List of abbreviations	viii	Myofibroblastoma	90
Foreword	ix	Myositis ossificans	92
1 Introduction to the WHO Reporting System for Soft Tissue Cytopathology	1	Soft tissue chondroma	96
Background	2	Rhabdomyoma	97
The role of soft tissue cytopathology	4	Glomus tumour	98
Integration of clinical, imaging, and key FNAB cytopathological features with ancillary testing in a diagnostic approach	6	Granular cell tumour	100
Diagnostic categories and report structure	8	Tenosynovial giant cell tumour	103
Risk of malignancy and diagnostic management recommendations	11	Sample reports	105
2 Soft tissue cytopathology techniques	15	5 Diagnostic category: Atypical	109
Introduction	16	Introduction	110
FNAB techniques and specimen management	17	Definition	110
Imaging guidance of soft tissue FNAB	19	Discussion and background	111
Rapid onsite evaluation	20	Risk of malignancy and diagnostic management recommendations	113
Cell preparation methods	21	Sample reports	114
Introduction: The role of ancillary testing	23	6 Diagnostic category: Soft tissue neoplasm of uncertain malignant potential (STNUP)	117
Flow cytometry	24	Introduction	118
Immunocytochemistry	25	Definition	118
In situ hybridization	32	Discussion and background	119
Molecular testing	35	Risk of malignancy and diagnostic management recommendations	120
3 Diagnostic category: Insufficient/Inadequate/Non-diagnostic	37	Dermatofibrosarcoma protuberans	121
Introduction	38	Solitary fibrous tumour	124
Definition	38	Inflammatory myofibroblastic tumour	126
Discussion and background	39	Angiomatoid fibrous histiocytoma	129
Risk of malignancy and diagnostic management recommendations	40	Myoepithelial neoplasms	131
Sample reports	41	PEComa	133
4 Diagnostic category: Benign	43	Sample reports	136
Introduction	45	7 Diagnostic category: Suspicious for malignancy	139
Definition	46	Introduction	140
Discussion and background	47	Definition	141
Risk of malignancy and diagnostic management recommendations	48	Discussion and background	142
Acute inflammation	49	Risk of malignancy and diagnostic management recommendations	143
Granulomatous and suppurative granulomatous inflammation	50	Sample reports	144
Fat necrosis	52	8 Diagnostic category: Malignant	147
Ischaemic fasciitis	54	Introduction	149
IgG4-related disease	56	Definition	150
Lipoma	57	Discussion and background	151
Hibernoma	59	Risk of malignancy and diagnostic management recommendations	152
Lipoblastoma	61	Atypical lipomatous tumour / well-differentiated liposarcoma	153
Spindle cell / pleomorphic lipoma	62	Dedifferentiated liposarcoma	156
Ganglion cyst	66	Pleomorphic liposarcoma	158
Intramuscular myxoma and juxta-articular myxoma	67	Myxoid liposarcoma	160
Fibromatosis	68	Myxofibrosarcoma	163
Nodular fasciitis	72	Myxoinflammatory fibroblastic sarcoma	165
Elastofibroma	76	Extraskeletal myxoid chondrosarcoma	166
Haemangiomas	78	Chordoma	169
Leiomyoma	81	Low-grade fibromyxoid sarcoma	172
Schwannoma	83	Gastrointestinal stromal tumour	174
Neurofibroma	86	Leiomyosarcoma	177
Perineurioma	88	Synovial sarcoma	180
		Kaposi sarcoma	183
		Angiosarcoma	184
		Malignant peripheral nerve sheath tumour	186

Malignant melanotic nerve sheath tumour	189	9 Diagnostic management recommendations for each diagnostic category	241
Infantile fibrosarcoma	190	Insufficient/Inadequate/Non-diagnostic	242
Spindle cell / sclerosing rhabdomyosarcoma	192	Benign	243
Extrarenal rhabdoid tumour	194	Atypical	244
Epithelioid haemangioendothelioma	196	Soft tissue neoplasm of uncertain malignant potential	245
Epithelioid sarcoma	199	Suspicious for malignancy	246
Alveolar soft part sarcoma	202	Malignant	247
Clear cell sarcoma of soft tissue	205		
Extraskeletal osteosarcoma	208	Contributors	249
Intimal sarcoma	210	Declaration of interests	251
Pleomorphic rhabdomyosarcoma	212	Sources	253
Undifferentiated pleomorphic sarcoma	214	References	257
Ewing sarcoma	216	Subject index	283
<i>CIC</i> -rearranged sarcoma	219	Previous volumes in the series	293
Sarcomas with <i>BCOR</i> genetic alterations	221		
Desmoplastic small round cell tumour	223		
Embryonal rhabdomyosarcoma	225		
Alveolar rhabdomyosarcoma	227		
Neuroblastic tumours	230		
Soft tissue metastases	233		
Sample reports	237
