities.

[Learn more on the Mayor website »](#)

Project details

The recommended FY27-32 program for the Baltimore City Mayor's Office includes \$9.24M for eight projects. One location is included and four projects have a citywide scope.

Baltimore City Public Schools

Agency overview

The Baltimore City Public School System mission is to provide excellence in education for every child at every level by focusing on quality instruction, managing systems efficiently, and sustaining a culture of excellence. To support City Schools mission, the Board of School Commissioners is responsible for providing policy direction and wide-ranging oversight that includes closely monitoring student achievement and the budget, as well as appointing key staff. The agency is responsible for maintaining 138 buildings, as well as an additional 10 administrative buildings, 10 modular buildings, and 29 portables (151 rooms).

Typical projects include major renovations and replacements for schools not being upgraded through the 21st Century Schools initiative, as well as systemic building improvements (windows, doors, electrical systems, fire suppression systems, HVAC systems, and more).

PRJ003654 Lakeland Elem #12 Pre-Fab Replacement

Type City-Owned Project **Purpose** Replacement **Category** Major Construction

Replace an existing modular building with a multi-story pre-fabricated modular building to address severe over-utilization and the poor condition of the existing building. The replacement building will be a two-story building, approx. 22,000 sf, with twenty classrooms for 6th to 8th grade students, a permanent foundation, upgraded exterior walls, two stair towers, and an elevator. The new building will be built on the site of the existing playground, then the existing modular building will be demolished, and a new playground would be built in its place.

Location

2921 Stranden Rd.

Baltimore Development Corporation

Agency overview

The Baltimore Development Corporation (BDC) is a non-profit organization, which serves as the economic development agency for the City of Baltimore. BDC's mission is to grow the city's economy in an inclusive manner by retaining, expanding and attracting businesses, and promoting investment, thereby increasing career opportunities for residents.

BDC's capital program is focused on its business support programs, including loans and grants for small businesses.

[Learn more on the BDC website »](#)

Project details

The recommended FY27-32 program for the Baltimore Development Corporation includes \$36.18M for eight projects. Two locations are included and two projects have a citywide scope.

Department of General Services

Agency overview

The Department of General Services (DGS) was approved by the citizens of Baltimore in the November 2008 General Election and began operations as an independent agency on July 1, 2009. DGS is comprised of five divisions: Administration, Fleet Management, Facilities Management, Public and Private Energy Performance, and Capital Projects Division/Design and Construction. DGS is committed to providing healthy work environments and safe, reliable vehicles for City employees by delivering customer service to City agencies, which serve Baltimore's community members and stakeholders.

The Department of General Services acts as the central design and construction agency for improvements to most of the City's buildings.

[Learn more on the DGS website »](#)

PRJ000862 906129 Animal Control and BARCS Study

Type City-Owned Project **Purpose** State of Good Repair **Category** BCHD

This project focuses on addressing drainage and slope stability concerns on the western slope of the facility. The initiative was prompted by concerns about surface runoff impacting adjacent properties. Preliminary observations conducted by the Department of Public Works (DPW) identified areas of slope instability on portions of the site. Temporary controls have been implemented to manage surface water runoff while ongoing monitoring evaluates existing conditions. Based on the results of this monitoring, remediation measures will be developed, with completion of the current assessment anticipated in the spring of next year.

Department of Housing and Community Development

Agency overview

The Department of Housing and Community Development (DHCD) mission is to ensure that all residents of Baltimore City have access to adequate and affordable housing opportunities in safe, livable, and decent neighborhoods. The Department is committed to expanding housing choices and promoting healthy neighborhoods for all Baltimore residents. Major responsibilities of DHCD include working with communities and other Departments to create equitable and thriving neighborhoods while minimizing displacement through a broad range of investments, code enforcement interventions, property redevelopment, supporting capacity building for community organizations, funding before and after-care programs, summer food programs, emergency assistance, and other human services.

Typical capital projects include demolition/stabilization and associated activities, major redevelopment projects, and homeowner or home repair assistance programs.

[Learn more on the HCD website »](#)

Project details

The recommended FY27-32 program for the Department of Housing and Community Development includes \$282.68M for thirty-four projects. Eight locations are included and fourteen projects have a citywide scope.

Department of Planning

Agency overview

The Department of Planning (DOP) provides services in urban and strategic planning, historical and architectural preservation, zoning, design, development, and capital budgeting to promote the sustained economic, social, and community development of the City of Baltimore. The services provided by the Department of Planning are mandated by Articles VI and VII of the Baltimore City Charter and the Zoning Code. The Charter authorizes the Planning Commission to develop and update plans for the physical development of the City, review proposals for the subdivision of land, submit an annual capital budget and six-year Capital Improvement Program, and make recommendations on proposed amendments to the City's Zoning Ordinance. The Department also supports the Commission on Historical and Architectural Preservation, the Sustainability Commission, the Planning Academy, the Food Policy Advisors and an advisory group for the Comprehensive Plan. These groups, in conjunction with the work of the Community Planning and Revitalization Division, keep the Department relevant and grounded with the citizens it serves.

Department of Public Works

Agency overview

The Department of Public Works (DPW) mission is to enhance and sustain healthy quality of life for every resident and customer by providing efficient management of its services. The Department of Public Works consists of three major divisions: the Bureau of Solid Waste, the Bureau of Water and Wastewater, and the Surface Water Service (Stormwater). The Bureau of Solid Waste is responsible for providing waste removal and recycling services, including curbside collection of mixed refuse, recycling, and seasonal waste for residents in around 210,000 households. The Bureau also provides vacant and abandoned property maintenance services, rat control services, as well as public right-of-way cleaning of streets, alleys, and lots. The Bureau of Water and Wastewater is responsible for the operation of a water distribution system that supplies water to 1.8 million customers in the Baltimore Metropolitan Region. These responsibilities include the operation, maintenance, and security of three watershed systems; three filtration plants; pumping stations; and 3,800 miles of water distribution mains. The Bureau's wastewater activities include collection and treatment of wastewater, the operation and maintenance of two wastewater treatment plants, approximately 3,100 miles of collection and conveyance lines, pumping stations, and the City's system of storm drains. The Surface Water Service consolidates all Stormwater related functions. The Division's mission is to restore the City's surface water to swimmable, fishable conditions in compliance with the Environmental Protection Agency and the Clean Water Act.

Capital projects include improvements to all facilities related to solid waste, water, wastewater, and stormwater service. Project involve repairs for pipes, pumping stations, water filtration, sewage treatment, reservoirs, and more.

[Learn more on the DPW website »](#)

Project details

The recommended FY27-32 program for the Department of Public Works includes \$3,071.40M for one hundred twenty-one projects. No locations are included and fifty-one projects have a citywide scope.

CAPO09520 CAP STORMWATER

PRJ002939 SDC 7806 Drainage Study and Design

Type City-Owned Project

Purpose State of Good Repair

Category Stormwater - Utilities

The City has aging storm drain 100 plus years old infrastructure. Climate change is causing unusual severe storms which causes street flooding. DPW has been receiving drainage complaints in spite of routine maintenance of storm drains and inlet cleaning activities. Residential properties in the neighborhoods, such as, Cherry Hill, 35th and Hillen Rd, Frederick Ave., North Point Road, and Patapsco Ave. flood very frequently resulting into loss of property and threat to human safety. Funds from this CIP account will help the City write an on-call task to assess a flooding complaint that could not be addressed through routine storm drain maintenance. The assessment results will help justify new CIP projects to improve drainage Citywide.

Addresses State or Federal Mandate, Addresses Health & Safety, and Provides Environmental Benefits

All amounts in thousands of dollars.

Department of Recreation and Parks

Agency overview

Baltimore City Recreation and Parks (BCRP) is the primary provider of recreational, cultural, and physical activities to the residents of the City of Baltimore. Active lifestyles and a connection to nature have been scientifically proven to improve both physical and mental health in all age groups. BCRP provides a wide range of activities in its sports facilities and forty-seven community centers. City residents can participate in indoor and outdoor aquatics, ice and roller skating, hockey, soccer, basketball, football, dancing, acting, music, tennis, track and field, boxing, after-school and out-of-school programs. The Bureau of Parks is responsible for the beautification, management and maintenance of 4,600 acres of parkland. It also plans and implements outdoor recreation programs in City parks, including nature and environmental education at Carrie Murray Nature Center. The Horticulture Division is responsible for the Rawlings Conservatory and Cylburn Arboretum. The Urban Forestry Division is responsible for the planting and caring of all trees in the public rights-of-way and City parks. Park Programs is responsible for the Rhythm and Reels, park permits, park volunteer program, the “\$5 5K” running series, biking, kayaking, hiking, and camping in city parks.

Typical capital projects include improvements to parks, recreation centers, athletic fields and courts, playgrounds, and other facilities.

[Learn more on the BCRP website »](#)

Project details

The recommended FY27-32 program for the Department of Recreation and Parks includes \$177.42M for forty-six projects. Thirty-six locations are included and four projects have a citywide scope.

PRJ002359 980002 Youth Sports Complex

Type City-Owned Project **Purpose** New Asset **Category** Other

Design and build a youth sports complex as an economic driver that will bring part of the \$50 billion youth sports industry to Baltimore. The facility would provide low cost local programming Monday through Thursday and look to generate self-sustaining revenue over the weekend by hosting regional tournaments and competitions. The facility is contemplated to offer a variety of activities including, but not limited to, indoor basketball, volleyball, tennis, and track & field along with outdoor offerings of a multipurpose field stadium and running track. The location is still being finalized, but is likely to be the former Thurgood Marshall Building at 5001 Sinclair Lane. The existing structure will need to be demolished before construction begins.

Location

Potential site: 5001 Sinclair Lane

Department of Transportation

Agency overview

The Department of Transportation's (DOT) mission is to maintain and improve the transportation infrastructure to produce a safe, reliable, accessible, and efficient system for everyone that provides multiple and sustainable modes of transportation for residents, businesses, and visitors – thereby promoting livable and vibrant communities across Baltimore City. DOT is responsible for building and repairing public streets, bridges, and highways, as well as maintaining streetlights, alleys, footways, and the conduit system. Other duties include managing traffic movement; inspecting City construction projects; and developing sustainable transportation solutions.

Typical capital projects include replacement or repair of bridges, sidewalks, alleys, major road reconstructions, construction of bike lanes, intersection improvements, and more.

Furthers the City’s Equity Goals, Improves or Replaces Asset in Poor Condition, and Addresses State or Federal Mandate

All amounts in thousands of dollars.

PRJ003507 Harbor Connector Ferry Landing ADA Improvements

Type City-Owned Project

Purpose Modernization

Category Alleys/Footways

Complete improvements to Harbor Connector Ferry Landings including reconfiguring/reorienting existing landings and replacing aging landings with brand new ones. Using funding approved in the FY26-31 CIP, three of the Harbor Connector landings (Harbor East, Pier 1 and Maritime Park) are planned for improvements in FY26. This FY27 project will complete improvements and construction activities at the other landing locations (Canton Waterfront Park, Locust Point and Federal Hill).

Location

Waterfront of the Northwest and Middle Branches of the Patapsco River, including Broadway Pier, Thames Street bulkhead and the Promenade

PRJ003105 Traffic Calming Quick-Build to Hardscape Conversion Citywide

Type City-owned Program **Purpose** New Asset **Category** Traffic Engineering

Upgrade traffic calming “quickbuild” locations that are currently paint and flexposts into hardscape installations of concrete and/or grass areas. This project will reinforce the safety benefits gained from quickbuild projects, lower the maintenance needs for these areas, improve roadway and sidewalk aesthetics, and thereby increase community support for these safety measures.

Location

Various locations citywide

Justification

Furtheres the City’s Equity Goals, Addresses Health & Safety, and Provides Efficient & Effective Solution

All amounts in thousands of dollars.

PRJ003106 Pedestrian Safety Improvements with HSIP Grant

Type City-owned Program **Purpose** Modernization **Category** Traffic Engineering

Implement flashing beacons and hybrid pedestrian signals at more than twenty intersections citywide. These intersections were chosen due to a combination of high crashes and injuries and high demand, such as at parks. DOT Traffic Division is working on the design with support from a Highway Safety Improvement Program (HSIP) grant. Additional funding is required as the local match for construction.

Location

Multiple intersections citywide

Parking Authority of Baltimore City

Agency overview

The Parking Authority of Baltimore City (PABC) is responsible for on-street and off-street parking, including the management of the metered parking system and maintenance of over 800 pay-by-license-plate multispace parking meters, and over 3,400 single-space parking meters; administration of special parking programs such as residential permit parking and car sharing; enforcement of parking regulations; and management and development of off-street parking facilities.

Typical capital projects include improvements to garage structures, elevators, and lighting.

[Learn more on the PABC website »](#)

Project details

The recommended FY27-32 program for the Parking Authority of Baltimore City includes \$8.63M for ten projects. Six locations are included and three projects have a citywide scope.
