Dear Joe:

It has certainly been a privilege working with you to further develop the Boog's BBQ concept. Your tremendous knowledge and expertise, coupled with a great personality and outstanding work ethic, have made this a most comfortable and rewarding professional relationship. I worked with many consultants during my previous tenure at The Aramark Corporation; I can truly say that you're the best at taking a simple idea and turning it into a full blown operational concept.

Your professional qualities are impeccable; I also admire your incredible personal approach. The concern and guidance you've given me about the impact a growing business can have on a young and growing family is much appreciated. I am looking forward to our continuing relationship!

I highly recommend that anyone looking for "the total package" consult with you and the Restaurant Consultants Inc. team.

Best Wishes for your continued success.

Sincerely,

John W. (J.W.) Powell Jr.
Vice President/General Manager
