GENERAL SCALING NOTES AND ALLOWABLE DEFECTS

- All sawlogs must have 4"-6" of trim. Poplar and Basswood not accepted as Hardwood Pallet logs.
- All logs scaled using the International 1/4" scale rule.
- All sawlogs and pallet logs scaled on even 2-foot increments from 8 thru 16 feet.
- Rejected 9' veneer logs will be scaled as 9' sawlogs.
- Logs not meeting specifications must be removed within two weeks or they will be disposed of.
- All logs cut during the summer months must be trucked within two weeks, no stain accepted.
- Straight seams are allowed with discount in sawlogs.
- No chocolate heart, stain, ring or windshake accepted.
- Sheared trees must be trimmed to solid wood to eliminate shatter.
- Burls, knots, dote, catfaces, seams, splits, swells, excessive crook and sweep, surface checking, and end checking are all considered defects and will be scaled as they affect the value of the log. Defects up to 3" diameter are considered as one defect; defects larger than 3" are considered as two or more defects.
- Pay week ends on Wednesday and/or Friday, and payments will be made weekly or biweekly depending on the yard.
- Please be sure we have your name, current address and either a federal identification number or a social security number.
- Please contact your log buyer for the current log prices delivered to the yard or a specific mill or if you have any questions.
