ABOUT US

BATSAMAYI operates in the ICT Sector, and is a Level 1, 100% Black Owned business entity. The Company name derives from the Sotho word “batsamayi” which translates to: a group of very talented minds moving forward together. It was an appropriate choice for us, because our goal is to meet the future - halfway. We specialize in Quality Assurance, as well as Software, Automation and Cloud Engineering.

We produce and facilitate the development of solutions-based products that we are proud to be associated with. We align ourselves with clients and customers who share our passion for problem-solving and keep our dream alive - the dream of providing high quality, innovative solutions to Africa.

OUR VALUES

SUPERIOR QUALITY

We prize quality above all else, as it is one of the main services that we offer. We believe that everything is important, that no detail is too small to warrant attention, and we strive for perfection in everything we do.

LONG-TERM COMMITMENT

Our client relationships are long-standing, as we invest in both our clients and their projects, and believe in maintaining the highest levels of service and support even after a project is completed.

SOFTWARE FOR US, BY US

We believe in the projects and products that we take on, because we are passionate about providing effective software solutions suitable for our unique country and communities.

TEAM FOCUS

We are very Team-oriented and believe that we produce the best results when we work together. Our Team culture is very strong and we regard one another as family.

VISION & MISSION

VISION

To assist in creating an Africa that can keep pace with the rest of the world by developing software that truly meets all basic human needs, across all communities.

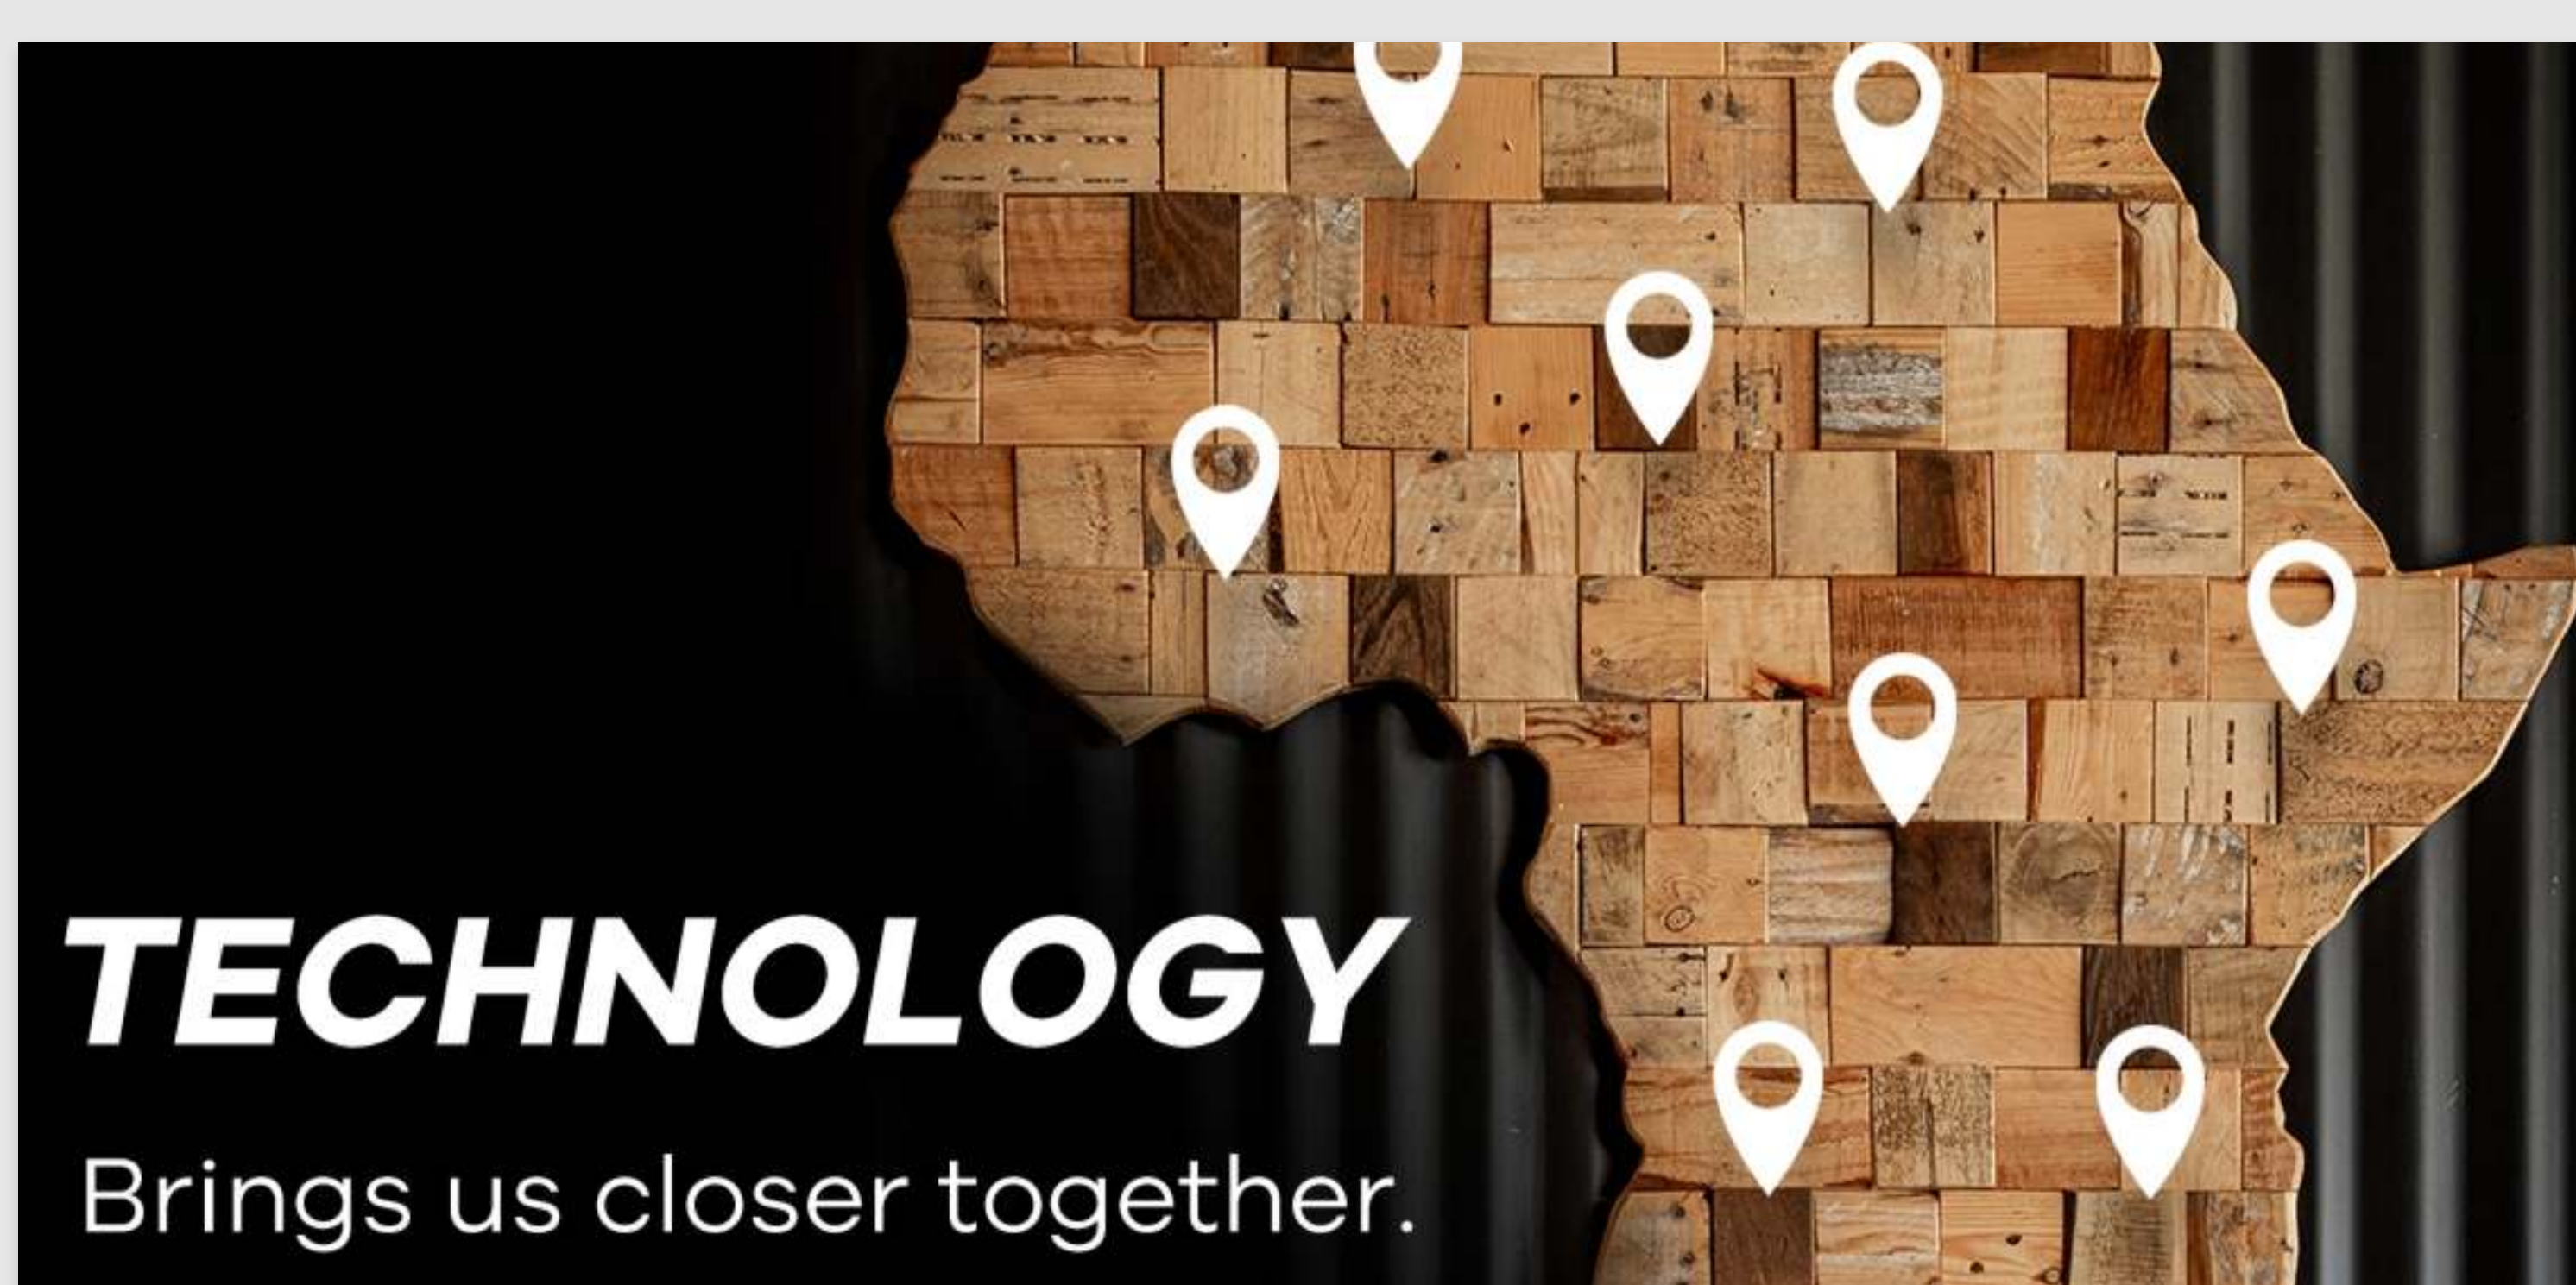

MISSION

We believe in developing unique, innovative solutions that will change the world. Specifically, software that will help to improve the lives of all South Africans, and migrate them from the bottom of the pyramid to its pinnacle.

Our Team is committed to developing the future through technology. Our goal is to implement the latest technology, such as blockchain and automation, to supply simple, effective solutions that provide benefits to all - including the elder generations and those living in rural communities.

Our mission is to add value to the lives of all African people, through the provision of solutions-based software that delivers tangible benefits. This will allow us to achieve our goal of helping Africa keep pace with the rest of the world.

CLIENTS & PARTNERS

CLIENTS

The majority of our clients are Corporate Entities operating in South Africa who wish to improve their digital offerings. Some of these companies already have existing systems in place, and ideas of where they would like to go, but aren't quite sure how to get there or whether their ideas are possible. Taking these factors into consideration, we are able to provide viable proposals.

We offer our clients bespoke, effective and functional software solutions to produce their desired results, using the highest possible standards of quality.

We also have international clients for whom we provide premium Automation Engineering and Software Quality Assurance services.

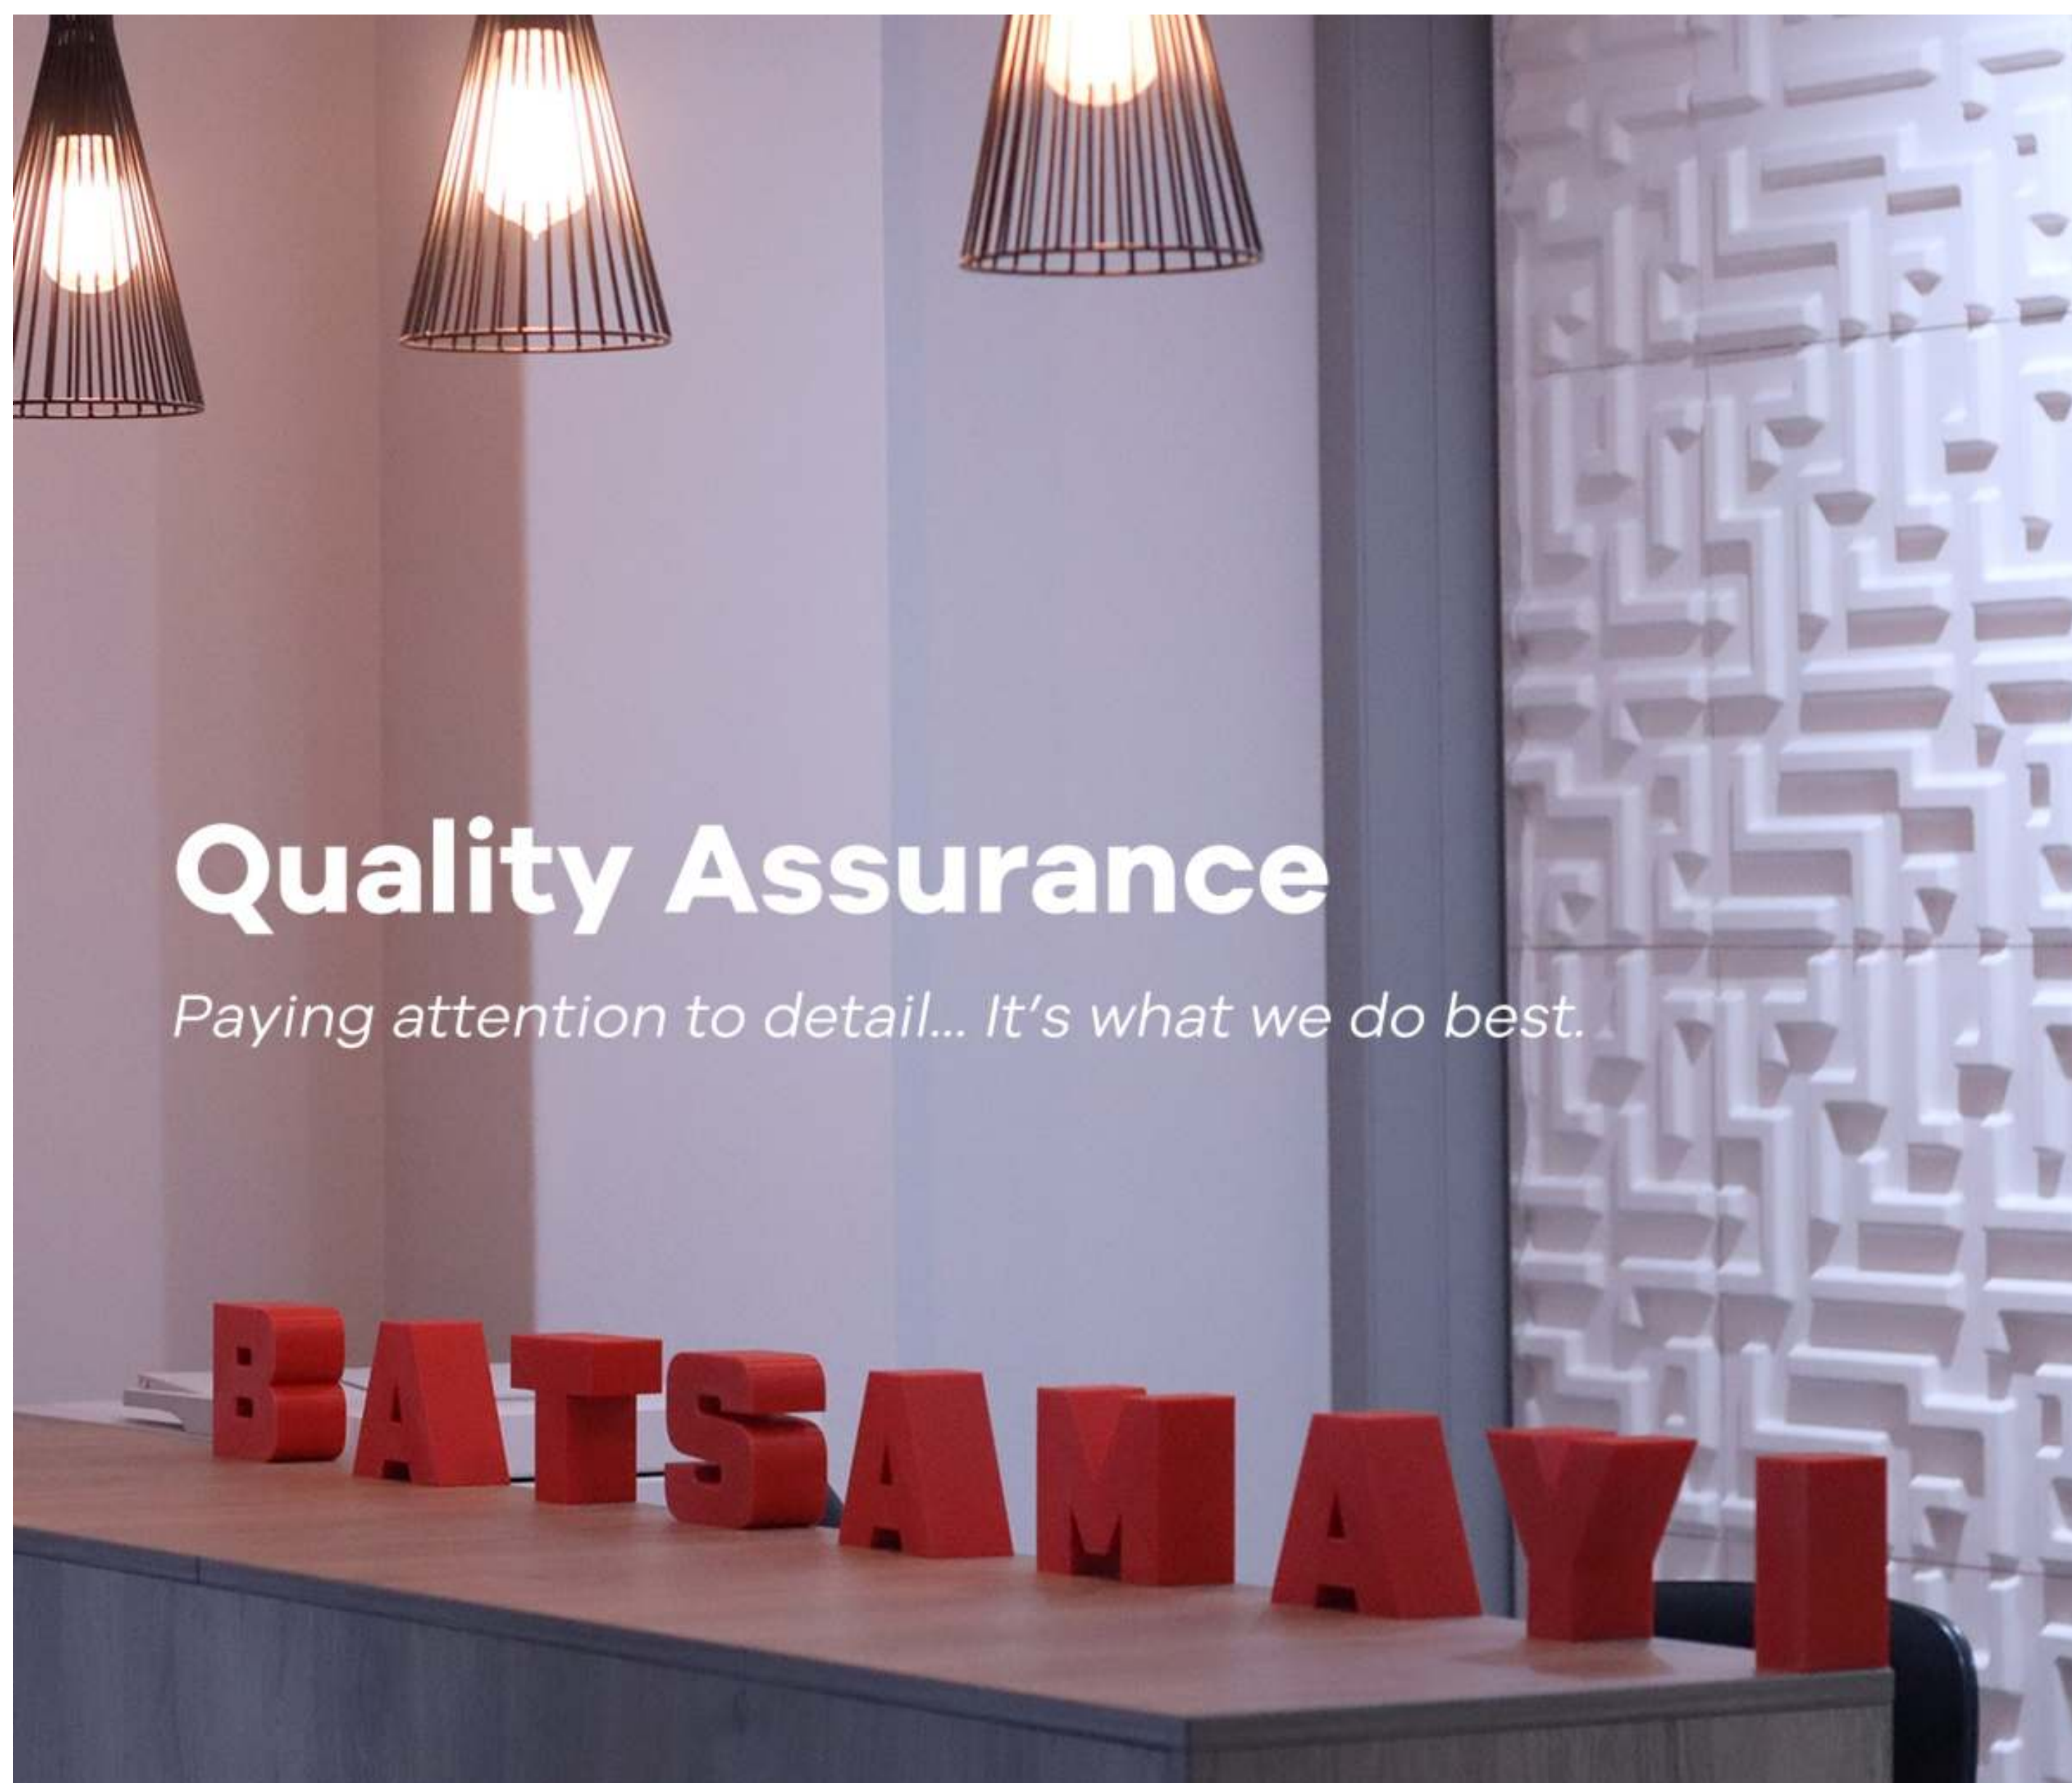

PARTNER

As an Advanced Tier Amazon Web Service Partner, we provide integrated cloud services which streamline costs, improve capability and reinforce reliability to support the provision of your software solutions. We also offer a complete software management solutions called BATSAMAYI Cloud, combining the best of both our areas of expertise - quality assurance and cloud services.

OUR SERVICES

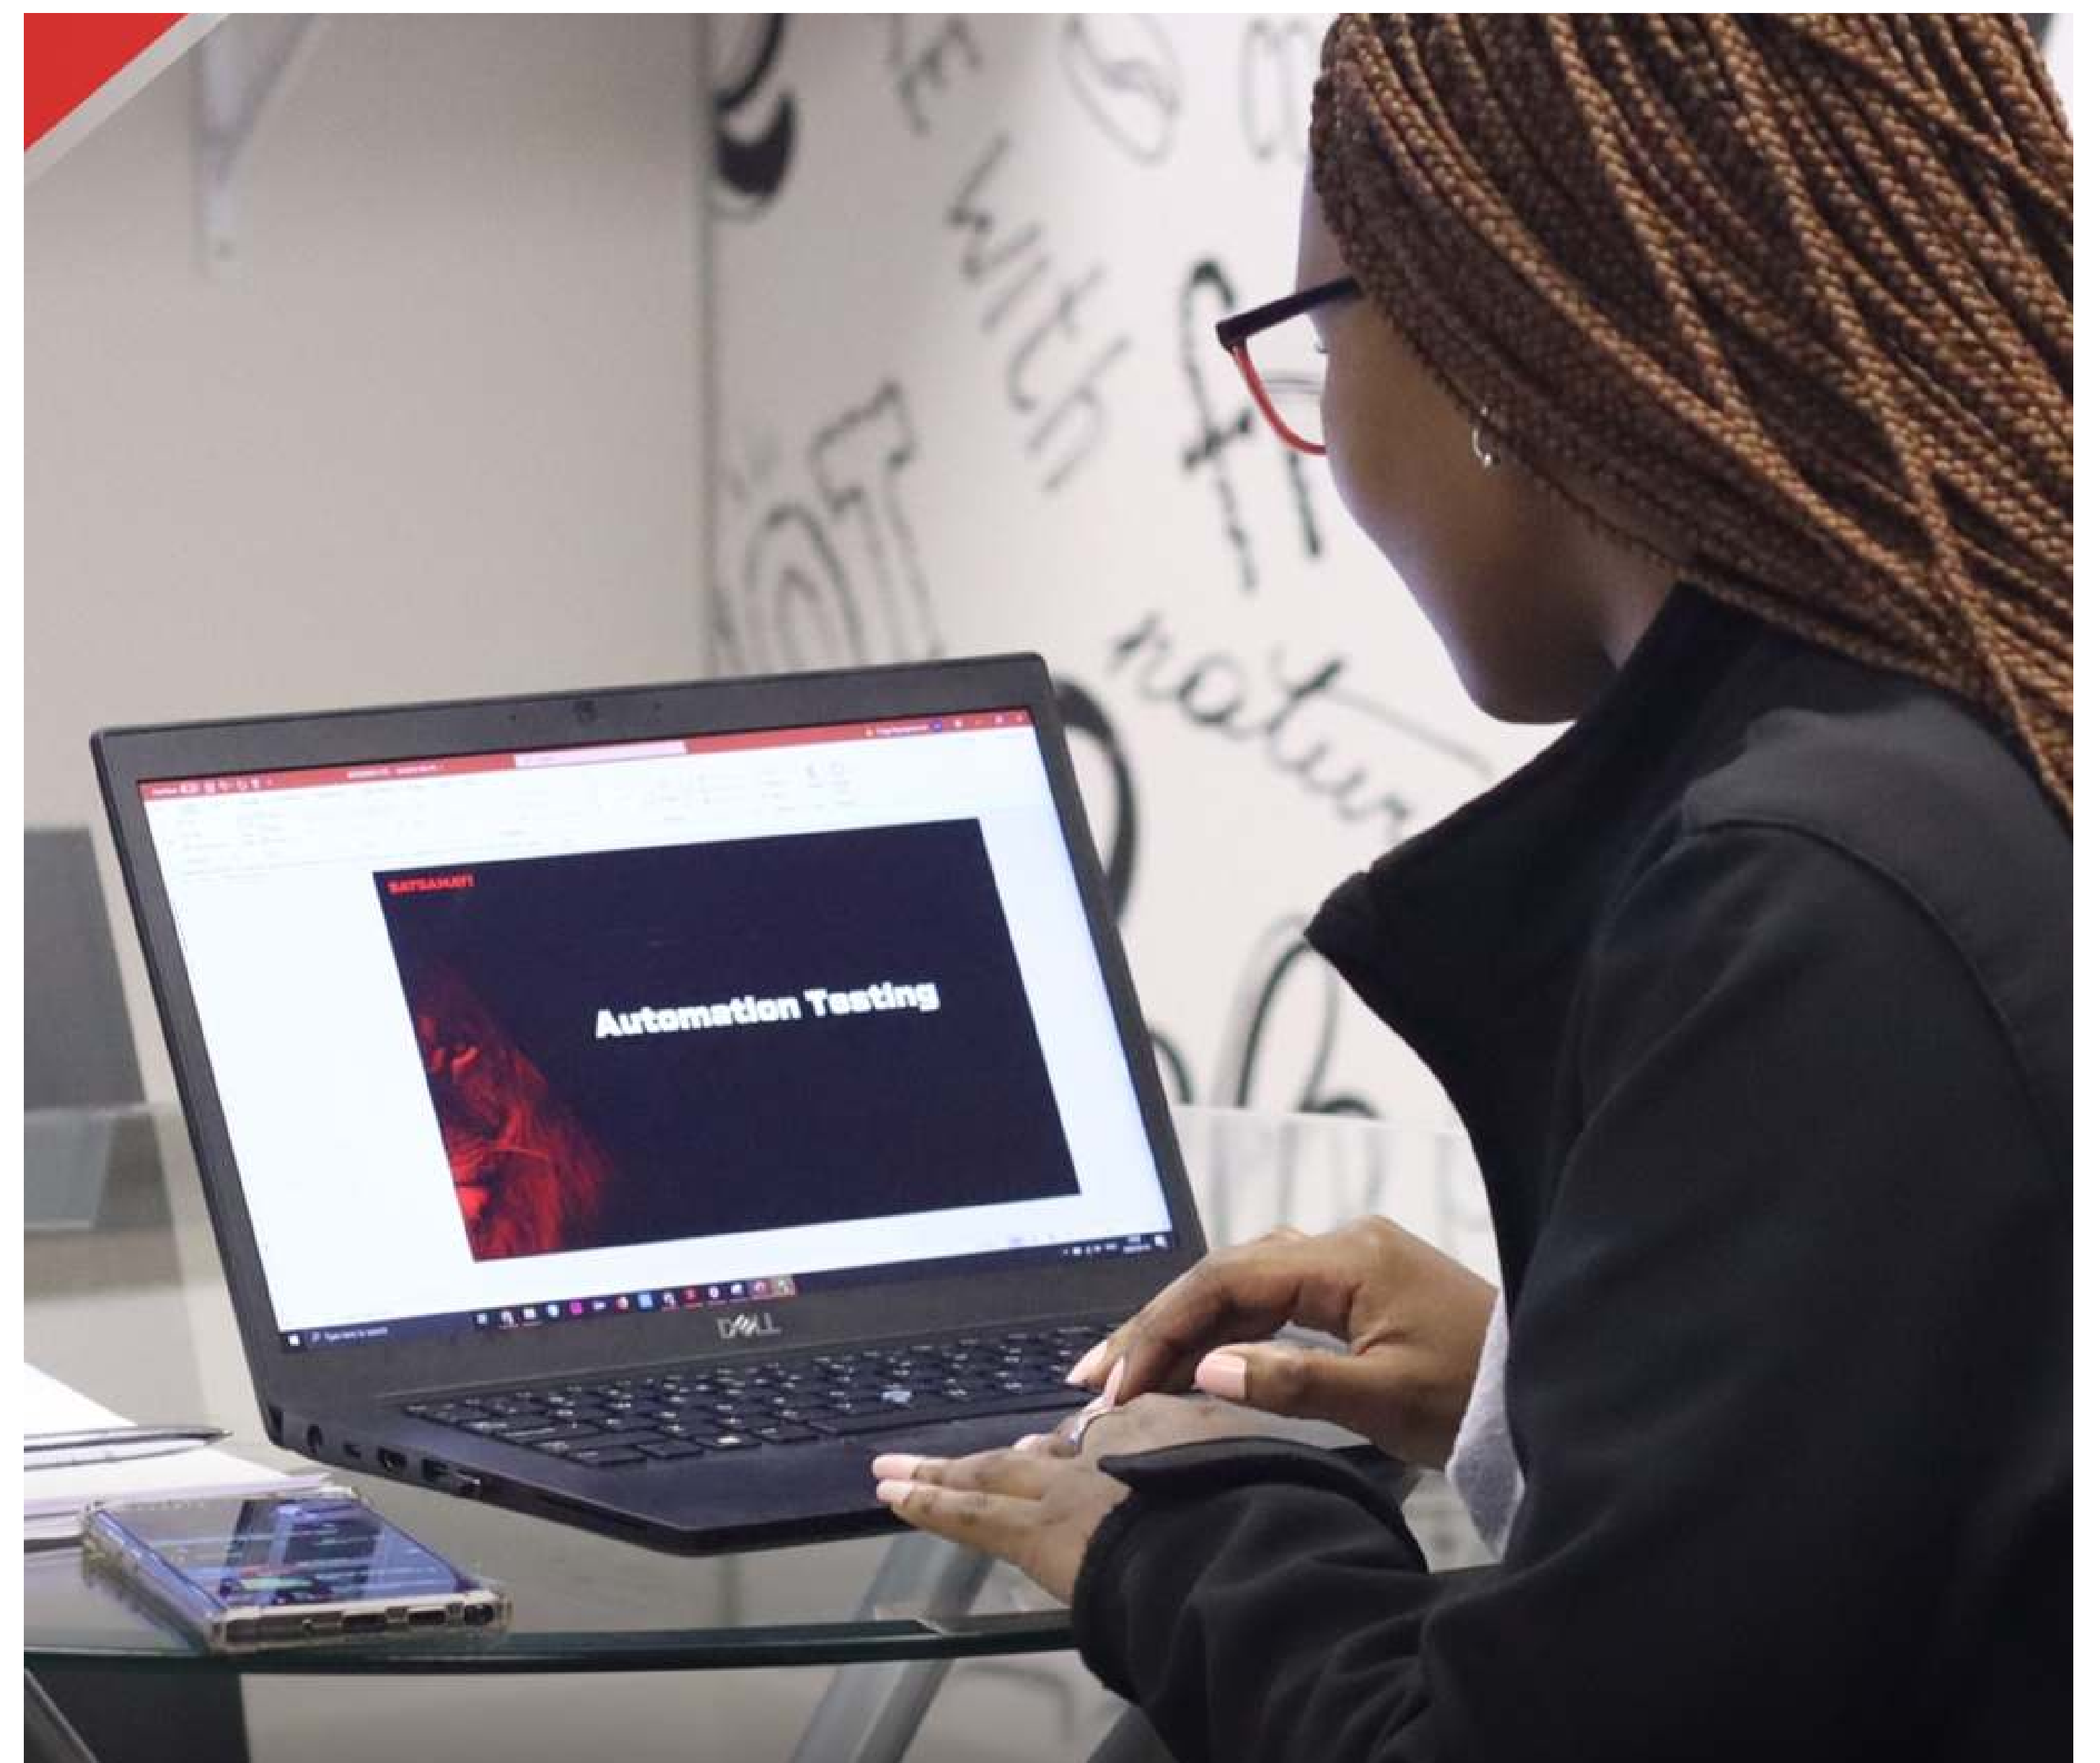

QUALITY ASSURANCE

Quality Assurance is ensuring the highest standards of software solutions through the application of both manual and automated testing. This testing involves monitoring and assuring quality, accuracy as well as efficiency in all software projects. We offer such assurance in each of our own projects, and we outsource this service to other Software Companies as well.

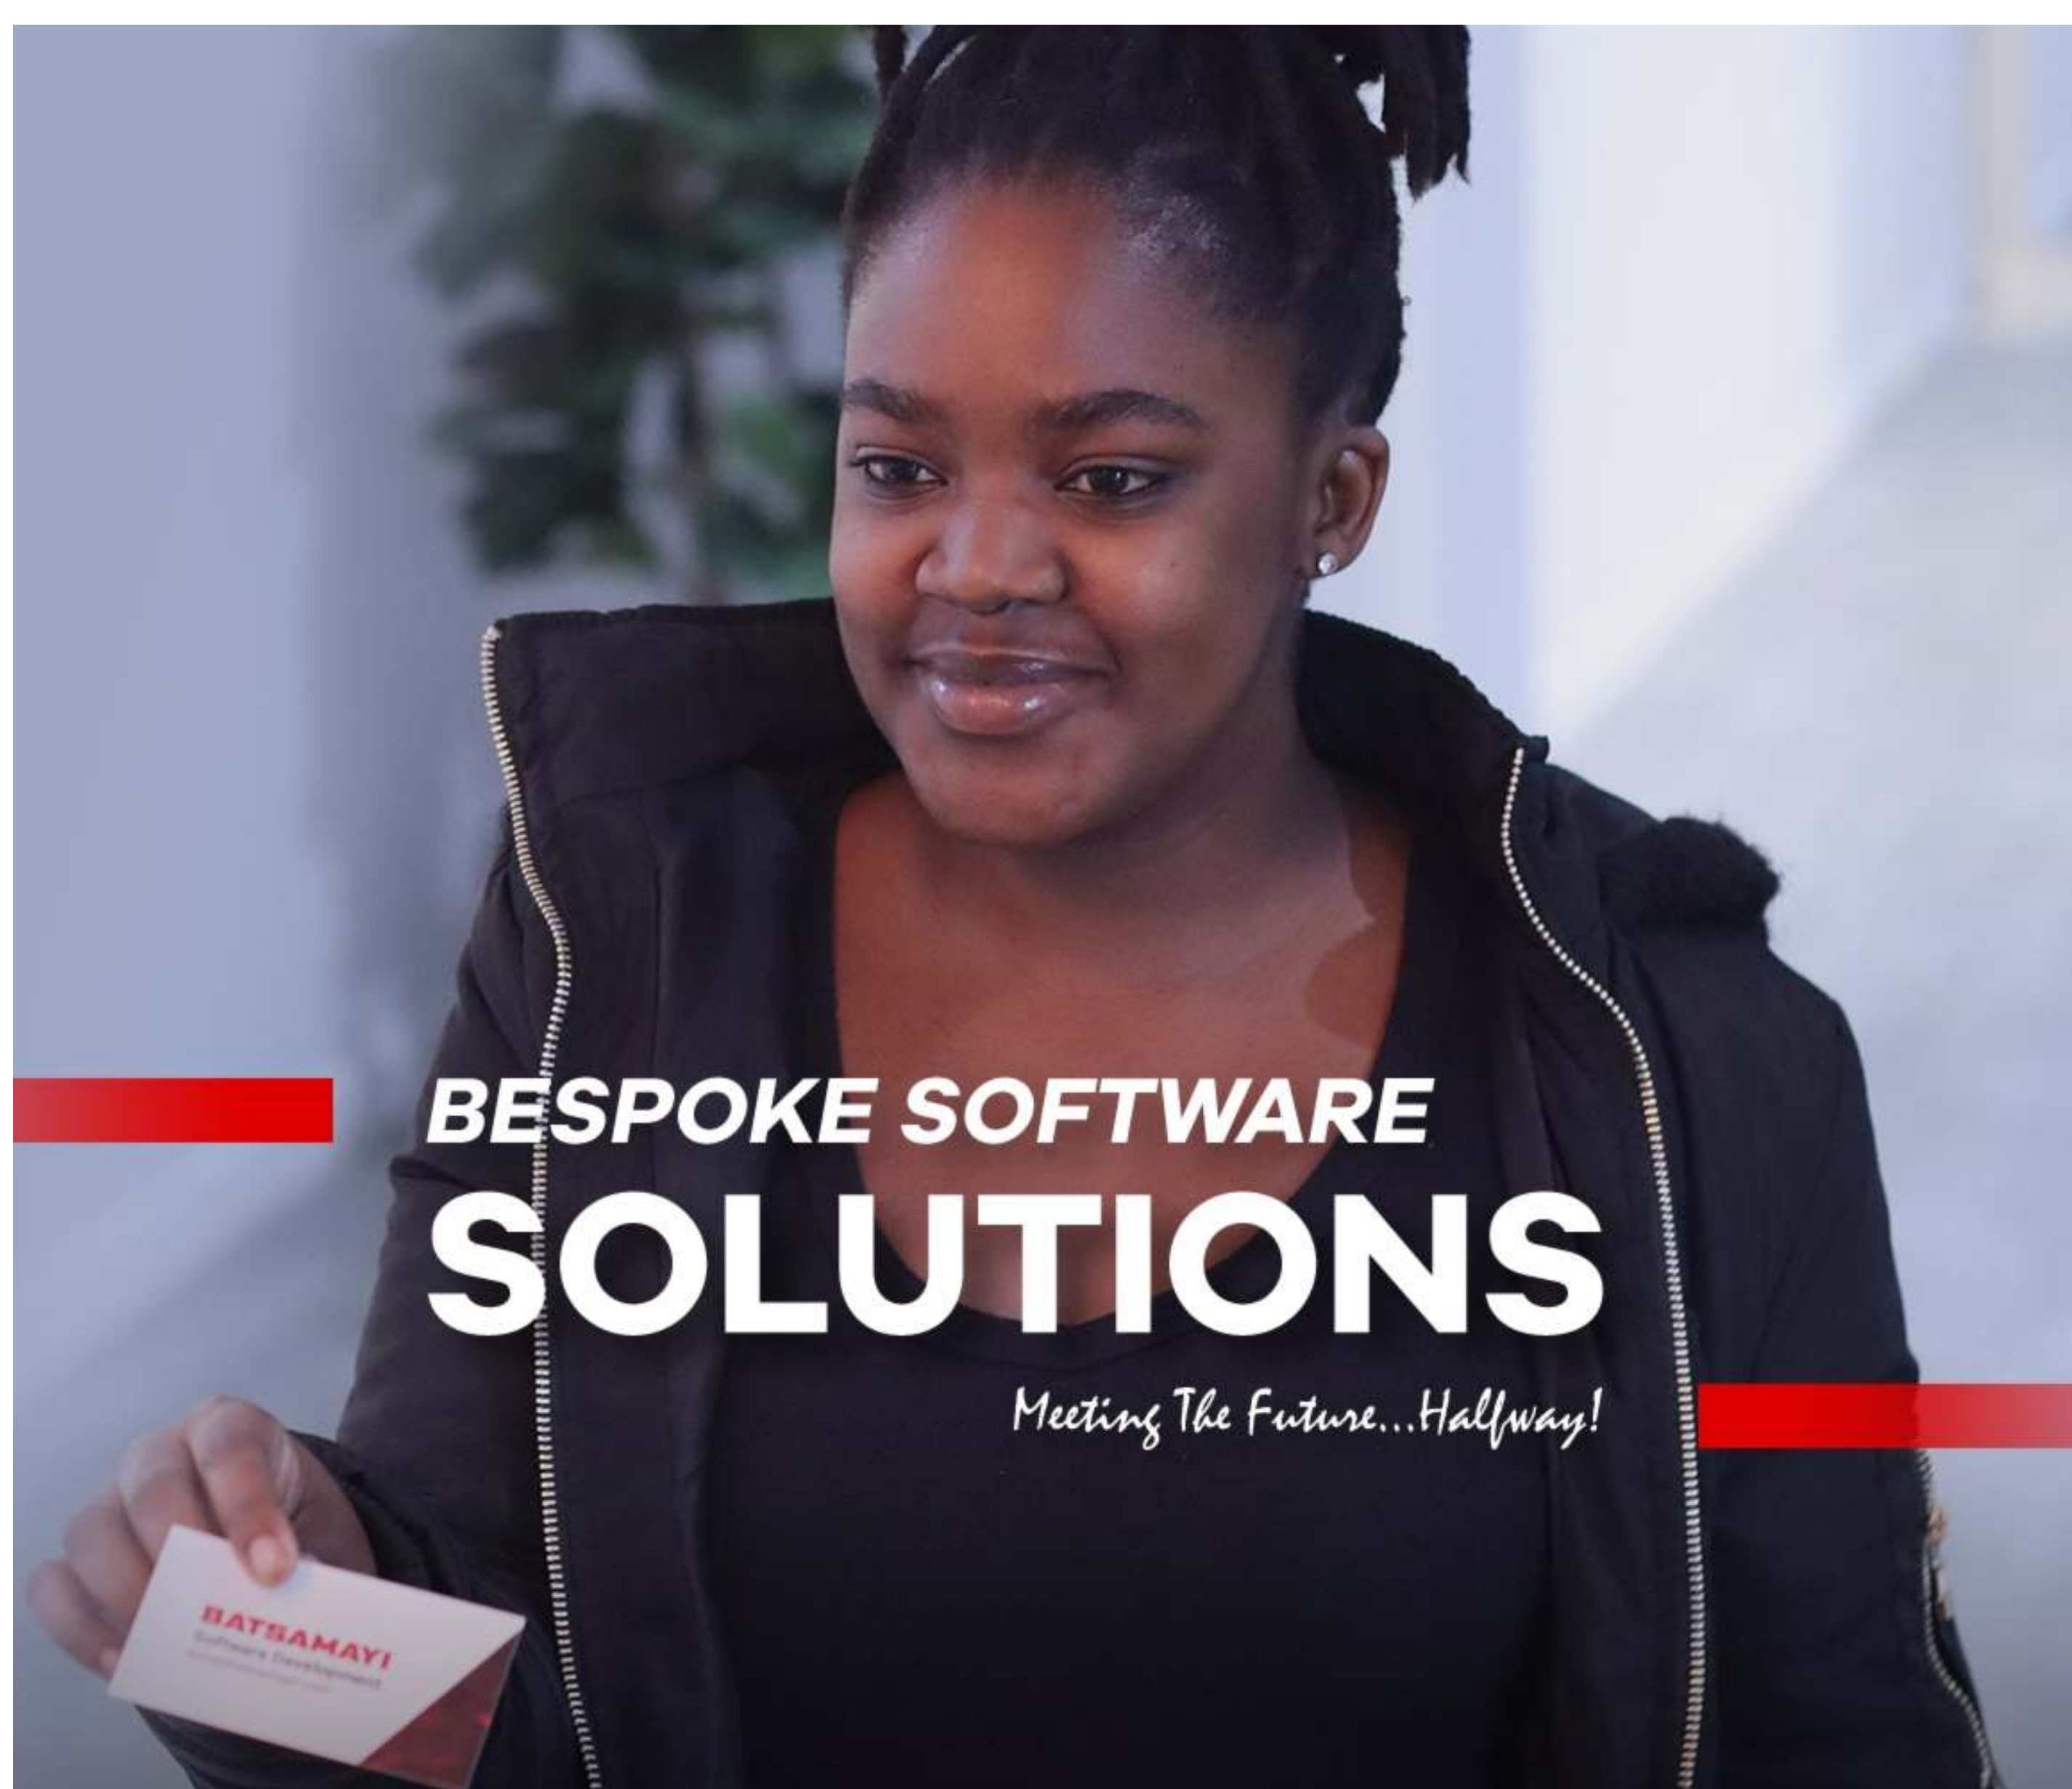

AUTOMATION ENGINEERING

We deliver fast, reliable and repetitive testing solutions that guarantee the highest possible standards. We believe that this is invaluable, since frequent product updates correlate with higher customer satisfaction. Allow our skilled Team of Automation Engineers to improve your offering and accelerate your time to market.

SOFTWARE ENGINEERING

Our seamless development processes allow us to design and produce software faster, better and more cost-efficiently. Our strong Team collaboration and communication with our clients enables us to enhance code quality and the stability of our products. Our talented engineers will ensure that the software we create matches your business brand and identity. We also guarantee that our digital products will meet your highest expectations, because we strive to deliver quality solutions that offer real, tangible value.

OUR SERVICES
