

Web Development Assured Internship

1. Click on the link to view the rules of the Internship: <https://beacon.by/bolt-iot/assuredinternshiprules>
2. Choose any one problem statement for a one-month internship and any two problem statements for a two-month internship from the given list below.
3. If you face any issues, have any queries, or experience delays in receiving your certificate, please reach out via email to support@boltiot.com.

Problem Statement 1

Create a one-page user interface for the Inventrom website (www.inventrom.com) using HTML, CSS, and JavaScript. The appearance, functionality, and redirections should closely resemble the existing Inventrom website. In the bottom section, you will have a HubSpot form on the left-hand side, and on the right-hand side, you will include site locations and contact details. To know how to add the form to the page refer to the instructions given in this link <https://beacon.by/bolt-iot/assured-internship-web-development-training-a>.

Here is what you need to submit:

1. Software code of your project
2. Video where you explain the working project
3. A presentation (PPT) on your solution.

Problem Statement 2

In this task you have to design a sliding Gallery that will show the image thumbnail on the top and when you click on the thumbnail, it will show the image just below the thumbnail. You can refer to this link to get information about how it should look - <https://tympanus.net/Tutorials/ResponsiveImageGallery/>. You are free to use your own custom colors and designs.

Here is what you need to submit:

1. Software code of your project
2. Video where you explain the working project
3. A presentation (PPT) on your solution.

Problem Statement 3

Join us as a speaker for the Community Events and get a certificate + Bolt swag.

Visit: <https://info.boltiot.com/community-lead-live-online-session-speaker-registration>. We will coordinate with you for the event once you submit the form. If you have selected this option and if we do not get back to you within 3-4 days of time. Do write an email to us at support@boltiot.com with the subject line 'Web Development Training - Registered for Community Event as a Speaker ' and we shall get back to you at the earliest to set up the event for you.

Problem Statement 4

Want to build a project based on your own idea? Come up with a proper problem statement, and build a project around it utilizing the learnings from the Web Development Training

Here is what you need to submit:

1. Software code of your project
2. Video where you explain the working project
3. A presentation (PPT) on your solution.
