

Family Ministry - Health and Cleaning Protocols (6.22.20)

We have put together this summary document to show the standards that we will maintain for any of our events or meetings. These protocols conform to the currently published standards and guidelines from the state of California and the Alameda County Public Health Department. Each specific event will also have more detailed protocols for health and cleaning in their environment depending on specific circumstances.

- **Group Size** – Dependent on the type of activity and the location (outdoors or inside). We will utilize a combination of these different activities and group types:
 - **Religious services** - The county as of 6/19 will now permit religious services. They recommend keeping groups to no more than 25 but will permit up to 100 participants. This will be used for our **Kids Konnection days**.
 - **“Social bubble”** - defined as a stable group of not more than 12 individuals, who may attend outdoor social or other events together. A Social Bubble may be a combination of households, but no household or individual may participate in more than one Social Bubble. Social bubbles are to stick together for at least three weeks. These will be suggested for our **FOCUS: Virtual Experience**.
 - **Youth ExtraCurricular Activity** - Each youth can be a part of one YEC where there should be 10 students and 2 leaders in a stable group for 3 weeks. Our **MS and HS small group** gatherings will follow these guidelines.
- **Location** – Gatherings are recommended to be outdoors for now but indoor meetings are permitted at no more than 25% capacity of the room. We'll endeavour to hold as many and as much of our meetings / events outside as is feasible.
- **Cleaning** – We will clean and disinfect surfaces and objects that are frequently touched both before and after the group / event (Door handles, chairs, restroom, etc.).
- **Hand Sanitization** - We will provide hand sanitizer at all events / meetings.
- **Face Covering** – All participants must wear face covering, especially when arriving and socializing. Face coverings may be removed when only members of the social bubble are present and a social distance of six feet is in place.
- **Low-Touch Experience** – As much as we miss hugging and high fives, for now we'll keep things as a low-touch experience. In all of our games and activities, we will minimize or eliminate objects that multiple participants share.
- **Food** – We will not provide food from a common serving. We will encourage participants to bring their own beverage and snack if they choose or provide single serve pre-packaged items handed out by host wearing gloves.
- **Illness** – participants should stay home if they or anyone in their household is sick. We will perform a short health check, including a touchless temperature check, as

participants and volunteers enter our environments. We will ask participants over 2 years old to wear a mask when inside or when unable to socially distance themselves outside.
