“ADS Investment Solutions is looking forward to supporting the AIM Summit in its new location in Geneva, the home of the largest Private Banking network in the world and thousands of independent asset managers. This evolution of the Summit is a natural one, built upon years of success in both Abu Dhabi and Dubai by attracting asset managers and investors from all over the world to discuss the latest trends in the asset management industry. I look forward to giving the keynote speech about the benefits of investing into the GCC countries' financial markets, given the reclassification of several GCC countries into Emerging Markets, paving the way to their inclusion in the main Emerging Market indices.”

“Don't be afraid of the uncertainty of the future: instability created by disruption in economy, society and politics opens opportunities.”

H.S.H Prince Michael of Liechtenstein, Executive Chairman, Industrie- und Finanzkontor Ets.

“As the world's population continues to surge it becomes ever more pressing to increase the production of healthy foods using Earth-friendly farming methods that can be sustained into the future. The need is matched by opportunities for forward-thinking investors to deploy investment capital in ways that will simultaneously advance sustainability in agriculture and meet the need to feed additional millions, while generating real returns”
