

2008 BIG 12 SOFTBALL CHAMPIONSHIP

No. 1 Texas A&M vs. No. 10 Nebraska

Quotes

No. 1 Texas A&M 5, No. 10 Nebraska 0

May 11, 2008

ASA Hall of Fame Stadium

Nebraska Head Coach Rhonda Revelle

On Texas A&M senior pitcher Megan Gibson:

"What this reminded me of is a pitcher getting in the circle and saying you are not going to deny me and she had a lot of success with her history data base that she can go out and do that. It kind of reminded me Peaches back in '04 going through this tournament saying this is my senior year and this is my tournament. It is very understandable why she was player of the year and pitcher of the year and one of the ten best players in the nation. I think she has just as good of shot as anybody given what she has done this year."

On her team:

"I knew that emotionally that we had a lot in the tank but I just didn't know what we would have physically. I think Molly did a good job and it is not like they hit it hard, they just found spots but I didn't think we got on top of the ball as much as I would like to. You have to give them credit."

Texas A&M Head Coach Jo Evans

On winning the Championship

"It's just great to finally get that monkey off our back. We haven't played well at this tournament and I thought we came out this weekend and looked really good. We needed to have these three games to get us sharp and back ready to play postseason. It was really important for us to come out and play well. This is going to give us great momentum going into the postseason."

On making it back to Oklahoma City for the NCAA Women's College World Series...

"When we pulled up on the bus on that first day to come here and practice. It felt like we were playing where they play the College World Series. We were back in that realm, where before it has always been this is where we play the Big 12 tournament. Now it's nice to be at a place in our program where we walk in here and say, 'This is where you play the College World Series.' That's what we aspire to do this year, to be back at the World Series."
