Grain and Feedstuffs Market Trend

Compared to two week's ago: Trade activity and demand good for organic feed grade corn, trading 26 cents higher, FOB. The bulk of activity on forward contracting. Trade activity and demand good on organic feed and food grade soybeans, with the bulk of activity on forward contracting. Organic feed grade soybeans too thinly tested for an accurate market trend, but higher undertones noted. No comparable trades from the prior period on organic food grade soybeans, but steady undertones noted. Trade activity too thin in feed grade soybean meal for a trend. Trade inactive on all other organic grains. The next available report will be Wednesday, March 10, 2021.

Current National Drought Summary (February 16, 2021)

Arctic air spilled into the Nation's midsection and persisted throughout the week, producing weekly departures of more than 25 deg F below normal from the northern Plains and upper Midwest southward into Texas. Numerous daily record lows were broken, with minimums plunging to -50 deg F in the northern Plains, and sub-zero readings southward into the Texas Panhandle. In contrast, high pressure over the Southwest and Southeast kept temperatures above-normal for the week. With several storm systems traversing along the boundary of the cold vs mild air, ample precipitation, much in the frozen form, fell on most of the West Coast, Intermountain West, Rockies, southern and central Plains, and much of the eastern third of the U.S. The combination of extreme cold and frozen precipitation across the South and Southeast taxed the power grid, made transportation hazardous, and brought down trees. The snows, however, were welcomed in the West as snow packs and basin snow water equivalents (SWE) increased throughout the West, although many basins were still below normal as of Feb. 16, especially in the southern Rockies. Frigid conditions also enveloped Alaska, with precipitation limited to western and southwestern sections. Shower activity continued across Puerto Rico, especially along the northern and eastern portions, but rain was lacking in the northwest. Across Hawaii, a weak cold front brought some showers early in the period, with trade wind conditions and windward showers later in the week.
