

# US Equity Returns Following Past Downturns

Sudden market downturns can be unsettling. Sticking with your plan helps put you in the best position to capture a recovery.

A broad market index tracking data since 1926 in the US shows that stocks have generally delivered strong returns over one-year, three-year, and five-year periods following steep declines.

## Fama/French Total US Market Research Index Returns

July 1926-December 2019
