Compared to last week (1-28-26): Feeder cattle were too lightly tested to develop any market trend, as today's sale featured weigh up cows. CME positions sold with strong triple digit gains today as traders continue to react to the bullish cattle inventory report which showed continued heard contraction. Market activity was active on limited offerings. Weigh up cows sold on mostly good demand and light offerings. Feeding cows sold mostly steady to 3.00 higher. Several packages of cows which had been started on feed sold today. Demand for these offerings was very good with several buyers and packers showing strong demand as they bid aggressively. Despite a smaller crowd of feeding buyers present demand was stronger than last week as tight supplies have buyers pushing to fill lots. Slaughter cows sold on good demand again this week as tight supplies have packers searching for cows to slaughter. Slaughter cows sold on mostly good demand this week. Slaughter cows sold mostly 3.00 higher on breaking cows in a narrow comparison. Boning and lean cow sold generally steady in a narrow comparison. Very few cows were purchased to slaughter again this week as feeding demand kept prices above breakeven for packers. Slaughter bulls sold mostly 2.00-3.00 higher in a narrow comparison. Demand for feeding bulls was very good this sale as feeding buyers pushed bulls mostly above where packers could buy them. Weigh up conditions were mostly average this week as many cows were sorted and worked through the chute over the past few days. Young age offerings were too lightly tested last week to develop an accurate market trend, however higher undertones were noticed. Many cows sold today were sort offs of yesterdays bred special. Many were blemished in some way or tested open. Quality was average to attractive for young age offerings this week. Supply included: 4% Feeder Cattle (73% Heifers, 27% Bulls); 44% Slaughter Cattle (88% Cows, 12% Bulls); 52% Replacement Cattle (88% Stock Cows, 12% Bred Cows). Feeder cattle supply over 600 lbs was 54%.
