**On trying to stop Oklahoma's offense:**
“That was an unbelievable job by them. CeeDee (Lamb) and Marquise (Brown) had big plays, the tight end (Grant Calcaterra) had a big play down the middle and at one point they had only 37 rushing yards, but over 200 passing yards. They just made big plays down the field. I thought their (defensive backs) at times made plays on the ball, and we didn’t really have any of those plays today. We had a football on the ground that they picked back up and threw, we had a dropped interception and we turned the ball over. But you don't complain about it, you just keep coming and coming. That's what we'll try to do. I probably didn’t put the defense in a great position in the end, but I take responsibility for that.”

**On what he took away from today’s game:**
“I don’t care what the final score is, as I told our players. I wanted our players to go fight until the very, very end. We’re not going to be a great team until we eliminate the big plays. Some of those we had them tackled in the backfield, but they’d bounce off people for a touchdown. We all have to look at ourselves. It’s easy to say this and that, but let’s look at ourselves and see what we can do better, because we've got a game next week. Our kids were excited to play today – they were fired up. So, we just have to get a little bit better.”

**On what the gameplan was offensively, specifically if it was to target Denzel Mims:**
“They were playing man-to-man, and we threw the ball 60-something times and scrambled another 10 times so we had about 70 throws. It’s not really, ‘hey, throw it to this guy,’ it’s whatever the coverage dictates, that’s who you have to get the ball to. If Charlie (Brewer) could have settled his feet and made a couple throws… it’s hard for me to see. I’ll watch the game on the plane on the iPad and try to see what’s there, but we’ll just keep moving forward and getting better.”
JUNIOR WIDE RECEIVER DENZEL MIMS
On two straight big games for him against Oklahoma:
“I prepare real well. That allowed me to go into the game and do what I was supposed to do.”

On seeing quarterback Charlie Brewer’s toughness today:
“It makes me angry seeing him get hit like that, so I try to go harder the next play.”

On what he and his team need to improve on:
“For one, we’ve just got to know our assignments. We’ve got to play harder and eliminate the drops – myself included – and have more energy. If we do that, we should be rolling.”

SENIOR DEFENSIVE END GREG ROBERTS
On how tough they played:
“I can’t speak for anyone else on the team, but I feel like we had a chance in the third quarter, but couldn’t get enough stops on defense when our offense started to get rolling. That bit us in the butt and I think just got out of hand toward the end there, I don’t think it indicates who we are.”

On how tough it is to defend Kyler Murray:
“He’s a good player, he’s real shifty and can make something out of nothing like what you’ve seen. As far as defending him, it was similar to playing any other mobile quarterback.”

On how frustrating it was trying to stop Oklahoma’s offense:
“It was frustrating. It’s kind of been our emphasis all year is to stop explosive plays. We didn’t really feel like they could nickel and dime us down the field, they were scoring off those explosive plays. If we could’ve eliminated those, we would’ve been in better shape.”

JUNIOR QUARTERBACK CHARLIE BREWER
On how he feels after today’s game after taking some big hits:
“That’s part of the game, it’s a physical game. I’m more disappointed in how I think we left a lot out there.”

On what he took out of the game:
“Early, we had a few penalties that held us back and it took us awhile until the second half to get in a groove offensively. Against an explosive offense like Oklahoma, you can’t do that.”

On his team’s effort toward the end of the game:
“I think we need to just learn that when things get going tough, that tough people show up in those situations. It’s a physical sport, so we just need to be tough for four quarters.”

On head coach Matt Rhule vouching for him after the game:
“I appreciate that from him. He knows how I feel about him – I’m with him until the end. So I definitely appreciate that.”
