

October 29-30, 2019

Hilton North Raleigh/Midtown Hotel * Raleigh/Durham, NC

For the past 7 years, several regional user groups including the Virginia Oracle Users Group, the Eastern States Oracle Applications Users Group, the Hampton Roads Oracle Users Group, and the Southeastern Oracle Users Group have joined together to co-host ECO. This regional collaboration targets both technical and functional Oracle users, including managers, directors, DBAs, developers, application users, and system analysts.

This prospectus includes information on available vendor, sponsorship, and corporate presentation opportunities. Our vendors and sponsors allow us to keep registration rates low. Therefore, we strive to provide our vendors with as much exposure as possible to all of the attendees in a relaxed and casual atmosphere, a feature not characteristic of the national user group events.
