the iGovPhil Project officially adopts the Web Content Accessibility Guidelines (WCAG 2.0) as an accessibility standard for all its developments and related web services. WCAG 2.0 is also an international standard, ISO 40500. This certifies it as a stable and referential technical standard. WCAG 2.0 contains 12 guidelines organized under 4 principles: Perceptible, Operable, Understandable, and Robust (POUR for short). There are testable success criteria for each guideline. Compliance with these criteria is measured at three levels: A, AA or AAA. A guide to understanding and implementing the Web Content Accessibility Guidelines 2.0 is available at: All iGovPhil Project services and content are currently moving to WCAG A-level compliance. A job is being done to make the system fully compatible with this level. Accessibility features

Alpharetta & Cumming Internal Medicine physicians provide a comprehensive annual physical examination to identify risk factors so they can be treated in their early stages. Taking an annual physical examination provides your doctor with important reference information about your health so that you can receive the guidance and care you need to stay healthy as you age and as your medical needs change over time. Annual physical examinations also provide patients with an ideal opportunity to discuss any health-related concerns they may have. About Exam An adult annual physical examination begins with a complete personal and family medical history to look for risk factors and illnesses, as well as a review of any symptoms you may be having. Patients need to provide a list of all current medications, including painkillers, vitamins and supplements taken routinely. The examination itself will include a blood pressure screening, a weight measurement and an assessment of the eyes, ears, nose, throat, belly, lungs and heart (using a stethoscope). Blood testing and urinalysis can also be performed or ordered, and other tests or assessments may also be performed depending on your specific needs. At the end of the exam, you will receive medical advice to address existing medical issues that will help you lead a healthier life. Adult Physicist Tests Vital Signs Testicular Head & Neck & Prostate General Appearance Pulmonary Function of the Abdomen Pelvic Neurological Vision, Pap Smear, Breast Examination Chest X-Ray Heart Dermatological Hearing (EC) (EC) Comprehensive laboratory tests Laboratory testing is a critical part of your test and can detect changes in your blood that may not be seen on the surface. Your blood collection will be performed at Alpharetta and Cumming Internal Medicine so you don't have to worry about going to a second location for blood tests. We recommend that you fast twelve hours before the blood test. Laboratory tests may include: CBC Hgb A1C Flic CMP Iron Panel Vitamin B1, B2, B6 MG and Phos Hormone Panel Urine Analysis Thyroid Panel Vitamin D Auto Immune Panel Cholesterol Panel Vitamin B12 Food Allergy Testing Our medical practice is also equipped with the latest diagnostic testing equipment under one roof if you need more advanced screening or diagnostic tests to be performed during your annual physical examination. Participating in preventive health rather than waiting until diseases develop is commendable and important for its longevity. Routine physical examinations and preventive care can help you live a healthier and happier life! Scheduling Physical Examination The Philippine National Police formally launched today a new mobile app that provides an electronic platform for public access to PNP frontline services. iSerbis complements other existing mobile applications developed by PNP, such as ITAGA MO SA BATO, Bantay-Krimen; and is linked to similar service applications from other government agencies. must complete the Pre-Screen Medical Questionnaire and Physical Examination Guide for EPA.
