

Global Sustainable Insurance Summit Virtual Series Sponsorship Opportunities

May-October 2026

The award-winning **Global Sustainable Insurance Summit (GSIS)** builds on two years of successful in-person convenings by expanding its reach in 2026 through a five-part virtual series. After bringing together hundreds of insurance leaders, regulators, investors, and climate experts in person, and thousands more virtually, GSIS and Ceres are continuing this momentum with an accessible, solutions-driven digital format.

Running from May through October, the 2026 GSIS series will explore the most critical themes from the **Ceres 10-Point Plan for the Insurance Industry**, offering a platform that broadens participation while maintaining the depth, rigor, and global perspective that GSIS is known for.

Each webinar will deliver actionable insights and industry-leading perspectives on topics ranging from climate-adjusted pricing and disclosure to resilient infrastructure, transition planning, and sustainable investment strategies.

Premier Series Sponsor | \$25,000

Sponsor the full series (up to two sponsors)

- Opportunity to provide live welcome remarks during up to two webinars of the series
- Opportunity to provide a pre-recorded video message at the close of up to two webinars of the series
