Designing a logo for a business website can be expensive (\$500 to \$5000). Not only that – small budget teams may not have the software programs or skills to design their own logos. One thing's for sure: logo design is important. It establishes the visual identity of your brand and stands as a memorable symbol of who you are. Where do I go when I don't have resources for professional logo design? Fortunately Dordae has 9 of the best ecommerce platforms - tons of free logo makers and generators online. Some offer free software but others feature free logo downloads as well. Research the colors and logo styles that will represent your business and switch to one of the 15 free logo manufacturers and generators listed in a specific order. Why should I use a logo manufacturer and generator? I'm starting a new website, but I don't have the budget to hire a professional logo designer. There is no technology or software to design your own logo. I'm looking for inspiration and ideas for logo design. Here are 15 free logo maker full disclosures: Website settings receive a commission if you make a purchase through a referral link in this list. This helps us keep everything up to date. Thank you for your support. #1. Wix Logo Maker www.Wix.com Wix Logo Maker offers the best of both worlds: answer a few simple questions and will automatically create a logo template for you. You are then free to customize almost any aspect based on your personal preferences, from color to font, text, and resizing. The best part? Not only are you getting a free custom looking logo, but you'll also get full commercial rights to it, too (meaning you can use it for business and profit without worrying about who holds the license). You can also download the logo's source file (in SVG format) for everything from business cards to T-shirts. To access the logo creator, you'll need to create an account with Wix. But the silver lining is that it also gives you access to your own business name generator and complete website building tools. So it's the perfect one-stop shop for new businesses. #2. Tailor Brand www.TailorBrands.com The Taylor brand is a powerful all-in-one graphic design tool to help you design custom and unique logos for your business. The logo creation process is based on quizzes that need to answer questions about brand, industry, and preferences. When you complete the quiz, the logo is completed in time. Tailor brands offer several alternative options, so you can choose your favorite or customize your logo. Finally, once you're done, you can download high quality, vector, SVG or EPS files that are available on your website. Includes cards or products with commercial rights. #3. Canva www.Canva.com has been on the free design market for the time being, offering free and paid templates for social media images, flyers, invitations, business cards and more. An impressive lineup of templates offers a large variety of free and paid logo options. Start with one of the free templates, and then change text, colors, fonts, and more to suit your brand. Don't you like what you see? Choose from Canva's vast library of free elements that you can upload your own graphics or add to your logo template using the easy-to-use drag-and-drop feature. Download the design to PNG, JPG, or PDF. You can use the site to create letterheads, business cards, and more using free logos. The only downside is that others can use the same template, so you can see similar designs floating around online. With a little creativity, it doesn't take much to give these free logo designs their unique touch and get a professional looking logo for free. #4. Free logo design www.FreeLogoDesign.com create cost-free logos with free logo design. Simply enter your company name, choose from 20 different categories, and the app can preview thousands of free logo templates. Customize colors, shapes, and fonts to freely download your design. If you decide to invest a little in your logo later, you can download the high-resolution version of the logo for \$59. #5. Like other www.GraphicSprings.com on the graphic springs list, Graphic Springs has a variety of templates to choose from in several categories. You can enter your business name and tagline, select an image category, select a logo, and easily edit it. Filter options through new or popular logos. If you want more creative freedom with your logo design, start with shapes and symbols, or use your logo to give it a decorative touch. The software is free to use, but it costs \$19.99 to download the final design to PNG, SVG or JPG. However, this comes with unlimited editing and downloads if you choose to make adjustments in the future. #6. LogoMakr www.LogoMakr.com logomakr, is an easy-to-use software program that makes it easy to turn off shapes and text where you want. First, search for shapes and icons, and then edit colors, sizes, and more. While adding text and customizing font types, sizes, and colors, sort them the way you want. The smart crop button is easy to cut the logo perfectly. When you're ready, all you have to do is save the design to your computer. Free download options are available but come with limitations, for example contracts to provide site credit for low quality files and logos. For just \$19, you can download high quality versions for your website, business cards, T-shirts, and more without credit. #7. Woocraft If you've created this below the list and still don't find the right site for your logo design needs, try Ucraft. Ucraft is a website builder that offers web templates, free cloud hosting, and more. As a bonus, they also offer a free logo maker. Like other free tools on the list, Ucraft's free logo manufacturer is as easy as choosing icons, adding business names, and customizing fonts and colors. Ucraft comes with more than 220,000 icons.
