However, due to the dynamics of those who directed it, it never aged, as it was the protagonist of many changes and decisions in favor of excellence in the formation of its members and in the dissemination of knowledge, so that we could all be differentiated and positively referred to as professionals who perform best practices in orthopaedics and traumatology. Today, on the day of the Orthopedist, I would like to congratulate everyone and thank all the support we have received from the board 2019 and that we can participate more and more actively in the well-being of our society. May we always have the same warmth and brilliance in the eyes that we witnessed 2 days ago in Brasilia with the pride of belonging to this wonderful society. Together we will always be stronger and with great joy we can beat the chest and scream: SBOT, VALE SER Moisés Cohen President SBOT SBOT Brazilian Association of Orthopaedics and Traumatology Tykkääätykätty427 Alameda Lorena, 01424-000 São Paulo, Brasilia530 ihmistä at merkinnyt tämän paikkaan · · Voittoa tavoittelematon järjestöNyt suljettu · 8.00–18.00Nyt suljettu · 8.00–18.00MaanantaiTiistaiKeskiviikkoTorstaiPerjantaiLaululausaiSunntai8.00–18.18.1 0008.00–18.008.00-18.008.00-18.008.00-18.00SULJETULJETTUNäytä kaikkiSivun läpinäkyvyysFacebook näyttää that help you understand paraemmin tarkoitusta.
