

POWERFY PTY. LTD. CAPABILITY STATEMENT

OVERVIEW

WHO we are

Powerfy Pty. Ltd. is an environmental technology and financing company. Powerfy is one of only three companies to be appointed to the Clean Energy Regulator panel for Clean Energy Technical Advisory Services.

WHAT we do

We do this by applying our knowledge and experience with metering, data capture, analytics and engineering using our Profit Engine™ for electricity, gas, water, thermal energy and compressed air, along with the TRNSYS simulation program.

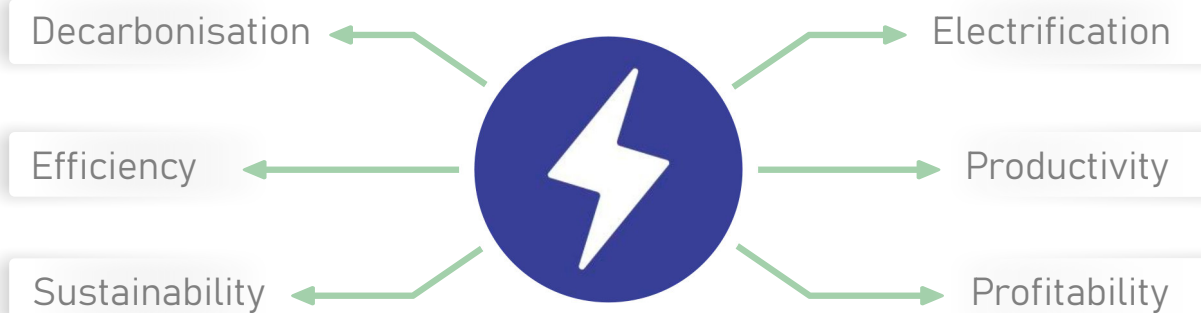

We access specialist funding, grants and rebates to lower the cost barriers to taking action and use a multidisciplinary approach to our work, delivering the right expertise for each client.

HOW we work

We are an independent and agile organisation focused on enhancing environmental, social and economic sustainability and increasing energy efficiency, renewable energy generation and energy productivity.

EXPERTISE

SERVICES

- ⚡ Implementing net zero pathways
