

## Oxford SM

Disclosure Report

Date Submitted: September 4th, 2023

## Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

# Disclosure Questionnaire Statement

## Disclosure Questionnaire Category: Disclosure Industries

<b>Topic</b>	Clients in Controversial Industries.
<b>Summary of Issue</b>	Oxford SM is a sales and marketing consultancy that has provided services to companies operating in the Alcohol and Pharmaceutical industries on an ongoing basis over the last 5 years. The nature of the company's work involves building a company's employee skills and capabilities; a service that can be sold to both companies in controversial as well as non-controversial industries.
<b>Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)</b>	Clients operating in the Alcohol industry represented 12.9% and clients in the Pharmaceutical industry represented 20.5% of the company's revenue in the FY2022.
<b>Impact on Stakeholders</b>	Companies that work with clients in controversial industries can indirectly increase the harmful impact to stakeholders by enabling business growth. Therefore, companies that work with clients in these industries should have practices in place to ensure that their impact is aimed at decreasing the negative impacts of the industry. B Lab has flagged the involvement of companies with clients in controversial industries as a material issue and new standards will be created to address possible risks related to this matter.
<b>Implemented Management Practices</b>	<p>OxfordSM has a policy in place to limit working with clients in controversial industries. New clients are evaluated considering the company's values and Good Growth Ambition, and potential clients are screened on a case by case basis. OxfordSM's Good Growth Ambition aims to increase work with companies that generate a positive impact and will not undertake work with companies that promote any of the following:</p> <ul style="list-style-type: none"><li>• Actively harm people and/or the planet eg gambling, mining, tobacco, fossil fuel production; arms, ammunition and conflict, predatory financial services such as loan sharks</li><li>• Are actively involved in lobbying or taking a position that would be harmful to people and/or planet eg lobbying against environmental policies, anti-competitive measures, limiting equitable access to medicines</li><li>• Evidence of operating in a way that harms people and or</li></ul>
