

# Contents

**Foreword ..... v**

*Professor Stephen van Leeuwen and Dr Teagan Shields*

**Foreword ..... vii**

*Dr Ann Jones*

**Introduction ..... xii**

*Dr Perpetua Turner*

**Part 1    The path less travelled: leaders, pioneers and trailblazers ..... 1**

**The importance of tea and Tim Tams ..... 2**

*Professor Stephen van Leeuwen*

**A career in a changing climate ..... 6**

*Professor Lesley Hughes*

**Asking the big questions in ecology ..... 10**

*Professor Angela Moles*

**Australia, kingdom of the ants ..... 14**

*Professor Alan Andersen*

**Part 2    Finding a flock: networks and partners ..... 19**

**Two-way knowledge sharing in conservation ..... 20**

*Shandell Cummings and Dr Alison Lullfitz*

**Restoring habitat for the giant freshwater crayfish ..... 24**

*Fiona Marshall*

**Rodent control on Norfolk Island ..... 28**

*Mel Wilson and Dr Allie Andersen*

**Land management on a large scale ..... 32**

*Dr Heather Neilly*

**Mulyamiji March: collaborative threatened species monitoring ..... 36**

*Dr Rachel Paltridge*

**Part 3    Way out back: working in remote or unusual environments ..... 41**

Managing Sea Country in the Torres Strait ..... **42**

*Don Whap and Madeina David*

The highs and lows of work on remote islands ..... **46**

*Dr Jenn Lavers*

Amazing Antarctic mosses ..... **50**

*Professor Sharon Robinson*

Working with one of Australia's most elusive birds ..... **54**

*Saskia Gerhardy*

**Part 4    A bump in the road: challenges and loss ..... 59**

The impact of fire on Australian ecology ..... **60**

*Professor Don Driscoll*

Fieldwork in floodwaters ..... **66**

*Ariana La Porte*

The impact of feral cats ..... **70**

*Professor John Woinarski*

Long-term wetlands surveys ..... **74**

*Professor Richard Kingsford*

**Part 5    Forgotten species: species that are often overlooked ..... 81**

Towns and cities, the forgotten pockets of biodiversity ..... **82**

*Dr Caragh Threlfall*

The mysterious spider crab ..... **88**

*Dr Elodie Camprasse*

The pivotal role of mycorrhizal fungi ..... **94**

*Dr Adam Frew*

Invertebrate conservation: we know enough to act! ..... **98**

*Associate Professor Kate Umbers*

**Part 6    On the brink: threatened species ..... 105**

Australian sandalwood, a keystone species in trouble ..... **106**

*Dr Richard McLellan*

Fascinating frogs ..... **110**

*Dr Jodi Rowley*

The role of seed banks ..... **116**

*James Wood*

Conserving the eastern quoll ..... **120**

*Dr David Hamilton*

**Part 7    Hope: stories of success and progress ..... 125**

Recovery on Macquarie Island ..... **126**

*Associate Professor Justine Shaw*

How do herbivores find food? ..... **130**

*Dr Patrick Finnerty*

The return of humpback whales to Northern Territory waters ..... **134**

*Dr Carol Palmer*

Reviving threatened Indigenous languages to Care for Country ..... **138**

*Lynda Maybanks and Eleanor McCall*

Seagrass restoration ..... **142**

*Associate Professor Jason Tanner*

**Eyes to the future: words of advice ..... 149**

**List of photographers ..... 159**

**List of contributors ..... 161**

**Index ..... 165**
