CALGARY, ALBERTA, NOVEMBER 27, 2018:

IQ Management Corporation (IQM) has completed a business agreement to jointly venture and create events with Energy Conference Network (ECN) in Canada. IQM will focus on building the market in Canada with ECN by supporting past IQM corporate and vendor clients, and innovating events in Canada for the future along with ECN acting as the conferencing delivery arm. The current portfolio of offerings from ECN will translate into winning high tech events in Canada. While IQM has a long history of events in Canada for associations, private corporate functions, and publically in the areas of enterprise infrastructure, enterprise architecture and CIO leadership topics the future ECN events will be all public
