John Roddick, Oklahoma Head Coach

On what he saw from his team today:

"We have to do a better job of taking opportunities when we have them. In certain spots we had opportunities early that we didn't take advantage of, and then the match ended up getting tough. That's a credit to Texas for playing really well and they are a tough team."

On rematch with Baylor:

"We've obviously played them three times already this year, so both teams know each other well and both teams know what they have to do. It's going to be up to the players at this point to make sure that they execute their game plans. Really I think whatever team executes is the team that is going to win tomorrow."

Michael Center, Texas Head Coach

On today's result:

"Obviously you are disappointed to lose. We didn't come here to play close. During conference season we had some points that got off the board on us pretty quickly where we got behind. We really wanted to challenge on all nine spots today and that's what I thought we did. We didn't execute in some critical points in the doubles, but we gave ourselves a chance and that's all you can ask for in match like that. I think we are walking out of here feeling a lot different about ourselves than we did the last time we played them"
