Addendum for School Roof 10/15/26

Would it be possible to confirm whether there is a Form 1 that needs to be included in the qualifications/proposal response to the Roof Replacement and Parapet Repair/Replacement Project for the Bolton Center School RFQ/P?

After reviewing the bid documents a Form 1 was not specifically required as part of the submission response. Bidders should ensure that all forms required by the bid documents are submitted. In the event that a Form 1 is applicable to the proposed services, including it at the time of submission may be prudent but it is not currently identified as a requirement.
