Model Number Identification

On some BCS two wheel tractors, the decal that identifies the model number can wear off. This can make it difficult to determine the exact model number of the tractor when ordering replacement parts. The following lists of features are designed to help with identifying your model number.

200 Series Tractors

Model Number	Engine Horsepower	Forward Speeds	Levers on Left Handlebar	Levers on Right Handlebar
201	5	1	PTO	Forward
203	5	1	Forward - PTO	None
204	5	2	Reverse - PTO	Forward 1st & 2nd
205	5 & 6	2	Forward 1st & 2nd - PTO	Reverse

600 & 800 Series Tractors

Model Number	Engine Horsepower	Forward Speeds	Levers on Left Handlebar	Levers on Right Handlebar†	Quick Reverse	Shift Type
602*	6, 8, 10	3	Clutch	None	No	Straight
604*	10	5	Clutch	2 Brakes	No	Straight
605	8 & 12	4	Clutch	2 Brakes, Reverse	Yes	Straight
605†	8 & 12.5	4	Clutch	2 Brakes	Yes	Straight
620*	9	4	Clutch	Reverse	Yes	Straight
830†	8, 8.5, 9	4	Clutch	2 Brakes	Yes	Pattern
850†	12, 12.5, 14	4	Clutch	2 Brakes	Yes	Pattern
852**	13	4	Clutch / RH Brake	Swing / RH Brake	Yes	Pattern
852**	13	4	Clutch	2 Brakes	Yes	Pattern
853**	13	4	Clutch / RH Brake	Swing / RH Brake	Yes	Pattern
853**	13	4	Clutch	2 Brakes	Yes	Pattern

* Takes front mount attachments only.

** Units have the model number stamped below the serial number on the transmission of the tractor.

† Units are equipped with PowerSafe clutch.

‡ "Levers on Right Handlebar" refers to the levers located directly under the handlebar grip that can be engaged by your right hand without taking your hand off of the handlebar grip. Models 605, 830, 850, 716, 720 and 730 have a red reverse lever located down from the handle grip that you rotate towards you. The "Quick Reverse" column is referring to this red reverse lever.

Service Bulletin 1-6: Model Number Identification
