STANDARD WRITTEN NOTIFICATION

BARRIER AND ULV ADULTICIDE APPLICATION TO CONTROL MOSQUITOES

The Northeast Massachusetts Mosquito Control and Wetlands Management District is conducting an application to control adult mosquitoes on August 17, 2026, in the evening between the hours of 8:15pm and 12am. In case of inclement weather, the backup date of application would be August 18, 2026. The areas to be treated are the Revere High School, West Revere School (Susan B Anthony Middle/Whelan), Beachmont School, Rumney Marsh School, Garfield Elementary School, Paul Revere School, Consiglia Della Russo Park, Hill School, Lincoln School, Ambrose & Erricola Park, Ciarlone Tot Lot, DiSalvo Park, Curtis Park, Fredrick's Park, St. Mary's Griswold Park.

The materials to be applied:

Suspend Polyzone (EPA Reg# 432-1514). Active Ingredient: Deltamethrin 4.75%. Suspend Polyzone is a long-lasting, up to 90 days, and effective residual barrier formulation that controls adult mosquitoes, even in warmer and wet environments. The Safety Data Sheet and product label can be viewed at <https://www.nemassmosquito.org/public-education/pages/adulticide>

Zenivex E4-RTU (EPA Reg# 2724-807). Active Ingredient: Etofenprox (CAS #80844-07-1) 4%. Zenivex E4 RTU mosquito adulticide is a high efficacy, reduced risk adulticide that provides quick, permanent knockdown and reliable control of adult mosquito populations in any mosquito habitat flying at the time of application. This product contains no synergist, therefore no Piperonyl Butoxide (PBO). The Safety Data Sheet and product label can be viewed at <https://www.nemassmosquito.org/public-education/pages/adulticide>

OR

Duet Dual Action Adulticide (EPA REG. NO.: 1021-1795-8329). Active Ingredients: (Prallethrin: (RS)-2-methyl-4-oxo-3-(2-propynyl) cyclopent2-enyl-(1RS)-cis, trans-chrysanthamate) 1%. Duet is a high efficacy, reduced-risk mosquito adulticide that provides a quick, permanent knockdown and provides reliable control of adult mosquito populations in any mosquito habitat flying at the time of application. This product is an oil soluble synergized synthetic pyrethroid for effective control of adult mosquitoes. The Safety Data Sheet and product label can be viewed at <https://www.nemassmosquito.org/public-education/pages/adulticide>

The vehicle is a mid-sized white pickup truck, marked with the NEMMC seal and will be driving slowly through the above designated areas with yellow lights activated. Residents and pets should remain indoors while the vehicle is operating in these designated areas. Air conditioners may remain ON. Please close doors and windows on the street side; they can be reopened within half an hour after the truck passes. Recommendations are specific to truck based ULV applications.

For further information contact the Northeast Massachusetts Mosquito Control and Wetlands Management District at 978-352-2800 or nemmc@mass.gov.
