Grain and Feedstuffs Market Trend

Compare to two weeks ago: Trade activity and demand good on organic corn, trading 1.01 higher FOB. Forward contract activity good on feed grade corn. Trade activity and demand moderate for organic feed soybeans, trading 1.09 lower FOB. Soybean meal too limited to trend. Feed wheat demand and activity light. Trade inactive on all other organic grains. The next available report will be Wednesday, May 19, 2021.

Current National Drought Summary (April 27, 2021)

Several upper-level troughs and closed lows moved in the westerly jet stream flow across the contiguous U.S. (CONUS) during this U.S. Drought Monitor (USDM) week. They dragged surface fronts and low pressure systems along with them. The weather systems moved across the West then generally followed two storm tracks after crossing the Rockies – one track was along the Canadian border, while the other track was along the Gulf Coast states. As a result, above-normal precipitation fell across parts of the West, much of the Gulf Coast from eastern Texas and Oklahoma to Georgia, parts of the Mid-Mississippi Valley, and parts of the northern Great Lakes and Maine. Precipitation amounts were generally 0.5-2.0 inches in the West where precipitation fell, but exceeded 2 inches across a large part of the Gulf Coast states. The rest of the CONUS had below-normal precipitation for the week. A swath from New Mexico to Lower Michigan, and parts of the northern Plains and Far West, had little to no precipitation. With upper-level troughs and surface cold fronts dominating the circulation pattern, weekly temperatures averaged below normal across most of the CONUS. Drought or abnormal dryness contracted in parts of the southern Plains to Southeast, where heavy rains fell, and in parts of the northern Plains and Northeast, where overall conditions warranted improvement. But drought or abnormal dryness expanded or intensified across parts of the West, Midwest, other parts of the Plains, and the Carolinas, as well as much of Hawaii and Puerto Rico.
