Compared to last week, feeders 10.00 to 20.00 higher. The supply of feeders was moderate. Cooler weather made transporting livestock much less stressful and overall volume was pretty large for a late summer week. Some producers are marketing calves ahead of normal schedules due to the current record price levels while others are still holding as the upward trend has been consistent for some time now. More of the state appeared in the latest drought monitor with just over 60 percent of the state in some stage of drought now. At this point conditions aren't bad enough that they are requiring any widespread feeding, water concerns, or liquidation. Pasture conditions are still better than normal for this point in the year and cooler weather is an added bonus. Many, especially those in the southern half of the state, would gladly welcome a good rain at this point. Overall, it was another good week in the markets even if there some concerns along the way this week. Prices at the auctions seemed to get higher every day this week, with many new records set. Both the CME Feeder Cattle index and The MO Stocker Formula established new highs once again. Stick out sales this week included a pkg of 502 lb. steers are F&T Livestock Market which sold for 518.00. Tina Livestock Market sold a lot of 563 lb. steers for 472.00. The Missouri Stocker formula consists of 5202 head with a weighted average weight of 549.78 lbs. and a price value of 435.67, 11.33 higher than last week. The steer/heifer spread is 41.74 per cwt.
