Disclosure Report

Date Submitted: April 25th, 2025

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

Management Practices

Client Screening Policy to evaluate potential clients who approach them from industries considered controversial. The decision to work with a client is based on a set of criteria that takes into account the client's industry, their Environmental, Social and Governance (ESG) practices, and their potential negative impact on society. The evaluation process includes screening questions, background checks, and a comprehensive risk assessment. The company's risk assessment includes an evaluation of how the client's operations could negatively affect the company's reputation, client relationships or the broader community (including whether their business model encourages harm, unethical behaviour or public distrust).

In addition, the company has established the following client exclusionary list:

- Illegal activities;
- Tobacco and E-cigarettes;
- Weapons and Armament Manufacturers;
- Private Gambling Operations;
- Companies with a History of Significant Harmful Practices.

Employees involved in the client intake process will undergo training on the Client Screening Policy and every year will receive a refresher course to review any updates to the policy.
