

PRE-OP LIVER REDUCTION DIET

"The results I have seen with Bariatric Fusion have been outstanding!"

- Dr. Joseph A. Caruana, FACS Director of Bariatric Surgery at Sisters Hospital.

Ranked #1 in New York State and in the top 5% in the nation for bariatric surgery.

The following High Protein, low calorie diet is recommended to begin 2 weeks prior to your weight loss surgery. This program will promote weight loss and will reduce the liver size to make your procedure technically easier for your surgeon. Please inform your Bariatric Surgeon, Primary Care Physician or Dietitian before beginning this Liver Reduction Diet.

Daily Requirements:

4 Bariatric Fusion Shakes

Take one Bariatric Fusion Protein shake for Breakfast, Lunch, and Dinner. You may have an additional protein shake in the evening.
